Restoration and Reaction, 1815-1848 André Jardin, André Jean Tudesq, 1983 *The Great Restoration: Post-Communist Transformations from the Viewpoint of Comparative Historical Sociology of Restorations* Zenonas Norkus, 2023-09-20 The revolutions of 1989 remains the standard term used to describe the onset of post communist transformations more than thirty years ago Zenonas Norkus proposes a completely new perspective theorising them as the next wave of modern social restorations starting with the post Napoleonic restorations in 1815 A comparison of the 1789 French and 1917 Russian revolutions was seminal for the rise of comparative historical and sociological research on modern revolutions The book extends and supplements the sociology of modern revolutions by the first systematic outline of the sociology of modern social restorations grounded in a comparison of post Napoleonic and post communist restorations

Art in an Age of Counterrevolution, 1815-1848 Albert Boime, 2004-08-18 Publisher Description Justice and the Genesis of War David A. Welch, 1995-08-10 Studies of the causes of wars generally presuppose a realist account of motivation when statesmen choose to wage war they do so for purposes of self preservation or self aggrandizement In this book however David Welch argues that humans are motivated by normative concerns the pursuit of which may result in behaviour inconsistent with self interest He examines the effect of one particular type of normative motivation the justice motive in the outbreak of five Great Power wars the Crimean war the Franco Prussian war World War I World War II and the Falklands war Realist theory would suggest that these wars would be among the least likely to be influenced by considerations other than power and interest but the author demonstrates that the justice motive played an important role in the genesis of war and that its neglect by theorists of international politics is a major oversight France Ian Littlewood, 2002 Provides a concise overview of France s history from its beginnings to the present day 2002 by use of time lines sidebars illustrations and quotes *The Romantic Machine* John Tresch, 2012-06-05 Introduction Mechanical Romanticism DEVICES OF COSMIC UNITY Amp re s Experiments Contours of a Cosmic Cubstance Humboldt s Instruments Even the Tools Will Be Free Arago s Daguerreotype The Labor Theory of Knowledge SPECTACLES OF CREATION AND METAMORPHOSIS The Devil s Opera Fantastic Physiospiritualism Monsters Machine Men Magicians The Automaton in the Garden ENGINEERS OF ARTIFICIAL PARADISES Saint Simonian Engines Love and Conversions Leroux s Pianotype The Organogenesis of Humanity Comte s Calendar From Infinite Universe to Closed World Conclusion Afterlives of the Romantic Machine Music Drama at the Paris Odéon, 1824-1828 Mark Everist, 2002-12-04 By illuminating the working of one of the most prominent opera houses of the period Everist reveals how the opera scene in Paris shaped the history of opera **Husbands, Wives, and Lovers** Patricia Mainardi, 2003-01-01 In this interdisciplinary exploration of the cultural and social history of early 19th century France Patricia Mainardi focuses on what was considered a major social problem of the time adultery In a period when expectations about marriage were changing the problems of husbands wives and lovers became a major theme in theatre

literature and the visual arts The author demonstrates that this intense interest was historically grounded in the post revolutionary collision between the new concept of the individual s right to happiness and the traditional prerogatives of family and state duty or happiness more important Are arranged marriages doomed to be empty of love and poisoned by adultery Should adulterous wives and their lovers be punished while husbands may commit adultery with impunity Out of such legal social and cultural debates ultimately emerged modern bourgeois family values Mainardi argues And she illuminates how art in all its varieties both influences and is influenced by social change

Encyclopedia of Nineteenth-century Thought Gregory Claeys,2005 Covering the period from 1789 to 1914 this work primarily deals with key figures and ideas in social and political thinking but entries also include science religion law art concepts of modernity the body and health thereby covering comprehensively the intellectual history of the period

A History of the European Restorations Michael Broers,Ambrogio A. Caiani,2019-11-14 Europe s Restorations were characterised by their evolving dialectics The chapters in this first volume address the key questions and controversies of Napoleonic history from a national and international perspective From the re ordering of the European world through the tools of intervention occupation and diplomacy to the creation of new constitutional monarchies across France Scandinavia and Germany the volume outlines the processes that realigned national priorities and the accompanying dynamics of social and political identity In a structure that makes sense of what Luigi Mascilli Migliorini describes as the fiendishly complex process of reconstructing order in post Napoleonic Europe this collection of essays brings together experts in the field to set a new precedent for transnational research frameworks in the study of the European Restorations

European Politics 1815-1848 Frederick C. Schneid,2017-05-15 The three intervening decades between the Congress of Vienna and the Revolutions of 1848 are marked by enormous social political economic and cultural change Liberalism nationalism romanticism and industrialism profoundly affected the course of Europe and compelled conservative monarchies to accept the principles of collective action and military force to curb political revolution In the years immediately following 1815 the Quadruple and Holy Alliances served the dual purpose of preventing a restoration of Bonapartism and suppressing revolutions By the 1820s these international associations dissipated but the principles upon which they were founded informed the decisions of the respective governments through 1848 The classic articles and papers collected in this volume attempt to illustrate that despite the substantial changes to European society which occurred during these thirty years European powers accepted common principles which influenced their state s domestic and foreign policies
