Restoring the Balance National Governors' Association Staff, **Restoring the Balance** John H. Sununu, James J. Blanchard, Michael N. Castle, George Deukmejian, Edward D. DiPrete, Booth Gardner, Thomas H. Kean, Bob Martinez, Arch A. Moore, Jr., William A. O'Neill, 1988-08-01 Restoring the Balance National Governors' Association, 1988 Federalism and the American States Robert F. Rich, William D. White, 2019-05-23 First published in 1997 this volume emerged in the ongoing struggle between those favouring centralized and those favouring decentralized government and has three goals 1 To illustrate how theories of federalism and intergovernmental relations can provide a useful framework for examining how to divide up the job in the health care area 2 To assess the capacity of the states to actually implement health care policy changes 3 To weigh the merits of alternative visions of the future roles of states and the federal government in New Mexico Government and Politics Maurilio E. Vigil, Michael Olsen, Roy Lujan, 1990 This book provides a comprehensive and penetrating investigation of the governmental and political processes of New Mexico It combines a view of how the social and political history have shaped contemporary New Mexico political culture and the nature of governmental and political affairs Political Groups, Parties, and Organizations That Shaped America Scott H. Ainsworth Ph.D., Brian M. Harward, 2019-07-19 This three volume set explores the multiple roles that parties and interest groups have played in American politics from the nation's beginnings to the present This set serves as an essential resource for analyzing the emergence and impact of parties and interest groups in the American political system and for understanding the systematic and structural bases for interest group and party behavior Volume One opens with an introduction by the editors that provides a general overview of the eras and identifies important themes and events laying a foundation on which the subsequent essays and primary documents for each interest group or political party builds Narrative essays focus on how specific parties or interest groups have shaped or reflect a particular set of events or general themes in each of the eras in American political history Topical entries reflect key themes developed throughout the volumes Entries range from important founding groups and parties to contemporary political action committees and policy advocacy groups The set also includes primary source documents e g letters platform documents court decisions flyers etc that reveal important dimensions of the corresponding group's political influence **Major Issues Confronting the Office of** Surface Mining Reclamation and Enforcement United States. the Progressive Policy Institute P 4 of cover Includes bibliographical references p 341 388 The New Nationalism--How The Next Great American Debate Will Restore Our Country By Recasting Our Politics Harlan M. C. Field, 2012-07-10 In this book Harlan Field boldly asks modern Americans to leave behind their old politics which have placed America's greatness in jeopardy and exhorts us to pursue a new political strategy that will assure America's great tradition for its future generations As we enter a new millennium Harlan observes we stand poised to discard the crowning achievement of the last thousand years the modern Nation State The only known entity that is capable of preserving Freedom and opportunity for the individual justice for the masses a healthy environment a stable society and a vibrant economy is falling victim to the seemingly invincible juggernaut of Globalism The five cardinal prerogatives of a free people are all being surrendered with little debate and even less thought The rights of a sovereign people to formulate their own independent foreign policy to raise and command a national army to admit or exclude aliens to levy tariffs on goods of foreign manufacture and to coin their own money are under attack all over the world through such peculiar pretenders to legitimacy as the North American Free Trade Agreement NAFTA the General Agreement on Tariffs and Trade GATT and the European Union E U W e no longer can even remember what makes a group of people into a nation A common culture a common heritage a common language shared goals shared sacrifice shared progress This book is a must read for our politicians on the left and on the right lest because of party politics America is made to give into a secondary role on the world stage of ruthless politics and demagoguery

North American and Comparative Federalism Harry N. Scheiber, Martha Derthick, 1992 The State of the States Carl E. Van Horn, 1996 An important collection of essays provides comprehensive up to date coverage and analysis of the recent performance of state political institutions and processes and examines the challenges ahead for state governments Chapters on governors legislatures courts bureaucracy budgeting the issues of welfare reform and education policy highlight the profound changes that state governments have undergone and point to what lies ahead **Truth Party: America's Plan** John Coffey, 2011-11-07 U.S. Energy and Environmental Interest Groups Lettie M. Wenner, 1990-11-13 Wenner who has been an active policy oriented political scientist in the area of energy environmental legislation and litigation has created a practitioner's dictionary to the most influential special interest groups lobbying in the halls of Washington DC today Her introduction offers an excellent summation of how she determined which groups were to be included and describes how she organized the groups If the purpose of a dictionary is to save time and trouble for researchers then this is an excellent contribution to the growing literature of environmental and energy policy studies Choice In the latter part of the 1980s as political action committees proliferated and the number of lobbyists in Washington D C increased there was a corresponding increase of interest among scholars in examining this phenomenon This book defines the universe of groups that lobby in the fields of environmental and energy policy regardless of which side of the many controversies in these areas they represent Included are groups that have gained national recognition as representatives of the environmental movement other entries

are smaller organizations that focus on one special issue Their impact may be significant on that policy but they may be less important than some general public interest lobbies that do not specialize in environmental problems but whose influence on the American political scene makes their opinions significant Another major category is the large trade association with many interests that go beyond the focus of this book These groups have been in business for many years and would not fade from view if they stopped all lobbying on these issues Yet they are some of the most important actors in this issue area today and to ignore them would be to turn a blind eye to the reality of the political process A third major type of group that lobbies in this area are the professional and research organizations that are formed around their members careers They assume a moderate position on most of the main issues and may hold a balance of power in their hands today Each group included in the volume is profiled according to its history membership sources of funding structure of organization strategies used to influence policies and the types of programs about which the organization is most concerned In addition to the 148 main entries that comprise the bulk of the book there were groups described in standard reference works that appeared to qualify them for inclusion in this work but for which there was minimal information these groups are listed in Appendix A The questionnaire used to query the groups is included in Appendix B As a reference tool this volume will be useful for libraries as well as for organizations interested in the fields of energy and environment
