The Social Anthropology of Radcliffe-Brown Adam Kuper, 2013-11-05 This is the first collection of Radcliffe Brown's work chosen to represent his books as well as his essays It includes some classic pieces and also one or two lesser known items Radcliffe Brown was a pioneer who established structural sociological anthropology in the face of the

entrenched traditions of ethnology and social evolutionism First published in 1977 **The Foundations of Social Anthropology** S.F. Nadel,2013-11-05 Focussing on the methodology of social anthropology this book covers the following The aims of social anthropology Observation and description Psychology in observation The material of observation Institutions Groupings Explanation Experimental anthropology Psychological explanations Function and pattern Originally published in 1951 **Towards an Operational Social Anthropology** Michel Verdon,2024-08-08 Anthropology's original aim that of Maine and Morgan in the second half of the nineteenth century was to explain social variability Behind that variability anthropologists searched for regularities that a theory would explain It was thus both comparative and positivist aiming to be scientific The first theory to emerge was evolutionism It was soon followed by functional structuralism structuralism and all the other isms that came after In the final analysis unlike scientific theories all these theories did not supplant one another but merely agglutinated The original project of a comparative and positivist anthropology thus completely failed and the new gurus explain it by the very nature of anthropology's subject human beings in society which they claim are not amenable to scientific discourse In this first of two books Professor Michel Verdon rejects this defeatist explanation To him the failure does not stem from anthropology's objects but from the knowing subject The explanation lies in the process of knowing it is epistemological and he finds the ultimate reason in the cosmology that underlies all theories and that no one has hitherto explored This enables him completely to upturn the traditional wisdom it is this implicit cosmology that radically hinders any conceptual rigour in the study of social organization since it defines groups in a way that makes them ontologically variable In the light of this unique diagnosis he can define a new language which he labels operational that yields rigorous comparisons leading to refutable and rectifiable theories In a second book that will soon follow he applies this language to a number of ethnographies and draws from them astonishing conclusions about societies traditionally studied by anthropology **Social Anthropology** E. E. Evans-Pritchard,2004 Social Anthropology explains and illustrates the methods of modern anthropology tracing its development from pre nineteenth century philosophical speculations and the empirical work of explorers missionaries and colonial servants up to the second half of the twentieth century First published in 1951 The Relevance of Models for Social Anthropology Association of Social Anthropologists of the Commonwealth,Conference on New Approaches in Social Anthropology, Jesus College, Cambridge, Eng., 1963,1965

History and Social Anthropology I.M. Lewis,2013-10-08 Examining the ways in which social anthropologists might gain from and contribute to historical studies this volume contains papers on historical studies by anthropologists on 19th century Nupe Yoruba and Benin and 17th century Cameroons in West Africa on the succession in kingship in Buganda and on the development of national politics in Albania First published in 1968 *Dictionary of Concepts in Cultural Anthropology* Robert H. Winthrop,1991-11-18 The field of cultural anthropology describes and interprets the thought and behavior of contemporary and near contemporary societies Inherently pluralistic it offers a framework in which the distinctive

perspectives of each cultural world can be appreciated Robert Winthrop's dictionary describes the major concepts that have shaped the discipline both historically and theoretically It sets modern anthropology in its proper context within the broader intellectual tradition Eighty entries review the key concepts culture race nature symbolism adaptation the primitive etc that have established the fundamental problems and issues guided research and served as the focus for debate in key areas of the discipline The entries which range from 2 000 to 6 000 words in length are both thorough in treatment and contemporary in relevance Some entries are primarily of historical significance while others describe recent developments Each entry contains an annotated bibliography and a guide to additional reading on the subject While this is not primarily a technical lexicon many terms have been glossed and explained Designed to be useful to students of anthropology this dictionary will assist those in other disciplines to find their way through the anthropological labyrinth

An Introduction to Two Theories of Social Anthropology Louis Dumont, 2006 Louis Dumont who died in 1998 was one of the most important figures in post war French anthropology He is well known for his early work on India which culminated in *Homo Hierarchicus* 1966 in English 1972 1980 an anthropological account of the caste system He later extended this work into a comparison of the values of Indian and western society in works like *Essays on Individualism* 1986 and *German ideology From France to Germany and Back* 1994 He is also known for pioneering work on kinship in south India and more generally for example *Affinity as a Value* 1983 The current volume represents the fruits of this side of his activities and originated in as a series of lectures providing an account of the British and French schools for students
