Religion And Community:

Religion and Community in the New Urban America Paul D. Numrich, Elfriede Wedam, 2015-03-16 Religion and Community in the New Urban America examines the interrelated transformations of cities and urban congregations The authors ask how the new metropolis affects local religious communities and what role those communities play in creating the new metropolis Through an in depth study of fifteen Chicago congregations Catholic parishes Protestant churches Jewish synagogues Muslim mosques and a Hindu temple both city and suburban this book describes congregational life and measures congregational influences on urban environments Paul D Numrich and Elfriede Wedam challenge the view held by many urban studies scholars that religion plays a small role if any in shaping postindustrial cities and that religious communities merely adapt to urban structures in a passive fashion Taking into account the spatial distribution of constituents internal traits and external actions each congregation s urban impact is plotted on a continuum of weak to moderate to strong thus providing a nuanced understanding of the significance of religion in the contemporary urban context Presenting a thoughtful analysis that includes maps of each congregation in its social geographic setting the authors offer an insightful look into urban community life today from congregations to the places in which they are embedded Religion, Community and Development Gurpreet Mahajan, Surinder S. Jodhka, 2010-06-02 Papers presented at a seminar organized at Jawaharlal Nehru University on Mar 2007 **Community as Church, Church as Community** Michael Plekon, 2021-07-22 Parishes of all denominations are in decline shrinking closing dying We know that there are increasing numbers young and older who are religious nones and dones This book explores why the decline is taking place why the distancing is going on But it goes on to examine parishes from all over the country and from various church bodies that are resurrecting The central theme of death and resurrection shapes the analysis of parishes covered Parishes are resurrecting by reinventing their ministries by repurposing their building to better serve their neighborhoods thus replanting and reconnecting with them All of this is the Spirit s doing but through the community of sisters and brothers who make up each congregation of faith Community as the core of church is the other reality shaping the book s reflection And community a parish being with those around living for more than its own survival are visions for going forward Other aspects of congregational life are also examined most importantly the pastors how they serve when budgets shrink how they are trained how pastors act with the community not above it No recipes are suggested for parish resurrection but the stories of the parishes that have revived bear within numerous lessons for us in the future **Religion and Community** Keith Ward, 2023 Religion is an important social force both for good and evil in the modern world This book considers the main ways in which religion and society interact and the ways in which the major world religions need to adapt themselves in the modern world Religion, Community, and Education Mohd. Sanjeer Alam, 2012-01-27 Religion based educational disparities especially relative educational backwardness amongst the Muslims in India are the focus of serious debate The 2006 Sachar Committee Report rekindled

public interest and attention in this important issue Yet considerable gaps exist in our understanding of the dynamics of religion and access to education In Religion Community and Education Alam uses a spatial approach and multilayered analytical framework to understand educational disparities in schooling between the Hindus and Muslims in Bihar The study draws upon national level data as well as focused fieldwork carried out in Bihar s Patna and Purnia districts This book highlights the larger historical trajectories that have shaped educational development as well as the forms of disparities therein vis vis the minorities in India It contends that the relative educational backwardness of the Muslims reflects underlying socio economic patterns that are often overlooked Thus the Muslims should not be seen merely as homogeneous socio cultural aggregates

Religion and Community ,2000-03-02 Religion is an important social force both for good and evil in the modern world In the final volume of his comparative theology Keith Ward considers the main ways in which religion and society interact and the ways in which the major world religions need to adapt themselves in the modern world These religions are examined as forms of social life ranging from communities which seek to renounce the world to those which

seek to embody the laws of God in society those which see religions in critical dialogue with social structures and those which see religion as a primarily individual matter The ideas of eretz Yisrael the umma of Islam the Buddhist sangha the Christian church and the Hindu sampradaya are critically analysed Ward also considers the doctrine of the church in Aquinas Calvin Schleiermacher and Tillich and develops a view of the church in a global perspective by means of both a historical and thematic approach He proposes a radical vision of the church as a person affirming world transforming society in the emerging global community of many faiths and cultures The relation of religious belief and morality and the ambiguous role of religion in society is investigated and the need for a new religious paradigm is defended expressing a global perspective without insistence on uniformity
