Religion And Politics In Africa:

Religion and Politics in Africa Jeffrey Haynes, 1996 The impact of religion on the political process has come to the fore in recent years in a wide variety of societies Yet the significant and varied ways in which the rapidly changing religious context has impacted on the politics of modern Africa is still a relatively neglected field This book which is designed to fill this gap in the teaching of African Politics assembles and analyses an enormous amount of hitherto scattered material on the interaction between politics and religious groups in the post independence but also colonial eras Worlds of Power Stephen Ellis, Gerrie ter Haar, 2004 With Christian revivals including Evangelicals in the White House Islamic radicalism and the revitalisation of traditional religions it is clear that the world is not heading towards a community of secular states Nowhere are religious thought and political practice more closely intertwined than in Africa African migrants in Europe and America who send home money to build churches and mosques African politicians who consult diviners guerrilla fighters who believe that amulets can protect them from bullets and ordinary people who seek ritual healing all of these are applying religious ideas to everyday problems of existence at every level of society Far from falling off the map of the world Africa is today a leading centre of Christianity and a growing field of Islamic activism while African traditional religions are gaining converts in the West One cannot understand the politics of the present without taking religious thought seriously Stories about witches miracles or people returning from the dead incite political action In Africa religious belief has a huge impact on politics from the top of society to the bottom Religious ideas show what people actually think about the world and how to deal with it Ellis and Ter Haar maintain that the specific content of religious thought has to be mastered if we are to grasp the political significance of religion in Africa today but their book also informs our understanding of the relationship between religion and political practice in general *Pentecostalism and Politics in Africa* Adeshina Afolayan, Olajumoke Yacob-Haliso, Toyin Falola, 2018-06-29 As the epicenter of Christianity has shifted towards Africa in recent decades Pentecostalism has emerged as a particularly vibrant presence on the continent This collection of essays offers a groundbreaking study of the complex links between politics and African Pentecostalism Situated at the intersection between the political the postcolonial and global neoliberal capitalism contributors examine the roots of the Pentecostal movement s extraordinary growth how Pentecostalism intervenes in key social and political issues such as citizenship party politics development challenges and identity and conversely how politics in Africa modulate the Pentecostal movement *Pentecostalism and Politics in Africa* offers a wide ranging picture of a central dimension of postcolonial African life opening up new directions for future research *Religion and Politics in South Africa* Abdulkader Tayob, Wolfram Weisse, *Religion & Politics in East Africa* Holger Bernt Hansen, 1995 *Religion & Politics in East Africa* Holger Bernt Hansen, Michael Twaddle, 1995-01 Religious activities have been of continuing importance in the rise of protest against post colonial governments in Eastern Africa *Religious Ideas and Institutions* Edmond Joseph Keller, Ruth Iyob, 2012 In the

latest phase of political transitions in Africa analysts rarely consider the relationship between religion and politics This book addresses this need arguing that for democracy to be consolidated political leaders must make the right institutional choices choices that structure the incentives of their constituents as well as their own away from antagonistic forms of politics or religious extremism What impact do African contemporary religious organizations and elites have on their societies in terms of intergroup reciprocity and political bargaining The primary objective of this volume is to analyze how such organizations respond to the political signs and gestures of other groups in a like minded manner and the nature and effects of their negotiations with the State and other interests over contested matters The book s contributors hypothesize that Africa s religious organizations can prove critical in the way their elites make demands on the State and in the way they help to shape the structure of intergroup relations in constructive or destructive directions The authors consider the roles of both secular and religious elites and institutions in creating a political climate that enables elites to consolidate democracy

From Pews to Politics Gwyneth H. McClendon, Rachel Beatty Riedl, 2019-11-14 Does religion influence political participation This book takes up this pressing debate using Christianity in sub Saharan Africa as its empirical base to demonstrate that religious teachings communicated in sermons can influence both the degree and the form of citizens political participation McClendon and Riedl document some of the current diversity of sermon content in contemporary Christian houses of worship and then use a combination of laboratory experiments observational survey data focus groups and case comparisons in Zambia Uganda and Kenya to interrogate the impact of sermon exposure on political participation and the longevity of that impact Pews to Politics in Africa leverages the pluralism of sermons in sub Saharan Africa to gain insight into the content of cultural influences and their consequences for how ordinary citizens participate in politics
