Resistance To The Shah Landowners And The Ulama In Iran:

Resistance to the Shah Mohammad Gholi Majd, 2000 Mohammad Gholi Majd examines land policy in Iran under the two Pahlavi shahs from 1925 to 1979 the social and economic consequences of the policies and their impact on the popular uprisings of 1962 63 which many scholars regard as the beginning of the Islamic revolution Contrary to widely held views much of Iran s agricultural land up to 1960 was owned by 1 3 million small landowners Majd points out that traditional Islamic practices of matrimony and inheritance resulted in a continuous redistribution of landownership and these customs included a system of sharecropping that fulfilled a vital social and economic function Tenants enjoyed secure rights to the land and the water could not be easily evicted and were thus practically owners themselves In short conditions in Iran were entirely different from those assumed in most Western theories of land policy and reform Pressured by the United States in the 1950s to inaugurate land reform the shah in his initial attempts met with stiff resistance from parliament and the Islamic leadership The result Majd argues was an effective alliance between landowners and the fundamentalist Islamic ulama in particular Ayatollah Khomeini who emerged as the principal leader of the religious opposition In addition to photos of the secular and religious opposition leaders the book contains many rare photos of rural Iran during the periods 1890 1911 and 1930 60 For students of Iran and the Middle East as well as those interested in agrarian change and reform this work offers a provocative and revisionist perspective on important events in Iran s recent history

The Shah Abbas Milani, 2011-01-04 The definitive biography of the last Shah of Iran tracing his dramatic rise and fall and his role in the creation of the contemporary Islamic Republic Though his monarchy was toppled in 1979 and he died in 1980 the life of Mohammad Reza Shah Pahlevi the last Shah of Iran continues to resonate today Here internationally respected author Abbas Milani gives us the definitive biography more than ten years in the making of the monarch who shaped Iran s modern age and with it the contemporary politics of the Middle East The Shah s was a life filled with contradiction as a social reformer he built schools increased equality for women and greatly reduced the power of the Shia clergy He made Iran a global power courting Western leaders from Churchill to Carter and nationalized his country s many natural resources But he was deeply conflicted and insecure in his powerful role Intolerant of political dissent he was eventually overthrown by the very people whose loyalty he so desperately sought This comprehensive and gripping account shows us how Iran went from politically moderate monarchy to totalitarian Islamic republic Milani reveals the complex and sweeping road that would bring the U S and Iran to where they are today

State, Religion, and Revolution in Iran, 1796 to the Present B. Moazami, 2013-11-07 Two basic assumptions have shaped understanding of recent Iranian history One is that Shi'ism is an integral part of Iran's religious and cultural landscape The other is that the ulama religious scholars have always played a crucial role This book challenges these assumptions and constructs a new synthesis of the history of state and religion in Iran from 1796 to the present while challenging existing theories of large scale political transformation Arguing that the 1979 revolution has not ended Behrooz Moazami relates political and religious transformations in Iran to the larger instability of the Middle East region and concludes that turmoil will continue until a new regional configuration evolves

S. Batmanghelichi, 2020-12-10 Gender and

sexuality in modern Iran is frequently examined through the prism of nationalist symbols and religious discourse from the late nineteenth and early twentieth centuries In this book Kristin Soraya Batmanghelichi takes a different approach by interrogating how normative ideas of women's bodies in state religious and public health discourses have resulted in the female body being deemed as immodest and taboo Through a diverse blend of sources a popular cultural women's journal a red light district cases studies of temporary marriages iconic public statues and an HIV AIDS advocacy organization in Tehran this work argues that conceptions of gender and sexuality have been mediated in public discourse and experienced and modified by women themselves over the past thirty years of the Islamic Republic Expanding upon existing philosophical theory technological research and scholarship on gender and sexuality in Iran this book focuses much needed attention on under studied marginalized communities such as widows living with HIV This work interrogates how bodily technologies are constructed discursively and socially in Iran and the values and perspectives which are incorporated in them *Subalterns and Social Protest* Stephanie Cronin, 2012-09-10 The articles in this collection provide an alternative view of Middle Eastern history by focusing on the oppressed and the excluded offering a challenge to the usual elite narratives The collection is unique in its historical depth ranging from the medieval period to the present and its geographical reach including Iran the Ottoman Empire Turkey the Balkans the Arab Middle East and North Africa The first to focus on the oppressed and the

The Power Triangle Hazem Kandil, 2016-08-12 Revolution reform and resilience comprise the respective fortunes of modern Iran Turkey and Egypt Although the countries all experienced coups with remarkably similar ambitions each followed a very different trajectory Iran became an absolutist monarchy that was overthrown from below Turkey evolved into a limited democracy and Egypt turned into a police state In The Power Triangle Hazem Kandil attributes the different outcomes to the power struggle between the political military and security institutions Coups establish a division of labor with one group of officers running government another overseeing the military and a third handling security But their interests begin to vary as each group identifies with its own institution Politicians wish to rule indefinitely military officers prefer to return to barracks after implementing the needed reforms and security men scramble to maintain the privileges they acquired in the post coup emergency Driven by conflicting agendas these partners in domination struggle over regime control Using comparative historical sociology Kandil demonstrates how regimes are constantly shaped and reshaped through the recurrent clashes and shifting alliances between the team of rivals in this power triangle The Power Triangle's realist approach to regime change shows that a clear explanation of pivotal events in Iran Turkey and Egypt is impossible without a firm grasp of the power relations within each country's ruling bloc
