## **Resonant Lives:**

Resonant Minds Sara Leila Sherman, Morton Sherman, 2025-05-06 *Resonant Minds* The Transformative Power of Music One Note at a Time invites readers to reimagine music as a dynamic interactive force that reshapes how we live learn and connect By blending personal stories recalling childhood car rides where Ode to Joy was joyfully reinvented with animal noises and made up words with cutting edge research and practical insights the father daughter writing team Sara Leila Sherman and Mort Sherman PhD help us understand how to use music intentionally Featuring a distinct approach this book includes interactive QR codes that bring the music to life This immersive journey reveals how integrating mindful listening action whether breathing with Bach or shaking it off with Taylor Swift can reduce stress boost creativity and strengthen communities With a foreword by Goldie Hawn and praise from thought leaders like Doris Kearns Goodwin and Bena Kallick *Resonant Minds* is a call to transform our everyday musical experiences into a source of joyful life changing action one note at a time

*Resonant Matter* Lutz Koepnick, 2020-12-10 In *Resonant Matter* Lutz Koepnick considers contemporary sound and installation art as a unique laboratory of hospitality amid inhospitable times Inspired by Ragnar Kjartansson's nine channel video installation *The Visitors* 2012 the book explores resonance the ability of objects to be affected by the vibrations of other objects as a model of art's fleeting promise to make us coexist with things strange and other In a series of nuanced readings Koepnick follows the echoes of distant unexpected and unheard sounds in twenty first century art to reflect on the attachments we pursue to sustain our lives and the walls we need to tear down to secure possible futures The book's nine chapters approach *The Visitors* from ever different conceptual angles while bringing it into dialogue with the work of other artists and musicians such as Lawrence Abu Hamdan Guillermo Galindo Mischa Kuball Philipp Lachenmann Alvin Lucier Teresa Margolles Carsten Nicolai Camille Norment Susan Philipsz David Rothenberg Juliana Snapper and Tanya Tagaq With this book Koepnick situates resonance as a vital concept of contemporary art criticism and sound studies His analysis encourages us not only to expand our understanding of the role of sound in art of sound art but to attune our critical encounter with art to art's own resonant thinking

**Resonance** Léonard Dobrzyński, Housni Al-Wahsh, Abdellatif Akjouj, 2023-02-03 *Resonance* Long Lived Waves a new volume in the Interface Transmission Tutorial Book series introduces long life resonance properties for telecommunications The book's authors review the general analysis methods of interface transmission giving many examples and applying these methods to telecommunications systems materials and devices Each chapter introduces and defines the long lived resonances their path states and phase shifts and applications This book is suitable for materials scientists and engineers in academia and R D and may also be appropriate for applied physicists Offers a unique approach on long lived transmission resonance from an interfacial transmission point of view Provides tutorial examples to aid in the design of new materials and devices for telecommunications applications Authored by world leading experts on interface transmission

**Who This Book is For** Whether you re a busy professional a caregiver or someone on a journey of self improvement this book offers insights and tools to help you

- Reduce stress and overwhelm
- Build meaningful habits that align with your core values
- Create a sense of harmony in your daily life
- Achieve sustainable personal growth

**Your Path Forward** Through reflective exercises step by step templates and inspiring insights Living in Resonance empowers you to design a life that feels aligned purposeful and joyful You ll learn how to nurture your energy stay grounded and embrace a mindset that fosters resilience and fulfillment Start your journey to alignment today Discover the power of living in resonance and unlock the tools to thrive in every aspect of your life

**The Lives of Things** Charles E. Scott, 2002-06-10 Scott argues that things have lives beyond our cognitive grasp but are nonetheless formative of memories thought language and action

**Choice In The Lives of Things** Charles E Scott reconsiders our relationships with ordinary everyday things and our capacity to engage them in their particularity He takes up the Greek notion of physis or physicality as a way to point out limitations in refined and commonplace views of nature and the body as well as a device to highlight the often overlooked lives of things that people encounter Scott explores questions of unity purpose coherence universality and experiences of wonder and astonishment in connection with scientific fact and knowledge He develops these themes with lightness and wit ultimately articulating a new interpretation of the appearances of things that are beyond the reach of language and thought Like Foucault and Levinas before him though in very different ways Scott makes an oblique incision into phenomenology it is the kind of book to which people dazed by the specters of nihilism will be referred by those in the know

David Wood Refreshing and original Edward S Casey This new work situates Scott as a leading American scholar in the Continental tradition In this important new contribution he argues that things

have lives beyond our cognitive grasp but are nonetheless formative of memories biological institutional and cultural thought language and action Scott's argument underscores the importance of the physicality *phusis* of things which has been sidelined in philosophical thought Dewey's and Heidegger's consideration of physicality and the relation between the pragmatist and Continental traditions are built on to develop an account of *phusis* that emphasizes animation lightness density and the *thereness* of physicality Scott's analysis of density luminosity and physicality in Foucault's and Heidegger's work and of the displacement of subjectivity is incisive and critical His final chapter on nihilism is a significant contribution in rethinking nihilism's negative connotations and resituating it as allowing for a multiplicity of discourses for regions of recognition and for life affirming experiences Scott's wit and personal experiences are woven throughout the text Highly recommended for upper division undergraduates through faculty N A McHugh Choice

**Political Activism across the Life Course** Sevasti-Melissa Nolas, Christos Varvantakis, Vinnarasan Aruldoss, 2019-12-18 How do people of different ages experience and engage with politics in their everyday lives and how do these experiences and engagements change over their life course and across different generations Age life course and generation have become increasingly important experiences for understanding political participation and political outcomes and current policies of austerity across the world are affecting people of all ages This book contributes towards an interdisciplinary understanding of the temporalities of everyday political encounters At a time when social science is struggling to understand the rapid and unexpected changes to contemporary political landscapes the contributors to this book present examples of activism and politics across everyday experiences of homes communities online platforms local environment playgrounds and educational spaces The research takes ethnographic biographical and action research approaches and the studies described feature interlocutors as young as four and as old as ninety two who reside in European North and South America and South Asia This is an eclectic text that brings together a number of themes and ideas not typically associated with political activism and is intended for students and academic researchers across the humanities social and political sciences interested in the temporalities of everyday political participation This book was originally published as a special issue of Contemporary Social Science

**Resonance Twang** Pasquale De Marco, In Resonance Twang Pasquale De Marco offers a mesmerizing exploration of resonance a phenomenon that permeates our world in countless ways This thought provoking book delves into the depths of resonance revealing its profound influence on our perception understanding and connection to the universe around us Pasquale De Marco masterfully weaves together scientific insights philosophical musings and personal anecdotes to create a tapestry of understanding that illuminates the multifaceted nature of resonance From the delicate vibrations of sound and music to the rhythmic pulse of nature we discover how resonance manifests itself in myriad forms shaping our experiences and connecting us to a web of interconnectedness Resonance Twang invites us to listen deeply to attune ourselves to the subtle melodies and rhythms that surround us Through a series of thought provoking chapters Pasquale De Marco reveals the

transformative power of resonance to shape our perception of reality foster empathy and inspire creativity This book is more than just an intellectual treatise it s an immersive sensory journey that invites us to experience resonance in all its forms With evocative imagery and poignant storytelling Pasquale De Marco paints a vivid portrait of a world alive with resonance where everything from the smallest atom to the vastness of the cosmos vibrates with meaning and purpose Resonance Twang is an essential read for anyone seeking a deeper understanding of the world around them It s a book that will leave you with a profound appreciation for the intricate beauty and interconnectedness of all things If you like this book write a review

Resonant Leadership Richard E. Boyatzis,Annie McKee,2005 Resonant Leadership shows how leaders can recognise the cycles of stress sacrifice and renewal inherent in their jobs and actively utilise the qualities of mindfulness hope and compassion to renew their passion and effectiveness Practical follow on to the international bestseller Primal Leadership Goes beyond research and stories to offer proven strategies for how to do resonant leadership Successful Author Team Boyatzis and McKee are co authors of PL and Daniel Goleman has written a glowing Foreword to the book which will lend considerable credibility and visibly link the book to its predecessor Addresses a Universal Leadership Challenge The increasingly short tenure of many of today s executives the pressure to make the quarterly numbers a shaky economy and other stresses in today s global workplace underscore the urgency of this book s message and its relevance for executives and managers in all kinds of companies **Feeling and Personhood** John Heron,1992-06-25 John Heron presents a radical new theory of the person in which feeling differentiated from emotion becomes the distinctive feature of personhood The book explores the applications of Heron s ideas to living and learning and includes numerous experiential exercises Central to Heron s analysis are interrelationships between four basic psychological modes affective imaginal conceptual and practical In particular feeling is seen as the ground and potential from which all other aspects of the psyche emerge emotion intuition imaging of all kinds reason discrimination intention and action The author also shows the fundamental relation of his ideas to theory and practice in transpersonal psychology and philosophy and examines the implications of his theory for understanding and enhancing both formal and life learning **In Resonance** Jasmuheen,2007-08-01 Utilizing the wisdom of the ages In Resonance was written as a timeless manual for both personal self empowerment and self mastery In Resonance is filled with inspirational information of both experiential research and channelled guidance from Jasmuheen and the Ascended Ones The predominant focus of this book is on bridging the worlds of science and religion the realms of the physical and etheric plus the cultures of the east and west In Resonance offers practical tools utilizing simple and also more complex meditations specific programming techniques for tuning mind mastery for reality creation and creating a purposeful and passionate existence It addresses issues from meditation to telepathy and Universal Laws plus the existence of the Brotherhoods of Light *NASA Technical Paper* ,1986 **Laser in Environmental and Life Sciences** Peter Hering,Jan Peter Lay,Sandra Stry,2013-04-17 Studies of environmental conditions have become more and more important for oUf

knowledge about the complex processes resulting from natural and man made influences on OUF environment During recent years new analytical techniques have been developed that are mainly based on laser spectroscopy They are not only more sensitive and reach lower detection limits but they also give more detailed information on the species under investigation and their interactions with the environment They therefore can considerably deepen OUF understanding of correlations between different processes and their causes which is the precondition for avoiding ecological damage and for strengthening effective engagement in environmental protection Also in life sciences revolutionary new techniques for diagnostics have been introduced which allow a thorough investigation of biological processes in plants and their dependence on environmental conditions In particular for medical applications these new mainly non invasive techniques have influenced medical diagnostics and treatment considerably This book deals with these very interesting interdisciplinary subjects which demand experience and knowledge about both fields the basic physics of the detection techniques and the relevant problems in environmental and life sciences Therefore authors from a broad area of fundamental and applied research have contributed to this book which is organized in 4 sections Remote sensing of the atmosphere detection techniques for liquid and solid samples applications to gaseous substances and aerosols and finally applications in biology and medicine

**The Mysterious Waves of Living Cells** Hubert Rudakemwa,2014-07-30 In this book Rudakemwa shares with us intriguing questions which lead to thinking about the existence of a new way of communication used by living cells These ideas lead to a new theory that revolutionizes the way we previously conceived the internal organization of living beings Not only this theory is new in its own way but it also brings in many other stunning consequences about the living world as we know it In this book He also goes deep to cover other issues such as a review of the theory of evolution and the origins of human conflicts

**Affirmations for Successful Living** W. O. Owolawi,Fred O. Owolawi,2009-07-16 Picture to yourself daily on how positive affirmations can aid in your race towards a richer social emotional and financial reward All things are possible with the I can principle

A Journey into Steinbeck's California Susan Shillinglaw,2011-09-15 This part art book part biography and part travel guide offers insight into how landscapes and townscapes influenced John Steinbeck's creative process and how in turn his legacy has influenced modern California Various types of readers will appreciate the information in this guide literary pilgrims will learn more about the state featured so prominently in Steinbeck's work tourists can visit the same buildings that he lived in and wrote about and historians will appreciate the engrossing perspective on daily life in early and mid 20th century California Offering an entirely new perspective on Steinbeck and the people and places that he brought to life in his writing this edition includes a wonderful variety of photographs sketches and paintings including some from private rarely seen collections With a new preface from the author updated details on featured websites a new discussion on Steinbeck's ecological interests and activities and an extended exploration of his many travels to Mexico readers will find delight in this depiction of the symbiotic relationship between an author and his favorite places

### **Prediction Methods and Evaluation of the Fatigue Life for Automotive Structural Components** Xintian Liu, Yu

Fang, Xu Wang, Xiaolan Wang, 2025-06-27 Prediction Methods and Evaluation of the Fatigue Life for Automotive Structural Components covers this important component that affects the performance of the entire vehicle The light weight of automotive structural components is one of the sustainable solutions to energy and environmental issues and the development technology of its core components and vehicle performance evaluation technology are its key development directions To gradually replace traditional cars on a large scale electric vehicles need to address the durability and reliability issues of the entire vehicle and key components Covers fatigue life prediction and evaluation for automotive structural components based on product forward design Includes prediction methods of fatigue life for different structural components Helps readers gain an understanding of both the theoretical and practical aspects of structural components fatigue life

### Röntgen Centennial - X-rays Today In Natural And Life Sciences Gottfried Landwehr, Axel Haase, Eberhard

Umbach, 1997-05-01 To honour W C Röntgen and review the entire area of X ray development in the various fields of natural technical and life sciences his successors at the Physikalisches Institut of the Universität Würzburg organized a conference named Röntgen Centennial It took place at the new Physikalisches Institut not far from the historical site shortly before the actual 100th anniversary of the discovery Over forty renowned scientists were invited as representative speakers in the various subfields of X ray activities They reviewed the development gave examples and described the present status Most of them provided survey articles which are gathered in this book Since most X ray related activities are somehow represented an almost complete overview of the entire field is provided This book thus represents the enormous breadth of X ray activities and allows one to recognize the potential and quality of today's X ray research *Living Energies* Viktor

Schauberger, *Physics of the Life Sciences* Jay Newman, 2010-03-23 Each chapter has three types of learning aids for students open ended questions multiple choice questions and quantitative problems There is an average of about 50 per chapter There are also a number of worked examples in the chapters averaging over 5 per chapter and almost 600 photos and line drawings **"Weltbeziehung"** Bettina Hollstein, Hartmut Rosa, Jörg Rüpke, 2023-08-31 Die Soziologie der

Weltbeziehungen untersucht wie Menschen sich in der Welt verorten und mit ihr in Verbindung treten Auf welche Weise dieser Ansatz für unterschiedliche Disziplinen fruchtbar gemacht werden kann zeigt dieser Band Dabei widmen sich die Autorinnen einer Analyse grundlegender Konzepte der westlichen Moderne etwa den Praktiken des Teilens und Tauschens Darüber hinaus eröffnen sie eine historisch sowie global vergleichende Perspektive anhand vielfältiger Themen etwa dem Verständnis von Markt und Eigentum in China oder der Dekolonisierung von Forschung in Indien Hieran anschließend formulieren sie konkrete Vorschläge zu einer Neuausrichtung der Sozial und Kulturwissenschaften <https://creativecommons.org/licenses/by-sa/4.0/>
