It s a fully revised and updated version of a book I wrote years ago about my personal method of getting deep into meditation This book is written to help you get into deep meditation through a different meditation task each day The purpose of this book is to get you used to meditation through variety Once you get the taste of deep meditation as a result of different meditation practices each day you won t need much variety after such an experience because the taste of meditation depths will keep you going The reason it s important to go beyond the surface is that once you touch upon realities not usually perceived during the waking consciousness this experience is so profound that you will naturally want to meditate after such a life changing event So that s the whole point of this book to get you to experience what lies beyond waking consciousness Although meditation experiences are not the end goal this is a very important point to reach because it will keep you motivated to continue your meditation Later on of course a meditator is supposed to go beyond the non physical experiences as they are only the scenery on your path to liberation So for some people the way to start is definitely through variety Otherwise they will get bored before they experience any depth of the meditative practice This book therefore is mainly written for people who find it difficult to meditate in the same way each day which makes them unable to go beyond the surface of this reality It s also written for those who are completely new to

meditation or as of yet have been unable to experience any depths of it A unique and engaging meditative practice each day will keep your interest strong enough to continue for a month and in this period the mind will relax enough to go beyond the waking consciousness making you experience realities that very few get to know Chinese Medical Qigong Tianjun Liu,Xiao Mei Qiang,2013-05-28 Correlating traditional Qigong therapies with outcomes of new scientific research this is the authoritative introduction to the knowledge system and content of Qigong study Revised and updated to reflect the new Chinese edition it has new information on key concepts and practice and on the application of Qigong for a range of conditions *Step by Step: Mastering Walking Meditation* Mykolaiv Iabluchanskyi,Andriy Yabluchanskiy, The book immerses readers in the world of walking meditation emphasizing its significance and benefits in the modern stressful world It provides a brief historical overview of meditation its development in cultural traditions around the world The authors highlight walking meditation as a practice that enhances both physical and mental health They discuss how it can optimize stress improve concentration and enhance work capacity and also emphasize its role in supporting the overall health maintenance process The book details the techniques of walking meditation its impact on health and how this practice can be integrated into everyday life Practical advice is given for integrating walking meditation into daily routines and methods for overcoming common obstacles are examined Directions and nuances of applying the practice in medicine are described The book serves as an educational resource and practical guide aimed at improving quality of life through a simple and accessible meditative practice It is intended for a broad audience **The Art of Peace** Supratim Chowdhury, Discover a path to inner peace and global transformation in *The Art of Peace* a thought provoking book by Supratim Chowdhury In *The Art of Peace* Supratim Chowdhury invites readers on a transformative journey to reclaim their humanity and inner peace in a world dominated by technology and discord Through a powerful exploration of collective consciousness and individual change this book offers a vision of hope and inspiration guiding readers to become beacons of light and catalysts for global transformation By awakening to our true nature and tapping into the collective consciousness of peace we can create a world worthy of our highest aspirations *Strength for Life* Shawn Phillips,2008-08-05 Shawn Phillips is an internationally respected strength and fitness expert who has helped athletes celebrities and tens of thousands of others over the past twenty years Now he's sharing his fresh approach to fitness with everyone *Strength for Life* is an easy to implement program to help you get in fantastic shape enjoy abundant energy and maintain a lean strong physique not just for 12 weeks but for the rest of your life Let's face it with the demands of family work and life many of us simply don't have the time to stick to a rigorous workout schedule Through his own life experience Shawn Phillips has recognized this challenge and risen to it literally reinventing fitness with a results oriented program that you can embrace even with your hectic schedule and do either at home or at the gym Homing in on the idea of building mental and physical strength rather than just sculpting your body Shawn has pioneered a technique called Focus Intensity Training FIT which uses the mind body connection to yield

incredible results The program features a workout plan that can take as little as 35 minutes a day 3 times a week illustrated exercises with clear step by step instructions 3 workout phases a 12 day Base Camp pre training period a 12 week Transformation Camp and a year round continuation plan geared to keep you going strong and vibrant for the rest of your life a simple eating plan to fuel your body for optimum energy and performance one that will free you from dieting forever goal setting exercises to help you achieve lasting motivation and reach your loftiest visions It s never too late to get in shape If you re in your twenties or thirties Strength for Life will show you how to achieve peak levels of fitness year after year For those forty and beyond you can look forward to recapturing the energy and vitality you thought you had lost By following Strength for Life you will make yourself stronger leaner sharper and more confident As Shawn writes Strength is about being more doing more giving more It s not just surviving it s thriving And most important strength is about having a reserve a deeper fuller capacity of body mind heart and soul
