 Freas,2024-12-23 This book provides an historical overview of Palestine s Christian communities and their role in the
 Palestinian nationalist movement during the late Ottoman and British mandatory periods More than being a history of
 Palestine s Christian Arabs the book focuses on Palestine s Christians during the formative period of Palestinian Arab
 national identity attentive to the broader topic of the relationship between nationalism and religion in this case between Arab
 identity and Islam Whereas until recently historians have tended to assume that national and religious identities are distinct
 and mostly mutually exclusive things more recent scholarship has addressed the fact that often there exists considerable
 overlap between the two though it should be noted often in ways that are not by any means inherently exclusive of those not
 belonging to the majority faith as is the case here The relationship is also an ever changing one hence the final chapter of the
 book which functions as something of an epilogue regarding the current status of Palestine s Christians vis vis their place in
 the nationalist cause and relationship with the broader Muslim population The book will be of interest to historians and
 scholars focused on the modern Middle East Palestinian history Muslim Christian inter communal relations and the
 relationship between nationalism and religion **The Pilgrimage of Grace, 1536-1537, and the Exeter Conspiracy,**
