Commentary, Or, An Exposition with Notes Upon the Epistle of James Thomas Manton, 1658 The Friends' Library: Comprising Journals, Doctrinal Treatises, and Other Writings of Members of the Religious Society of Friends William Evans, 1837 Post-Sustainability John Foster, 2018-10-22 The sustainability discourse and policy paradigm have failed to deliver. In particular, they have failed to avert the dangerously disruptive climate change which is now inevitable. So if there is still a case for some transformed or revitalised version of sustainability, that case must now surely be made in full acknowledgment of deep seated paradigm failure to date. But if we really take ourselves to be living in a post sustainable world, the issue of what next must be faced and the hard questions no longer shirked. What options for political and personal action will remain open on a tragically degraded planet? How will economic and community life, political and social leadership and education be different in such a world? What will the geopolitics of crisis migration and conflict look like? Where does widespread denial come from, how might it be overcome and are there any grounds for hope that don't rest on it? The urgent challenge now is to confront such questions honestly. This collection of essays by thinkers from a diversity of fields including politics, philosophy, sociology, education and religion makes a start. This book was originally published as a special issue of Global Discourse Independent Monthly, 1869 *The NKJV, Charles F.
