In addition to practical guidance on the researching and writing up of projects, this book includes essential guidance on effective time management and how to ensure that projects are completed and submitted on time, as well as invaluable insights through real life student and supervisor comments. Researching and Writing a Dissertation for Business Students Colin M. Fisher, 2004 Success in your dissertation is crucial to your overall success in your master's qualification. Taking a step by step approach, this book guides you through choosing, planning, researching and writing your dissertation. You will be encouraged to develop relevant skills and each step is illustrated by an example of what to do and sometimes of what not to do. Crucially, the assessment criteria are explained so that your work is focussed around the relevant academic objectives. Acknowledging that project work is often not sequential but demands consideration of several stages at once, it advises how to juggle these challenges. Key features of this book: Focuses on how to survive and excel in your dissertation, aligning your work with academic assessment criteria. Takes a step by step, skills based approach, guiding you through all aspects of your dissertation. Helps develop arguing and writing skills useful in academia and the world of work beyond your dissertation. Doesn't forget its sense of humour and encourages you not to forget yours. Colin Fisher is a principal lecturer in Human Resource Management at Nottingham Business School, Nottingham Trent University. He and Alan Lovell have recently published *Business Ethics Values* with Pearson Education. Colin has also helped hundreds of Nottingham Trent University students through their master's projects.
