Residential And Light Construction From Architectural Graphic Standards:

Residential and Light Construction from Architectural Graphic Standards Charles George Ramsey, Harold Reeve Sleeper, 1991-03-19 This is an abridged version of the eighth edition of the standard reference volume Architectural Graphic Standards. It has been developed as a more concise reference for those interested in the simpler forms of construction associated with smaller buildings. For those with the above limited interests, this represents a good alternative and a much smaller investment than the eighth edition itself. **Architectural Graphic Standards for Residential Construction** Janet Rumbarger, Richard Vitullo, 2003 Publisher description **Ramsey/Sleeper Residential and Light Construction** Charles George Ramsey, 1991 [Architectural Graphic Standards for Residential Construction](#) American Institute of Architects, 2010-04-26 The residential construction market may have its ups and downs but the need to keep your construction knowledge current never lets up. Now with the latest edition of Architectural Graphic Standards for Residential Construction, you can keep your practice at the ready. This edition was expertly redesigned to include all new material on current technology specific to residential projects for anyone designing, constructing or modifying a residence. With additional new content covering sustainable and green designs, sample residential drawings, residential construction code requirements and contemporary issues in residential construction, it's a must-have resource. And now it's easier to get the information you need when you need it, with references to the relevant building codes built right into the details and illustrations. These new smart details go beyond dimensions with references to the International Residential Building Code, presenting all the information you need right at your fingertips. New features and highlights include: Loads of previously unpublished content over 80% is either new or entirely revised. Sustainable green design information in every chapter, a must today's practicing building and construction professionals. Coverage of contemporary issues in residential construction, aging in place, new urbanism, vacation and small homes, historic residences, it's all here. Coverage of single and multi-family dwellings, complete coverage of houses, row homes and quadruplexes as dictated by the International Residential Building Codes.

Architectural Graphic Standards Charles George Ramsey, Harold Reeve Sleeper, 2011-01-13 The new student edition of the definitive architectural reference. For seventy-five years Architectural Graphic Standards has been the go-to reference for architects, builders and engineers. Revised for the first time since 2000, Architectural Graphic Standards Student Edition gives students their own handy resource. Carefully abridged from the Eleventh Edition of Architectural Graphic Standards, this Student Edition features the same richly detailed graphics and text that have made Architectural Graphic Standards a classic, but updated and reorganized in a way that is relevant to today's student. Thousands of illustrations and a rich index offer immediate access to hundreds of architectural elements, while the wide variety of topics covered makes this work relevant throughout a student's architecture education and into the early stages of professional practice. With a wealth of information for the student preparing for professional practice, this new edition covers building standards and practices.
