Ethics and Religion Harry J. Gensler, 2016-05-31 Many people question whether God is the source of morality Under divine command theory God's will creates the moral order and therefore ethical truths are true because of God's will Under natural law on the other hand some ethical truths do not depend on God's will and yet perhaps they depend on his reason or creation Ethics and Religion develops strong defensible and original versions of both divine command theory and natural law The book also discusses ethics and atheism how atheists object on ethical grounds to belief in God and how they view ethics The book defends belief in God from criticisms and analyzes related concepts such as practical reason the golden rule ethics and evolution the problem of evil and the fine tuning argument
