Religious Messages in the Media Terézia Rončáková, 2021-01-06 Can religious messages be transmitted through the media If so how and why Taking these questions as its starting point and focusing on the relationship between media and religion this book presents an analysis of the relationship between religion and the media It explores the inherent qualities of media communication channels and codes and the ways in which they affect the dissemination of religious messages as well as the arguments over religion used in public discourse The book also presents a critical analysis of church media in Slovakia and shows that although the media do have the capacity to convey religious messages they can only do so in a superficial manner and thus do not represent a suitable instrument for mediating deep spiritual content or serving as a vehicle for evangelization Another key finding here is that the differences between the basic argumentation structures of the religious and secular worlds are irreconcilable meaning that conservatives and progressives can expect little more than a basic sense of tolerance and decency from each other

Cortada,2016-03-16 This is the first national history of the role of information in the United States from the 1870s to the present It explores the use of information in the private and public sectors and in the private lives of Americans It argues that this role of information was as important in shaping the United States as the settling of the West the creation of a nation out of immigrants and its democracy Christian Worldview and the Academic Disciplines Deane E. D. Downey,Stanley E.

Porter,2009-04-15 This book an edited compilation of twenty nine essays focuses on the difference s that a Christian worldview makes for the disciplines or subject areas normally taught in liberal arts colleges and universities Three initial chapters of introductory material are followed by twenty six essays each dealing with the essential elements or issues in the academic discipline involved These individual essays on each discipline are a unique element of this book These essays also treat some of the specific differences in perspective or procedure that a biblically informed Christian perspective brings to each discipline Christian Worldview and the Academic Disciplines is intended principally as an introductory textbook in Christian worldview courses for Christian college or university students This volume will also be of interest to Christian students in secular post secondary institutions who may be encountering challenges to their faith both implicit and explicit from peers or professors who assume that holding a strong Christian faith and pursuing a rigorous college or university education are essentially incompatible This book should also be helpful for college and university professors who embrace the Christian faith but whose post secondary academic background because of its secular orientation has left them inadequately prepared to intelligently apply the implications of their faith to their particular academic specialty Such specialists be they professors or upper level graduate students will find the extensive bibliographies of recent scholarship at the end of the individual chapters particularly helpful From Yahweh to Yahoo! Doug Underwood,2010-10-01 Presenting religion as journalism s silent partner From Yahweh to Yahoo provides a fresh and surprising view of the religious impulses at work in contemporary newsrooms Focusing on how the history of religion in the United States entwines with the growth of

the media Doug Underwood argues that American journalists draw from the nation's moral and religious heritage and operate in important ways as personifications of the old religious virtues Underwood traces religion's influence on mass communication from the biblical prophets to the Protestant Reformation from the muckraker and Social Gospel campaigns of the late nineteenth and early twentieth centuries to the modern age of mass media While forces have pushed journalists away from identifying themselves with religion they still approach such secular topics as science technology and psychology in reverential ways Underwood thoughtful analysis covers the press's formulaic coverage of spiritual experience its failure to cover new and non-Christian religions in America and the complicity of the mainstream media in launching the religious broadcasting movement
