Exploration of Diversity uniquely combines the history of ethnic groups with the history of communities offering an interdisciplinary examination of the nation's makeup. It gives readers perspective and insight into ethnicity and race based on the geography of enclaves across the nation in regions and in specific cities or localized areas within a city. Among the entries are nearly 200 neighborhood biographies that provide histories of local communities and their ethnic groups. Images, sidebars, cross references at the end of each entry, and cross indexing of entries serve readers conducting preliminary as well as in-depth research. The book's state-by-state entries also offer population data and an appendix of ancestry statistics from the U.S. Census Bureau details ethnic and racial diversity.

Common Sense: How to Restore America Craig Bowden, 2012-06-26 We have come to a crossroads in America. What can we do as patriots to help bring about the changes we know this country needs? This book will help serve as a guide as we change the way our government does its business and hopefully will shine a light of common sense in the American Republic.

Rebuilding America's Cities Paul R. Porter, 2017-09-04 A growing cooperation between the public and private sectors indicates that the tasks of redevelopment are too large and complex for either sector to accomplish alone. Some people maintain that government can do few things right; others are equally distrustful of the private sector. As used here, the private sector is considered to be all that is not government. Each of the success stories illustrated is in part a road to recovery, although none appear to have been influenced by a purpose that broad.

Paul R. Porter and David C. Sweet present stories of progress in self-reliance that concern neighborhood and downtown recoveries, school improvement, job generation, a regained fiscal solvency, novel financing techniques helping tenants to become homeowners, and a successful venture in self-help and tenant management in crime-infested neighborhoods. The successes stem from the diverse community roles of Yale University, a medical center, the world's largest research organization, the Clorox Company, a gas company, an insurance company, a newspaper, neighborhood and downtown organizations, city governments, and two religious organizations, the Mormon Church and the tiny Church of the Savior. These stories are located throughout the United States, including Akron, Baltimore, Brooklyn, Cincinnati, Cleveland, Columbus, Fort Wayne, Indianapolis, Milwaukee, New Haven, Oakland, Pittsburgh, St. Louis, St. Paul, Salt Lake City, Springfield, Mass., Tampa, and Washington, D.C. The editors have gathered the work of professionals known in the field of urban studies: James W. Rouse, Donald E. Lasater, Rolf Goetze, Dale F. Bertsch, Joel Lieske, Eugene H. Methvin, James E. Kunde, T. Michael Smith, Robert Mier, Carol Davidow, Jay Chatterjee, June Manning Thomas, Norman Krumholz, Larry C. Ledebur, and Robert C. Holland.

The Changing American Neighborhood Alan Mallach, Todd Swanstrom, 2023-08-15 The Changing American Neighborhood argues that the physical and social spaces created by neighborhoods matter more than ever for the health and well-being of twenty-first-century Americans and their communities. Taking a long historical view, this book explores the many dimensions of today's neighborhoods: the forms they take, the forces and factors influencing them, and the people and organizations trying to change them. Challenging conventional interpretations of neighborhoods and neighborhood change, Alan Mallach and Todd

Swanstrom adopt a broad inter disciplinary perspective that shows how neighborhoods are messy complex systems in which change is driven by constant feedback loops that link social economic and physical conditions each within distinct spatial and political contexts The Changing American Neighborhood seeks to understand neighborhoods and neighborhood change not only for their own importance but for the insights they offer to help guide peoples efforts sustaining good neighborhoods and rebuilding struggling ones
