Christianity and Ethnicity in Canada Paul Bramadat, David Seljak, 2008-06-14 Over the past decade scholars and policy makers interested in Canadian multiculturalism have begun to take religion much more seriously Moreover Christian communities have become increasingly aware of the impact of ethnic diversity on church life However until very recently almost no systematic academic attention has been paid to the intersection between the ethnic and religious identities of individuals or communities This gap in both our academic literature and our public discourse represents an obstacle to understanding and integrating the large numbers of ethnic Christians most of whom either join existing Canadian churches or create ethnically specific congregations In *Christianity and Ethnicity in Canada* eleven scholars explore the complex relationships between religious and ethnic identity within the nine major Christian traditions in Canada The contributors discuss the ways in which changes in the ethnic composition of these traditions influence religious practice and identity as well as how the nine religious traditions influence communal and individual ethnic identities An introductory chapter by Paul Bramadat and David Seljak provides a thorough discussion of the theoretical historical and empirical issues involved in the study of Christianity and ethnicity in Canada This volume

Religion in Sociological Perspective Keith A. Roberts,David Yamane,2015-07-18 This fully updated Sixth Edition of Religion in Sociological Perspective introduces students to the basic theories and methods in the field and shows them how to apply these analytic tools to new groups they encounter Authors Keith A Roberts and David Yamane explore three interdependent subsystems of religion meaning structure and belonging and their connections to the larger social structure While they cover the major theoretical paradigms of the field and employ various middle range theories to explore specific processes they use the open systems model as a single unifying framework to integrate the theories and enhance student understanding *Varieties of Religious Establishment* Lori G. Beaman,2016-02-17 Advocacy for religious freedom has

become a global project while religion and the management of religion has become of increasing interest to scholars across a wider range of disciplines Rather than adopting the common assumption that religious freedom is simply incompletely realized the authors in this book suggest that the starting point for understanding religion in public life today should be religious establishment In the hyper globalized world of the politics of religious freedom today a focus on establishments brings into view the cultural assumptions cosmologies anthropologies and institutions which structure religion and religious diversity Leading international scholars from a diverse range of disciplines explore how countries today live with religious difference and consider how considering establishments reveals the limitations of universal multicultural and interfaith models of religious freedom Examining the various forms religion takes in Tunisia Canada Taiwan South Africa and the USA amongst others this book argues that legal protections for religious freedom can only be understood in a context of socially and culturally specific constraints **English Ministry Crisis in Chinese Canadian Churches** Matthew Richard Sheldon

Todd,2015-03-26 In this book Dr Matthew Todd looks into the anecdotal reporting of high numbers of Canadian born Chinese leaving Western Canadian Chinese churches what is termed the silent exodus Some of the fastest growing Canadian churches are Chinese yet reportedly the highest dropout rates are among Chinese and Asian church adult ministries This book recommends solutions towards the retention of Canadian born Chinese adults in Chinese bicultural churches through empowerment To address retention the key factors that contribute to a silent exodus are established through qualitative research with participants of diverse church affiliations Todd examines various models and proposed solutions the Chinese church has used to retain its English speaking congregants and gives attention to a theological basis for being inclusive in mission initiatives and for empowerment through passing the leadership baton Todd makes some recommendations on the new wave of an emerging congregational model that requires negotiation with Chinese church leadership to give power away to English ministry leaders and congregations He anticipates that this will permit transformational leadership practices that contribute to shalom community transformation and lasting congregations

Social Identities Between the Sacred and the Secular Abby Day,Giselle Vincett,Christopher R. Cotter,2016-04-01 Focusing on the important relationship between the sacred and the secular this book demonstrates that it is not paradoxical to think in terms of both secular and sacred or neither in different times and places International experts from a range of disciplinary perspectives draw on local national and international contexts to provide a fresh analytical approach to understanding these two contested poles Exploring such phenomena at an individual institutional or theoretical level each chapter contributes to the central message of the book that the in between is real embodied and experienced every day and informs and is informed by intersecting social identities Social Identities between the Sacred and the Secular provides an essential resource for continued research into these concepts challenging us to re think where the boundaries of sacred and secular lie and what may lie between

Wilkinson, Linda M. Ambrose, 2020-09-23 Early Pentecostal revivals swept through Canadian communities big and small in the early 1900s Reports abounded of worshippers falling down at the altar speaking in tongues having dreams and visions and experiencing divine healing Tent meetings inspired curious onlookers to witness these phenomena for themselves Following these revival meetings Pentecostals organized built churches and expanded across the country while many churches were beginning to decline How did these Pentecostal holy rollers move from the fringe to take centre stage in Canada's religious landscape Why is a religious group rooted in the early twentieth century tied to Methodism and the Holiness movement still so popular among followers from all walks of life especially Indigenous peoples and new Canadians In *After the Revival* Michael Wilkinson and Linda Ambrose ask these and other questions arguing that the answers are tied to Pentecostalism's continued organizational efforts Since 1919 the Pentecostal Assemblies of Canada PAOC has worked to establish order and steady growth by managing financial and material assets offering programs designed to attract families and youth and training leaders While Pentecostalism sometimes reflects broader cultural trends and at other times resists them the PAOC has grown steadily to become one of the largest evangelical denominations in Canada Addressing broader questions about how religious movements organize establish an identity and develop a subculture that flourishes *After the Revival* explores the fascinating history of Pentecostalism in Canada and the ways the church represented by the PAOC engages with Canadian society

Religion in the Context of Globalization Peter Beyer, 2013-07-24 Peter Beyer has been a central figure in the debate about religion and globalization for many years this volume is a collection of essays on the relation between religion and globalization with special emphasis on the concept of religion its modern forms and on the relation of religion to the state Featuring a newly written introduction and conclusion which frame the volume and offer the reader guidance on how the arguments fit together this book brings together ten

previously published pieces which focus on the institutional forms and concept of religion in the context of globalizing and modern society The guiding theme that they all share is the idea that religion and globalization are historically conceptually and institutionally related What has come to constitute religion and what social roles religion plays are not manifestations of a timeless essence called religion or even a requirement of human societies In concept and institutional form religion is an expression of the historical process of globalization above all during modern centuries What religion has become is one of the outcomes of the successive transformations and developments that have brought about contemporary global society Including some of the most important theoretical work in the field of religion and globalization this collection provokes the reader to consider paths for future research in the area and will be of great interest to students and scholars of religion and politics globalization and religion and sociology Minorities and Reconstructive Coalitions Willie Gin, 2017-07-06 Through comparative and historical analysis the book shows that reconstructive coalitions such as labor and pan Christian moral movements affect minority incorporation and bring Catholics and Protestants together under new identities and significantly improving Catholic standing It provides overviews of the history of Catholics in Australia Canada and the United States while at the same time advancing unique arguments about the impact of coalitions on minority politics *Pentecostal and Postmodern Hermeneutics* Bradley Truman Noel, 2010-01-29 *Pentecostal and Postmodern Hermeneutics* seeks to explore the relationship between Pentecostal hermeneutics and Pentecostalism's ability to connect with and evangelize North American youth As a Postmodern ethos makes its presence increasingly felt in the Western world no Christian movement should be better positioned to bring the message of Christ to youth and young adults eager to experience the God of miracles and wonders Recent trends in Pentecostal hermeneutics however may actually make the task more difficult No historical movement has thrived in the long term that has not carefully considered the place of youth and young adults in the vision for the future While Pentecostalism has been at the forefront of youth ministry in the last several decades we must also connect Pentecostal academia with evangelism efforts among youth and young adults This work calls Pentecostal scholars to thoughtfully consider the implications of their work for future generations
