Restructuring Urban Schools A Chicago Perspective:

Restructuring Urban Schools G. Alfred Hess, 1995 *Reinterpreting Urban School Reform* Louis F. Miron, Edward P. St. John, 2012-02-01 Have urban schools failed or has reform failed urban schools This book examines existing urban school programs ranging from desegregation to reading improvement in light of available historical empirical and case study evidence Miron and St John and their contributors probe the underlying theoretical normative and political assumptions embedded in specific reform initiatives They explore how reforms might be reconstructed to better address the underlying challenges and they demonstrate that reforms can be constructively critiqued throughout the stages of implementation arguing that greater attention should be paid to ethnic and cultural traditions within urban educational settings Contributors include Leetta Allen Haynes Joseph Cadray Choong Geun Chung Richard Fossey Barry M Franklin David Gordon Carol Anne Hossler Siri Loescher Kim Manoil Genevieve Manset Louis F Mir n Glenda Droogsma Musoba Kathryn Nakagawa Carolyn S Ridenour Ada B Simmons Edward P St John Neil Theobald Sandra Washburn Kenneth K Wong and Kim Worthington

School Leadership in Times of Urban Reform Marilyn Bizar, Rebecca Barr, 2000-09 Examines schools in Chicago where the largest experiment in site based management accountability is being enacted An analysis allows insights relevant beyond this single site permits pursuit of an agenda concerned w educational leadership reform **Central Park East and Its Graduates** David Bensman, 2015 In 1974 Central Park East Elementary School CPE in East Harlem opened its doors with a mission to provide inner city children with the finest educators and pedagogy available Instead of saying that the old neighborhood had to be torn down and students more rigidly tracked the reformers dared to ask the question What would happen if we gave inner city students the best education the country has to offer The results of this bottom up reform were astounding and to this day Central Park East is known as one of the most academically enriching schools in the United States David Bensman gives voice to the extraordinary young adults who emerged from poverty as a result of the powerful educational experiences they received at CPE A rich compilation of stories this account establishes the power of public schooling and the value of community With rich data Bensman carefully details for us what it means to be respectful thoughtful democratic and intellectually demanding what it means in short to be a good school This is the story of CPE but for anyone willing to see beyond the particulars it is also a map of possibility a guide to what our schools could be Mike Rose author *Possible Lives The Promise of Public Education in America* This is that rare thing a long term study of the graduates of a first rate inner city elementary school This is a school in which democracy and the life of the mind are inseparably intertwined Policymakers write that last sentence down one hundred times Joseph Featherstone Michigan State University Was the fame of CPE due to hype or yet another example of wishing trumping realities This conceptually and procedurally honest research effort clearly answers the question in the negative We have very good reason to be grateful to Debbie Meier her CPE colleagues and of course to Dr Bensman for this remarkable follow up study Seymour Sarason Professor Emeritus

Yale University **Learning to Improve** Anthony S. Bryk, Louis M. Gomez, Alicia Grunow, Paul G. LeMahieu, 2015-03-01 As a field education has largely failed to learn from experience time after time promising education reforms fall short of their goals and are abandoned as other promising ideas take their place In *Learning to Improve* the authors argue for a new approach Rather than implementing fast and learning slow they believe educators should adopt a more rigorous approach to improvement that allows the field to learn fast to implement well Using ideas borrowed from improvement science the authors show how a process of disciplined inquiry can be combined with the use of networks to identify adapt and successfully scale up promising interventions in education Organized around six core principles the book shows how networked improvement communities can bring together researchers and practitioners to accelerate learning in key areas of education Examples include efforts to address the high rates of failure among students in community college remedial math courses and strategies for improving feedback to novice teachers *Learning to Improve* offers a new paradigm for research and development in education that promises to be a powerful driver of improvement for the nation's schools and colleges

Freidus, 2001 Drawn from the real life and work of practitioners committed to change this narrative sheds light on the role and work of change agents **Inspiration, Perspiration, and Time** Brian Gill, Laura S. Hamilton, J. R. Lockwood, Julie A. Marsh, Ron Zimmer, 2005-12-08 In 2000 Edison Schools the nation's largest education management organization asked RAND to analyze its achievement outcomes and design implementation RAND evaluated Edison's strategies for promoting student achievement in its schools how it implemented those strategies how its management affected student achievement and what factors explained differences in achievement trends among its schools **Revisiting "The Culture of the School and the Problem of Change"** Seymour B. Sarason, 1996 *Revisiting The Culture of the School and the Problem of Change* provocatively and seamlessly joins Seymour Sarason's classic landmark text on school change with his own insightful reflections on those same issues in the face of today's crisis in public schools This is an extensive monograph length revisiting

Part I of this book reproduces the second edition of Sarason's ground breaking work *The Culture of the School and the Problem of Change* in which he detailed how change can affect a school's culturally diverse environment either through the implementation of new programs or as a result of federally imposed regulations. Throughout many of the major assumptions about change in institutions are challenged. Specific events and examples demonstrate that any attempt to implement change involves some existing regularity within the school. Dr Sarason also takes a close look at government involvement in change efforts in schooling and includes a detailed examination of current efforts to implement PL 94-142 into public schools. He presents compelling evidence that the federal effort to change and improve schools has largely been a failure. Also included are investigations into the purposes of schooling and how these purposes can be affected by change and the process by which educators and administrators formulate intended outcomes of change efforts. In Part II Dr Sarason revisits the text and the issues 25 years after the original publication. As he explains in his preface to him the word crisis means a point in time when a dangerous situation contains conflicting forces of an intensity or seriousness that in the near term will be dramatically altered depending on which forces win out. When I wrote the book a quarter century ago I did not regard our schools as in crisis though my intuition was that a crisis would come sooner or later. It has in my opinion come. Believing that what happens in our cities and our schools will determine the fate of our society Dr Sarason is deeply concerned that the reform arena is being manipulated by forces that are at best untroubled by and at worst intent on the dismantling of the public school system. That coupled with his fear that even the system's defenders are not focusing on the real issues has infused Dr Sarason's return to the topic of educational change with a great sense of urgency. The important things he has to say will be welcomed by all who truly care about the state of the public schools that America's children attend.

School Districts and

Instructional Renewal Amy M. Hightower, 2002-01-01 This volume shows how school districts can and do make essential contributions to the renewal and enhancement of American education. It expands the conversation on what school districts are, what they do, and how they can enhance the quality of teaching and learning in US schools.

Teachers Caught in the

Action Ann Lieberman, Lynne Miller, 2001-04-27 Because what we do in staff development can best be understood in terms of Contexts, Strategies, and Structures, the remainder of the book features distinguished educators who write from their own unique experiential and theoretical stances. Jacqueline Ancess describes how teachers in New York City secondary schools increase their own learning while improving student outcomes. Milbrey W. McLaughlin and Joel Zarrow demonstrate how teachers learn to use data to improve their practice and meet educational standards. Lynne Miller presents a case study of a long lived school-university partnership. Beverly Falk recounts stories of teachers working together to develop performance assessments to understand their students' learning, to re-think their curriculum, and much more. Laura Stokes analyzes a school that successfully uses inquiry groups. There are further contributions including some from novice teachers by Anna Richert Ershler, Ann Lieberman, Diane Wood, Sarah Warshauer Freedman, and Joseph P. McDonald. These powerful exemplars

from practice provide a much needed overview of what matters and what really works in professional development today

Handbook of Research in the Social Foundations of Education Steven Tozer, Bernardo P. Gallegos, Annette Henry, Mary Bushnell Greiner, Paula Groves Price, 2011-07-05 Parts one and two of this volume present the theoretical lenses used to study the social contexts of education These include long established foundations disciplines such as sociology of education and philosophy of education as well as newer theoretical perspectives such as critical race theory feminist educational theory and cultural studies in education Parts three four and five demonstrate how these theoretical lenses are used to examine such phenomena as globalization media popular culture technology youth culture and schooling This groundbreaking volume helps readers understand the history evolution and significance of this wide ranging often misunderstood and increasingly important field of study This book is appropriate as a reference volume not only for scholars in the social foundations of education but also for scholars interested in the cultural contexts of teaching and learning formal and informal It is also appropriate as a textbook for graduate level courses in Social Foundations of Education School and Society Educational Policy Studies Cultural Studies in Education and Curriculum and Instruction

Handbook of Educational Policy Gregory J. Cizek, 1999-04-13 The Handbook of Educational Policy provides a comprehensive overview of policy questions in education reform at local state and national levels The book raises controversial questions such as who really benefits from educational reform and investigates issues of accountability assessment educational fads technology in education and other matters of educational policy The book explores not only what education is but what it can be and should be providing a scholarly analysis of policy decisions as well as practical recommendations for parents teachers and policy makers Key Features Provides informed discussion based on scholarly research Contains practical recommendations for parents educators and policy makers Includes representation from local state and national levels Considers comparisons of United States practices to reforms abroad Addresses current issues and implications for the futures

Making a Difference in Urban Schools Jane Gaskell, Benjamin Levin, 2012-08-08 What can be done to improve the educational experiences of students who live in cities with increasingly high levels of diversity and inequality Making a Difference in Urban Schools evaluates how school and community leaders have worked to change urban education in Canada for the better over the past fifty years This analytic and comparative study traces the evolution of urban education in Toronto and Winnipeg from the 1960s onward Jane Gaskell and Ben Levin identify important contrasts between the experiences in each city as a result of their different demographics institutional structures cultures and politics They also highlight the common issues and dilemmas faced by reformers in these two cities across Canada and globally including many that persist and remain controversial to this day

State and Local Finances Under Pressure David L. Sjoquist, 2003-01-01 State and Local Finances under Pressure explores the future of state and local government fiscal systems given the numerous pressures they face from economic legal technological demographic and political forces It explores how these multiple forces play out in terms of the

changes state and local governments should and are likely to make The contributors argue that state and local governments must make substantial changes and that failure to act is likely to result in adverse effects and increasing pressures for modifications that are more difficult to implement and more politically unpalatable Without reform state and local fiscal systems will grow increasingly out of sync with economic reality The authors suggest that government responses are likely to be evolutionary but that in 25 years the recorded changes will be substantial The first chapter provides a historic perspective of state and local fiscal trends Each of the subsequent chapters describes the nature of one of the pressures state and local governments face including political and legal forces globalization of business demographic and technological changes deregulation of utilities and urban sprawl Policymakers economists political scientists fiscal policy analysts and public administrators will find this comprehensive book of interest
