Invisible Asians Kim Park Nelson,2016-03-18 The first Korean adoptees were powerful symbols of American superiority in the Cold War as Korean adoption continued adoptees visibility as Asians faded as they became a geopolitical success story all American children in loving white families In Invisible Asians Kim Park Nelson analyzes the processes by which Korean American adoptees have been rendered racially

invisible and how that invisibility facilitates their treatment as exceptional subjects within the context of American race relations and in government policies *Invisible Asians* draws on the life stories of more than sixty adult Korean adoptees in three locations Minnesota home to the largest concentration of Korean adoptees in the United States the Pacific Northwest where many of the first Korean adoptees were raised and Seoul home to hundreds of adult adoptees who have returned to South Korea to live and work Their experiences underpin a critical examination of research and policy making about transnational adoption from the 1950s to the present day Park Nelson connects the invisibility of Korean adoptees to the ambiguous racial positioning of Asian Americans in American culture and explores the implications of invisibility for Korean adoptees as they navigate race culture and nationality Raised in white families they are ideal racial subjects in support of the trope of colorblindness as a cure for racism in America and continue to enjoy the most privileged legal status in terms of immigration and naturalization of any immigrant group built on regulations created specifically to facilitate the transfer of foreign children to American families *Invisible Asians* offers an engaging account that makes an important contribution to our understanding of race in America and illuminates issues of power and identity in a globalized world Methodologies in Peace Psychology Diane Bretherton, Siew Fang Law, 2015-09-03 This volume looks at research methods through the lens of peace studies and peace values Apart from reviewing established methods from peace psychology it presents some innovative ideas for conducting research in the area of peace psychology Many of these methods are drawn from the field from activities used by active peace practitioners A critical component of this volume is its core argument that peace research should be conducted by peaceful means and should model peaceful processes Organized thematically the volume begins with a review of the established best practices in peace psychology research methodology including methods for qualitative research for quantitative research and participative action networks In doing so it also points to some of the limitations of working for peace within the tradition of a single discipline and to the need to expand psychology methodology to methodologies Therefore the second half of the volume proceeds to explore the realm of innovative relatively unorthodox research methods such as participatory and workshop methods the creative arts and sports for research purposes The use of new advances in information technology to conduct peaceful research are also discussed The concluding chapters synthesize key issues from the previous chapters and links peace psychology with ideas and implementation of research designs and practices Finally it discusses the nature of academic knowledge and more specifically academic knowledge in peace psychology and where that fits into the mission to build a more peaceful world Overall this book aims to provide peace psychologists with an array of possibilities and best practices for approaching their research Many researchers find the experience of doing research a somewhat lonely if not isolating experience *Methodologies in Peace Psychology* Peace Research by Peaceful Means aims to alleviate this feeling as the use of these more innovative methods leads to a closer engagement with the community and a much more social experience of research This volume is a useful tool for both new and experienced researchers because it

provides leads for idealistic young researchers who want their work to make a difference in addition to encouraging more reflection and analysis for experienced peace psychologists **The 'Local Turn' in Peacebuilding** Joakim Ojendal, Isabell Schierenbeck, Caroline Hughes, 2018-10-11 Contemporary practices of international peacebuilding and post conflict reconstruction are often unsatisfactory There is now a growing awareness of the significance of local governments and local communities as an integrated part of peacebuilding in order to improve quality and enhance precision of interventions In spite of this the local is rarely a key factor in peacebuilding hence everyday peace is hardly achieved The aim of this volume is threefold firstly it illuminates the substantial reasons for working with a more localised approach in politically volatile contexts Secondly it consolidates a growing debate on the significance of the local in these contexts Thirdly it problematizes the often too swiftly used concept the local and critically discuss to what extent it is at all feasible to integrate this into macro oriented and securitized contexts This is a unique volume tackling the local turn of peacebuilding in a comprehensive and critical way This book was published as a special issue of Third World Quarterly **Research Methods in Conflict**

Settings Dyan Mazurana, Karen Jacobsen, Lacey Andrews Gale, 2013-07-22 This volume compiles lessons learned by field researchers many of whom have faced demanding situations characterized by violence distrust and social fragmentation

Research as More Than Extraction Annie Bunting, Allen Kiconco, Joel Quirk, 2023-10-24 This volume offers practical detailed guidance and case studies on how to avoid exacerbating inequalities while researching gender based violence and other related issues in Africa Wartime violence and its aftermath present numerous practical ethical and political challenges that are especially acute for researchers working on gender based and sexual violence Drawing upon applied examples from across the African continent this volume features unique contributions from researchers and practitioners with decades of experience developing research partnerships designing and undertaking fieldwork asking sensitive questions negotiating access collecting and evaluating information and validating results These are all endeavors that also raise pressing ethical questions especially in relation to retraumatization social stigma and even payment of participants Ethical and methodological questions cannot be separated from political and institutional considerations Systems of privilege and marginalization cannot be wished away so they need to be both interrogated and contested This is where precedents and power relations established under colonialism and imperialism take center stage Europeans have been extracting valuable resources from the African continent for centuries Research into gender based violence risks being yet another extractive industry There are times when committed individuals can make valuable contributions to a more equitable future but funding streams knowledge hierarchies and institutional positions continue to have powerful effects Accordingly the contributors to this volume also concentrate upon the layered effects of power and position relationships between researchers organizations and communities and the political economy of knowledge production this brings into focus questions about how and why information gets generated for which kinds of audiences and for whose benefit **The Myth of Self-Reliance** Naohiko

Omata,2017-06 For many refugees economic survival in refugee camps is extraordinarily difficult Drawing on both qualitative and quantitative research conducted over several years this volume challenges the reputation of a self reliant model given to Buduburam refugee camp in Ghana and sheds light on considerable economic inequality between refugee households The Myth of Self Reliance provides valuable insights into refugees experiences of repatriation to Liberia after protracted exile and their responses to the ending of refugee status for remaining refugees in Ghana **South Sudan's Injustice System**

Rachel Ibreck,2019-08-30 Coming into existence amid a wave of optimism in 2011 South Sudan has since slid into violence and conflict Even in the face of escalating civil war however the people of the country continue to fight for justice despite a widespread culture of corruption and impunity Drawing on extensive new research Rachel Ibreck examines people s lived experiences as they navigate South Sudan s fledgling justice system as well as the courageous efforts of lawyers activists and ordinary citizens to assert their rights and hold the government to account In doing so the author reveals how justice plays out in a variety of settings from displacement camps to chiefs courts and in cases ranging from communal land disputes to the country s turbulent peace process Based on a collaborative research project carried out with South Sudanese activists and legal practitioners the book also demonstrates the value of conducting researching with rather than simply about those affected by conflict At heart this is a people s story of South Sudan what works in this troubled country is what people do for themselves
