Portland OR **The Price of Peace** David Cortright,1997 Carrots and sticks have always been used in combination in diplomatic affairs but scholars and policymakers have focused more on the sticks than the carrots In this provocative study policy savvy scholars examine a wide range of cases from North Korea to South Africa to El Salvador and Bosnia to demonstrate the power of incentives to deter nuclear proliferation prevent armed conflict defend civil and human rights and rebuild war torn societies The book addresses the moral hazard of incentives the danger that they can be construed as bribes concessions or appeasement Incentives can take many forms economic and political as palpable as fuel oil and as intangible yet powerful as diplomatic recognition and constructive engagement The cases demonstrate that incentives can sometimes succeed when traditional methods threats sanctions or force fail or are too dangerous to apply From the Eye of the Storm ,2022-07-04 From the Eye of the Storm Regional Conflicts and the Philosophy of Peace presents to the reader a cross section of an emerging field of study the philosophy of peace The editors bring together articles that explore the philosophic implications of many recent regional conflicts Reflecting the diversity and vitality and any new field of study this volume contains five sections Conceptual Foundations America s Homefront Desert Storm Assessments Jihad Intifada and Other Mideast Concerns and Latin American Issues The topics of the articles include war militarism patriotism nationalism nonviolence conscientious objection feminist peace the media the ethics of the Gulf War the Israeli Palestinian conflict Islamic pacifism and Latin American resistance A concluding postscript assesses prospects for achieving peace and change within our fast changing international scene This volume has an extensive bibliography of writings concerning peace and conflict and is suited to professional and student audiences *Enforcing International Law* Math Noortmann,2016-04-29 Until recently the fundamental link between two basic concepts in international law namely the right to self help and the obligation to settle disputes by peaceful means has been neglected in doctrine and practice The main issue is that international law traditionally recognizes the right of states to safeguard their own rights by resorting to countermeasures as well as the obligation to settle their disputes by accepted and recognized diplomatic and judicial procedures Both concepts are based on their own merits which are assumed to be valid in contemporary international law It is the primary purpose of this study to determine which rules and principles govern the relationship between the two concepts The book s major findings arise from an analysis of scholarly work supported by examples from five different case studies Drawing insights from legal as well as political science it will be a valuable resource for students academics and policy makers in international law international relations and related areas Transboundary Water Resources Management Jacques Ganoulis,Lucien Duckstein,Peter Literathy,Istvan Bogardi,2013-04-17 In a world facing a growing water crisis conflicts regarding water sharing and environmental issues are expected to grow especially in transboundary river basins where 40% of the world s population lives This book represents one of the first attempts to bring together methodologies and analytical tools from socio economic international policy engineering and water management specialists dealing with transboundary water

resources The book is divided into three parts Part I introduces state of the art concepts in institutional policy and conflict analysis Part II presents engineering approaches and models for transboundary water management and conflict resolution Part III analyzes cases in international river basins and enclosed seas Communitarian Foreign Policy Nikolas K. Gvosdev, 2017-07-05 This volume establishes Amitai Etzioni's communitarian approach to international relations as a distinct school of American foreign policy thought Nikolas K Gvosdev systematically evaluates Etzioni's ideas tracing their origins during the Cold War and their relevance to current challenges in Asia and the Middle East and considering their strengths and weaknesses Etzioni agrees with liberal internationalists who believe that traditional notions of state sovereignty are eroding and that a new set of global norms is required However he argues against the imposition of Western policies on the rest of the world which he sees as a recipe for conflict which the United States cannot afford He warns against the post Cold War triumphalism arguing that it undercuts efforts to find necessary common ground with both Russia and China An enduring and stable global architecture cannot be maintained unless it appeals to the interests of a broad community of nations The trust that is needed for forming closer associations between nations and to have a productive dialogue on human rights can only come about through the voluntary coordination of states forced to combat an increasing array of transnational threats The Clash with Distant Cultures Richard J. Payne, 1995-01-01 An analysis of the impact of cultural values on the use of force and negotiations in American foreign policy Indian Foreign and Security Policy in South Asia Sandra Destradi, 2012-02-27 This book examines Indian foreign policy and security relations in its eastern regional neighbourhood Indian Foreign and Security Policy in South Asia conducts an in depth analysis into India's foreign policy towards the three main countries in India's Eastern neighbourhood Sri Lanka Nepal and Bangladesh In particular it deals with India's role in the final years of the civil war in Sri Lanka its approach to the peace and democratisation process in Nepal and Indian foreign policy towards Bangladesh on a range of issues including Islamist militancy migration border security and insurgency Set within an analytical framework centred on the notions of empire hegemony and leadership the study reveals that India pursued predominantly hegemonic strategies and was not able to generate genuine followership among its smaller neighbours The South Asian case therefore shows the discrepancy that may exist between the possession of power capabilities and the ability to exercise actual influence a conclusion which lifts the study from geographical specifics and extends its relevance to other cases and cross regional comparisons This text will be of much interest to students of Indian foreign policy Asian security foreign policy analysis strategic studies and IR in general *Israel: Israel in the international arena* Efraim Karsh, 2004 **Globalization and Global Governance** Raimo Väyrynen, 1999 The world is becoming more integrated and interdependent heightening the need for new approaches to global governance How can the international community collectively respond to pressing global problems What kinds of institutions are needed and what kinds of instruments will help them function A distinguished group of international scholars wrestles here with what global

governance is and is not and with what it might be given a clearer understanding of the challenges and opportunities posed by international financial flows communications technologies environmental threats domestic disorders peacekeeping and intervention and sanctions and incentives Taken together this collection of original essays pays special attention to the prospect for strengthening an institutional world order by encouraging and enforcing compliance with international norms

The Forgotten Front Walter C. Ladwig III, 2017-06-09 After a decade and a half of war in Iraq and Afghanistan US policymakers are seeking to provide aid and advice to local governments counterinsurgency campaigns rather than directly intervening with US forces This strategy and US counterinsurgency doctrine in general fail to recognize that despite a shared aim of defeating an insurgency the US and its local partner frequently have differing priorities with respect to the conduct of counterinsurgency operations Without some degree of reform or policy change on the part of the insurgency plagued government American support will have a limited impact Using three detailed case studies the Hukbalahap Rebellion in the Philippines Vietnam during the rule of Ngo Dinh Diem and the Salvadorian Civil War Ladwig demonstrates that providing significant amounts of aid will not generate sufficient leverage to affect a client's behaviour and policies Instead he argues that influence flows from pressure and tight conditions on aid rather than from boundless generosity When Opponents Cooperate Benjamin Miller, 2002 A multilevel theory of international relations that accounts for intended and unintended outcomes of cooperation and conflict

International and Regional Security Benjamin Miller, 2016-11-10 This volume is a collection of the best essays of Professor Benjamin Miller on the subjects of international and regional security The book analyses the interrelationships between international politics and regional and national security with a special focus on the sources of international conflict and collaboration and the causes of war and peace More specifically it explains the sources of intended and unintended great power conflict and collaboration The book also accounts for the sources of regional war and peace by developing the concept of the state to nation balance Thus the volume is able to explain the variations in the outcomes of great power interventions and the differences in the level and type of war and peace in different eras and various parts of the world For example the book's model can account for recent outcomes such as the effects of the 2003 American intervention in Iraq the post 2011 Arab Spring and the conflicts between Russia and Ukraine The book also provides a model for explaining the changes in American grand strategy with a special focus on accounting for the causes of the invasion of Iraq in 2003 Finally the book addresses the debate on the future of war and peace in the 21st century This book will be essential reading for students of international security regional security Middle Eastern politics foreign policy and IR
