Reshaping European Defense:

Reshaping European Defence Trevor Taylor, 1994 Members of the European Strategy Group present a study of how Great Britain France Germany and Italy the Big Four and the Netherlands one of the most important smaller powers are reviewing their armed forces Preliminary lessons for the comparative exercise are drawn Reshaping the European Union Klaus Weber, Henning Ottmann, 2018-01-29 Das Buch schl gt eine tiefgreifende Reform der EU vor Defekte der EU werden identifiziert Die Vorsch l ge basieren auf den Konzepten begrenzter Supranationalit t und einer ausgewogenen Sicht des Nationalstaats Die EU wird vor allem gebraucht f r Frieden Wohlstand Kompensation der relativ geringen Gr e und begrenzten Macht ihrer Mitgliedstaaten und zur Bewahrung grundlegender Prinzipien der westlichen Zivilisation Eine ausgewogene Sicht des Nationalstaats bedeutet Erhaltung der Vorteile des gut gestalteten Nationalstaats im Vergleich zur EU sowie Vermeidung von Nationalismus und Krieg Das Buch schl gt u a eine Neugestaltung der EU Rechtsetzung und der EU Vertr ge eine untergeordnete Rolle der Europ ischen Kommission einen Court of Appeal und eine ge nderte Zusammensetzung der Europ ischen Zentralbank vor M glichkeiten des berlebens der Eurozone werden diskutiert Bei praktischer Realisierung dieser Vorsch l ge k nnte sich die EU zuk nftig in einem besseren Zustand befinden Europe Defense Shift Michael Davis, AI, 2025-03-12 Europe Defense Shift examines Europe s increasing focus on military independence amidst shifting global dynamics It explores the historical context of European defense cooperation noting past attempts at military integration and analyzing the current political climate that fuels the need for a stronger more self reliant European defense posture The book highlights how factors like transatlantic tensions and the perceived decline of American influence are driving this shift The book argues that Europe is re evaluating its security dependencies due to both internal and external pressures While complete independence from the U S is unlikely soon the trend towards greater strategic autonomy is deemed irreversible Europe Defense Shift begins by examining the historical foundations of European defense structures progresses to analyzing current challenges and opportunities and culminates in exploring practical applications including policy recommendations This book provides a unique perspective by combining historical analysis with contemporary political and technological assessments It bridges the gap between academic theory and practical policymaking offering valuable insights into European Politics International Relations and the evolving landscape of European Security *Securitizing Balance of Power Theory* Ilai Z. Saltzman, 2012 *Securitizing Balance of Power Theory* A Polymorphic Reconceptualization by Ilai Z Saltzman presents a cutting edge attempt to re conceptualize one of the fundamental concepts of International Relations theory balance of power theory by examining insights from historical analysis of interwar and post Cold War cases The Handbook of European Defence Policies and Armed Forces Hugo Meijer, Marco Wyss, 2018-06-22 The armed forces of Europe have undergone a dramatic transformation since the collapse of the Soviet Union The Handbook of European Defence Policies and Armed Forces provides the first comprehensive analysis of

national security and defence policies strategies doctrines capabilities and military operations as well as the alliances and partnerships of European armed forces in response to the security challenges Europe has faced since the end of the cold war A truly cross European comparison of the evolution of national defence policies and armed forces remains a notable blind spot in the existing literature The Handbook of European Defence Policies and Armed Forces aims to fill this gap with fifty one contributions on European defence and international security from around the world The six parts focus on country based assessments of the evolution of the national defence policies of Europe s major medium and lesser powers since the end of the cold war the alliances and security partnerships developed by European states to cooperate in the provision of national security the security challenges faced by European states and their armed forces ranging from interstate through intra state and transnational the national security strategies and doctrines developed in response to these challenges the military capabilities and the underlying defence and technological industrial base brought to bear to support national strategies and doctrines and finally the national or multilateral military operations by European armed forces The contributions to The Handbook collectively demonstrate the fruitfulness of giving analytical precedence back to the comparative study of national defence policies and armed forces across Europe

European Defence Policy Frédéric Mérand, 2008-05-22 This book explains the creation of the European Union s Security and Defence Policy to this day the most ambitious project of peacetime military integration Whether hailed as a vital step in the integration of Europe or berated as a wasteful threat to U S power European citizens are increasingly interested in the common defence policy Today European Defence is more popular than the European Union itself even in Great Britain Mérand addresses the fundamental challenge posed by military integration to the way we think about the state in the 21st Century Looking back over the past 50 years he shows how statesmen diplomats and soldiers have converged towards Brussels as a natural solution to their concerns but also as something worth fighting over The actors most closely associated to the formation of nation states are now shaping a transgovernmental security and defence arena As a result defence policy is being denationalized Exploring the complex relations between the state the military and citizenship in today s Europe Mérand argues that European Defence is a symptom but not a cause of the transformation of the state This book is an original contribution to the theory of European integration Drawing on the work of Pierre Bourdieu Mérand develops a political sociology of international relations which seeks to bridge institutionalism and constructivism His careful study of practices social representations and power structures sheds new light on security and defence cooperation but also on European cooperation more generally

Friendly Rivals Wallace J. Thies, 2015-03-27 Viewing the behavior of NATO members through the prism of bargaining theory reveals them as states intent on obtaining the benefits of membership at the least cost to themselves This book shows how NATO members use a variety of strategies and tactics to try to get the better of each other without wrecking an alliance that realizes their shared goals and from which they all benefit The book examines the original design of the alliance patterns of bargaining during the Cold War and post Cold War periods how their rivalries impact members domestic policies of defense and welfare and what this history suggests about NATO's future prospects Recent interventions in the Balkans and the Middle East make this virtually a playbook for following current events

The Stratified State William M. Dugger, William T. Waller Jr, 2019-07-26 These essays in the purest tradition of political economy consider three major themes from the multiple relationships between the state and the economy duality myth and crisis The state is a complex mix of dualisms the welfare versus the warfare state the agency of both social integration and exploitation and public versus private institutions The editors aim to distinguish true from false dualisms Myths in modern society are important as they enables whites to dominate blacks men to dominate women warplanners to dominate peacemakers the rich to dominate the poor The editors consider the myth that the state and the market are separate the state as a single monolithic structure and that we can all identify and share in a national interest The crisis of the state is the third major theme The state is in crisis because we have no fully developed theory of the state because its welfare and warfare functions are undergoing profound change The essays are all written from the point of view of radical institutionalism and emphasise the need for increased participation in the policymaking and policy evaluating processes of the state

The World Reshaped Richard Cobbold, 2016-07-27 The World Reshaped Fifty Years after the War in Europe looks at the way the world has evolved since the end of the Second World War The book focuses on Europe commemorating the end of the War and the seemingly inevitable transition into the Cold War the break up of the Soviet Union and projections into the future The contributions each with their own perspectives trace many of the dominant themes of the history of Europe of the last fifty years and look forward to the next millennium

Trade, Foreign Policy and Defence in EU Constitutional Law Panos Koutrakos, 2001-03. This book examines how the increasing interdependence between trade and foreign policy can be managed within the legal framework of the European Union. In the context of the legally distinct characteristics of the European Community and the Common Foreign and Security Policy, it analyses the problems underpinning the regulation of three areas: sanctions against third countries, armaments, and exports of dual use goods. The focus is on whether the constitutional order of the European Union may address these problems while performing a variety of functions ensuring the consistency and coherence of its external relations, preserving the *acquis communautaire* and respecting the right of the Member States to conduct their foreign policy as fully sovereign subjects of international law. The book concludes that the interactions between trade and foreign policy may be regulated in a legally sensible and realistic way within the current structure of the European Union. The recent developments regarding the defense and security identity of the European Union and the debate over the nature of an enlarged Union make this book all the more topical.

British Foreign Policy Laurence Martin, John C. Garnett, 1997-01-01. Has the 20th century been one of steady decline for British foreign policy? Can there be a distinct British foreign policy in an age of regionalism and globalization? This study challenges perceptions of irrevocable decline and suggests a more balanced assessment of Britain's strengths and weaknesses. As high politics, including security concerns, diminish in importance, economic and commercial concerns increasingly seem to dictate foreign policy. On the assumption that what the population seeks is a combination of physical security, prosperity, and what could be termed moral self-approbation, this study suggests ways in which Britain could capitalize on its influence and assets to promote its interests. A framework is provided for thinking about British foreign policy at a time when globalization, multinational companies, NGOs, the European Union, and other factors increasingly constrain the freedom of government and the traditional role of the foreign office.

Transatlantic Diplomacy and the Use of Military Force in the Post-Cold War Era M. Wintz, 2010-10-11. This book is an analysis and a set of tools of analysis to explain and understand why, when, where, and how the United States and its major NATO allies will agree or disagree on a collective policy regarding using military force abroad.
