## **Reshaping Teaching In Higher Education Linking Teaching With Research:**

**Reshaping Teaching in Higher Education** Alan Jenkins, 2003 Linking research with teaching is one of the main topics in the educational development world This practice based guide shows how academic research activity can be connected to academic teaching activity to ensure that neither operates in a vacuum and each can be enhanced by the other Addressing issues at the individual course and institutional level and written for an international readership this will be a key book for course leaders and educational developers [Reshaping Teaching in Higher Education](#) Rosanna Breen, Angela Brew, Alan Jenkins, Roger Lindsay, 2003-12-16 Linking research with teaching is one of the main topics in the educational development world This practice based guide shows how academic research activity can be connected to academic teaching activity to ensure that neither operates in a vacuum and each can be enhanced by the other Addressing issues at the individual course and institutional level and written for an international readership this will be a key book for course leaders and educational developers [Teaching and Research in Contemporary Higher Education](#) Jung Cheol Shin, Akira Arimoto, William K. Cummings, Ulrich Teichler, 2013-07-19 This book discusses how teaching and research have been weighted differently in academia in 18 countries and one region Hong Kong SAR based on an international comparative study entitled the Changing Academic Profession CAP It addresses these issues using empirical evidence the CAP data Specifically the focus is on how teaching and research are defined in each higher education system how teaching and research are preferred and conducted by academics and how academics are rewarded by their institution Since the establishment of Berlin University in 1810 there has been controversy on teaching and research as the primary functions of universities and academics The controversy increased when Johns Hopkins University was established in 1876 with only graduate programs and more recently with the release of the Carnegie Foundation report Scholarship Reconsidered by Ernest L Boyer in 1990 Since the publication of Scholarship Reconsidered in 1990 higher education scholars and policymakers began to pay attention to the details of teaching and research activities a kind of black box because only individual academics know how they conduct teaching and research in their own contexts [Improving Teaching And Learning In Higher Education: A Whole Institution Approach](#) D'Andrea, Vaneeta, Gosling, David, 2005-08-01 Universities are increasingly being required to pay greater attention to improving teaching and enhancing student learning This text will assist universities and colleges to achieve these goals by establishing an approach to institutional change which is well founded on both research and practical experience **Peer Review of Learning and Teaching in Higher Education** Judyth Sachs, Mitch Parsell, 2013-10-22 Incorporating both theoretical and practical perspectives this volume of papers explores varied aspects of peer review of teaching in higher education The section on theory features contributions from academics based in Europe North America and Australia It provides a number of models demonstrating ways in which collegial peer commentary can enhance the quality of learning and teaching The chapters examine in detail the importance of communication and leadership and deploy evidence from one

on one interviews that evince the value of considering collegiality emotions attitudes and spaces in peer review The analysis shows how these factors are central to the ways in which lecturers and teachers communicate with each other to create constructive opportunities for learning The chapters on practical considerations detail the peer review process and include case studies from institutions in Africa Europe North America and Australia which focus on different areas of the topic including peer review as a quality assurance mechanism peer review in distance education peer review in foundation courses and peer review embedded within a department and across a university The book ends with an international perspective on the role of peer review in ensuring a holistic approach to quality enhancement in learning and teaching *Learning and Teaching in Higher Education* Greg Light,Susanna Calkins,Roy Cox,2009-06-04 Around the world higher education services are challenged by increased numbers and diversity of students tougher demands for professional accountability increasing calls for educational relevance and thinning resources *Learning and Teaching in Higher Education The Reflective Professional* addresses key issues in the practice and theory of teaching and learning in the sector The authors draw upon theory practice and current research to provide a new way of thinking about the many aspects of learning and teaching in higher education enabling the reader to critically reflect upon their teaching Education Development and Leadership in Higher Education Kym Fraser,2004-11-10 In today s highly competitive and globalized higher education market leaders and managers find themselves considering the same issues of quality assurance increased participation the potential of new technologies and improving standards of teaching learning and leadership Education development has a central role to play in these areas and should be a core element in the strategic positioning of all higher education institutions This book is a packed with research and proven case study material on what education development can offer managers in higher education It draws from worldwide experiences of leading innovative educational developers and illustrates the numerous ways in which education development strategies structures and processes can make a difference to an institution s corporate strategy Active Learning and Student Engagement Mick Healey,Eric Pawson,Michael Solem,2013-09-13 This book examines significant issues in geography teaching and learning from the perspectives of an international network of academic geographers and postgraduate students Drawing on classroom experiences and research in a wide variety of educational settings the authors describe conceptually interesting and practical applications for enhancing student learning through inquiry problem based learning field study online collaboration and other highly engaging forms of pedagogy Other articles focus on approaches for improving the experiences of distance learners strategies for enhancing the employability of geography students and preparing students to engage ethical issues in the discipline An international audience of educators will find much of value through the use of comparative examples literature reviews encompassing research in multiple national contexts and an underlying awareness of the diversity of practices in higher education internationally This book is a collection of articles previously published in two special issues of the *Journal of Geography in Higher Education* *Teaching*

*Politics and International Relations* C. Gormley-Heenan, 2012-03-12 A state of the discipline approach to teaching and learning in Politics and IR including contributions which discuss the most cutting edge approaches techniques and methodologies for tutors This book discusses the themes and challenges in teaching and learning whilst also exploring these in the specific context of political science and IR

**Reshaping Teaching in Higher Education** Breen Jenkins, 2002

Annotation Linking research with teaching is one of the main topics in the educational development world This practice based guide shows how academic research activity can be connected to academic teaching activity to ensure that neither operates in a vacuum and each can be enhanced by the other Addressing issues at the individual course and institutional level and written for an international readership this will be a key book for course leaders and educational developers

Disabled Students in Education: Technology, Transition, and Inclusivity Moore, David, 2011-10-31 There can be little doubt that the rapid technological developments that have characterized the decades since the middle of the 19th century have given great scope for improving the quality of life of disabled people Disabled Students in Education Technology Transition and Inclusivity reports on 15 research projects aimed at improving the educational prospects of disabled people Through its discussion of three main themes technology transition and inclusivity this book aims to be of interest to disabled students their parents and teachers and the people who run and set policies for their educational providers

**Advancing Practice in Academic Development** David Baume, Celia Popovic, 2016-01-13 Within the field of academic development the last twenty years have seen a great expansion of published research into practice and the further development of theoretical approaches This growth in the scholarship of academic development matches a growth in the scholarship of teaching and learning Advancing Practice in Academic Development draws on these evolving scholarships to advance professional practice in academic development addressing questions such as How have global academic developers and their units developed and changed over recent decades How has the context in which academic development work is done altered What have academic developers and their professional associations learnt Case studies and examples are used throughout the text to illustrate development scenarios and methods Academic development is considered as among others a critical a scholarly a principled a pragmatic a supporting and a leadership role This book is ideal for use on academic development courses run by SEDA and other international organisations as well as by those who have responsibility for leading the improvement of educational practice Written in a scholarly accessible stimulating and practical style this book acknowledges difficulties and offers ways forward As well as analysing problems it offers solutions Links to web sources referenced in this book can be found at [www.seda.ac.uk/apad](http://www.seda.ac.uk/apad)

Reforming Higher Education in Vietnam Grant Harman, Martin Hayden, Thanh Nghi Pham, 2009-12-16 Vietnam is a dynamic member of the community of Southeast Asian nations Consistent with aspirations across the region it is seeking to develop its higher education system as rapidly as possible Vietnam's approach stands out however as being extremely ambitious Indeed it may be at risk of attempting to do too much too quickly By 2020 for example Vietnam expects

its higher education system to be advanced by modern standards and highly competitive in international terms This vision faces many challenges The economy though growing rapidly remains reliant on the availability of unskilled labour and the exploitation of natural resources and decision making in many areas of public life continues to be hamstrung by a legacy of over regulation and centralised control A large number of goals and objectives have been set for reform of the higher education system by 2020 The success of these reforms will have a major bearing on the future quality of the system This sober assessment Vietnam s global competitiveness forms a backdrop to the subject matter of this book that is the state of Vietnam s higher education system The book provides a comprehensive and scholarly review of various dimensions of the higher education system in Vietnam including its recent history its structure and governance its teaching and learning culture its research and research commercialisation environment its socio economic impact its strategic planning processes its progress with quality accreditation and its experience of internationalisation and privatisation

*Outlooks and Opportunities in Blended and Distance Learning* Tynan, B.,2013-06-30 In a contemporary media rich society distance education is becoming increasingly indistinguishable from mainstream traditional methods Contemporary students too have greater need than ever before for education that caters to their specific needs and hectic schedules *Outlooks and Opportunities in Blended and Distance Learning* investigates the impact of the digital age on various methods of distance education such as e learning virtual learning online learning and m learning Researchers educators and students currently engaged in or looking to implement distance education principles in their own practices will find a seminal reference collection exploring new methods of offering flexibility accessibility and freedom to students with a variety of educational backgrounds situations and needs

Learning Communities in Educational Partnerships Máirín Glenn, Mary Roche, Caitriona McDonagh, Bernie Sullivan, 2017-11-16 Learning Communities in Educational Partnerships shows how theory and practice come into lived interplay in social spaces where theory informs practice and practice turns into theory Drawing on their own experiences of becoming a learning community the authors introduce the ideas underpinning self study action research Through a series of first hand practitioner accounts the chapters describe and explain how to engage in processes of inquiry and establish learning communities how to make space for professional conversations and how to develop living theories from within daily practice The book shows how meaningful change can take place both in educational improvements and also in more transformative professional learning when educators are encouraged to draw on their own personal educational values and share their idea

*Technology Supported Active Learning* Carlos Vaz de Carvalho, Merja Bauters, 2021-07-14 This book promotes student centered approaches to the learning process allowing students to develop skills and competences that traditional passive learning methods cannot foster In turn supporting active learning with digital technology tools creates new possibilities in terms of pedagogical design and implementation This book addresses the latest research and practice in the use of technology to promote active learning As such on the one hand it focuses on active pedagogical methodologies like problem based learning design thinking and agile approaches on the other it presents best practice cases on the use of digital environments to support these methodologies Readers will come to understand and learn to apply active learning methodologies either by replicating the best practices presented here or by creating their own methods

**Engaged Urban Pedagogy** Lucy Natarajan, Michael Short, 2023-07-06 Engaged Urban Pedagogy presents a participatory approach to teaching built environment subjects by exploring 12 examples of real world engagement in urban planning involving people within and beyond the university Starting with curriculum review course content is analysed in light of urban pasts race queer identity lived experiences and concerns of urban professionals Case studies then shift to focus on techniques for participatory critical pedagogy including expanding the classroom with links to live place making processes connections made through digital co design exercises and student led podcasting assignments Finally the book turns to activities beyond formal university teaching such as where school age children learn about their own participation in urban processes together alongside university students and researchers The last cases show how academics have enabled co production in local urban developments trained community co researchers and acted as part of a city to city learning network Throughout the book editorial commentary highlights how these activities are a critical source of support for higher education Together the 12 examples demonstrate the power and range of an engaged urban pedagogy They are written by academics university

students and those working in urban planning and place making Drawing on foundational works of critical pedagogy they present a distinctly urban praxis that will help those in universities respond to the built environment challenges of today

Translingual and Transnational Graduate Education in Rhetoric and Composition Nancy Bou Ayash, Carrie Byars Kilfoil, 2023-04-15 Translingual and Transnational Graduate Education in Rhetoric and Composition investigates the implications of composition studies changing terminological and ideological landscape around language and nation for the professionalization of future university writing teacher scholars As the collection editors argue incorporating translingual and transnational theories into graduate pedagogy and curricular structures is necessary if they are to shape professional practices in rhetoric and composition long term Contributors to the collection articulate the need for translingual and transnational sensibilities in rhetoric and composition graduate programs in light of the material conditions of graduate students lives and labor They further present pathways for rethinking the design of graduate level coursework foreign language learning policies and labor mentoring practices writing teacher and writing center tutor training and other professionalization initiatives Offering a range of conceptually and empirically driven pieces the collection brings together the voices and lived experiences of graduate students faculty advisors and administrators involved in the constant necessary reworking of rhetoric and composition graduate education in a variety of institutional locales Translingual and Transnational Graduate Education in Rhetoric and Composition provides inspiration for graduate programs working to enact well grounded curricular and pedagogical changes to counter the long standing effects of the dominant racist and monolingualist ideologies in higher education generally and rhetoric and composition studies specifically Contributors Luc a Dur Patricia Flores Joe Franklin Mois s Garcia Renteria Bruce Horner Aimee Jones Corina Lerma Kate Mangelsdorf Brice Nordquist Madelyn Pawlowski Christine Tardy Amy Wan Alex Way Anselma Widha Prihandita Joe Wilson Xiaoye You Emily Yuko Cousins Michelle Zaleski Governing Knowledge Ivar Bleiklie, Mary Henkel, 2005-07-18 In this book an international group of leading higher education researchers draw on a wealth of social theory and comparative empirical research to analyse current developments and their implications Different contributions focus on different levels of higher education the system the institution and the academic practitioner in different national and international contexts However strong common themes bind these contributions together They include not only the significance of massification globalisation neo liberalism and managerialism for the governance of higher education its knowledge and values but also the complexities of change processes the importance of context and history and the strength of the stabilities that remain The inspiration for this work comes from the career and personal influence of an individual scholar Maurice Kogan A central feature of his work has been empirically grounded analysis of interconnections between knowledge values authority and power and how these are reflected in institutional structures and individual practices As a historian as well as a political scientist he has always insisted on locating contemporary developments in a longer term perspective This volume is for researchers in higher

education studies students in postgraduate courses in higher education policy and management higher education policy makers in national and international organisations higher education institutional leaders senior academics managers and administrators Professor Teboho Moja New York University USA It will be an invaluable resource inter alia for higher education students scholars and institutional leadership The book could provide a major contribution to the field of higher education because of the different perspective different authors present and an array of issues as well as frameworks to discuss them This book is bound for the desktops instead of the bookshelves of administrators researchers and graduate students It is likely to be used time and again as readers explore new ways to transform education systems or institutions meet their needs for program improvement policy development and general research I expect that most readers will weave through the chapters on an as needed basis until they have engaged all its excellent content
