Parameters ,1999 **Army Echoes** ,1991 [Catalog of Publications](#) ,1998 **An Overview of Past Proposals for**

Military Retirement Reform John Christian,2006 By one estimate between fiscal years 1995 and 2005 total compensation costs for current and former military personnel increased by almost 60 percent The military retirement benefit remains a significant portion of these costs and every change to accessions retention and basic pay today will have a future effect on pension expenditures This technical report provides an overview of the history of U S military retirement studies and associated legislation with a particular focus on the past 60 years of proposed reforms It is organized around the following five major issues that have driven attempts at retirement system reform cost equity selective retention civilian comparability and force management flexibility The author finds that cost alone is reason to analyze the current retirement system and reform proposals of the past have focused carefully on cost However he also finds that as the military s mission evolves over time it is also important to consider the sometimes subtle incentive effects that the retirement system has on service member behavior Beyond considerations of cost reform of the military retirement system necessarily involves ramifications for force structure and operational readiness *The Army Lawyer* , *Activation and the Earnings of Reservists* David S.

Loughran,Jacob Alex Klerman,Craig W. Martin,2006 Activation imposes a variety of costs on reservists Among those costs is a potential decline in earnings during the period of activation In this study RAND researchers compute how earnings change when a reservist is activated using administrative data on military and civilian earnings obtained from the Department of Defense DOD and teh Social Security Administration SSA The study employs a comprehensive measure of annual earnings and covers the experiences of virtually all reservists activated in support of the Global War on Terrorism through 2003 Contrary to conventional wisdom and DOD survey evidence the RAND study indicates that on average the earnings of reservists increase substantially when activated Moreover earnings gains increase length of active duty servcie Some reservists do experience an earnings loss when activated but the probability of experiencing an earnings loss declines with length of active duty service Even so these large earnings gains may be insufficient to compensate reservists for the hardship of active duty [Air Force Magazine](#) ,2015 **2007 Reserve Forces Almanac** ,2007 *Monthly Catalog of United States*

Government Publications ,2003 *Armed Conflict* Brian Steed,2009-03-25 What challenges will America face in armed conflicts of the future and how will we prepare for them National security depends upon the ability of the military to predict the future nature of war Despite the difficulty in making such predictions one must remember nation states and other countries will continue to use armed conflict as a means to further their aims and these aims will at times run contrary to American interests As a result the United States will continue to be confronted with armed conflict in the days and years ahead A military theorist and experienced armor officer Brian Steed provides insights into the future of armed conflict by

focusing on what has occurred in the past not because the past repeats itself but because it reveals timeless principles of warfare Five battles one each in Korea Vietnam the Falklands the Persian Gulf and Somalia are analyzed historically geographically and strategically Steed s analysis of these engagements clearly demonstrates that the key to victory on the battlefields of the future is the small unit In refreshing layman s prose the author focuses on why the events occurred as they did and explores the significance of each battle in terms of its political and military ramifications He concludes with lessons learned that will greatly benefit future American ground combat commanders Armed Conflict informs the reader about the historical trends of combat operations and the realities of war today and into the future It will also serve to guide a new generation of military and civilian leaders as they prepare to face the inevitable conflicts in the new century Statement of Disbursements of the House ,1997 **Statement of Disbursements of the House** United States.
