Rethinking Central Asia Non Eurocentri:

Rethinking Central Asia Korkut A. Ertürk, 1999 This work re examines the place of Central Asia in world history and argues that Central Asia has to be thought of in its own terms rather than within an Eurocentric framework By reflecting on its unique history in state and identity formation social structure and gender relations the contributions to this volume show that studying Central Asia is important not only for its own sake but also because of the contributions it can make to comparative social theory

Globalization on the Margins (2nd Edition) Iveta Silova, Sarfaro Niyozov, 2020-01-01 Reflecting on almost three decades of postsocialist transformations the second edition of *Globalization on the Margins* explores continuities and changes in Central Asian education development since the dissolution of the Soviet Union in 1991 with a particular focus on the developments that took place since the production of the first edition in 2011 Rather than viewing these transformations in isolation the authors place their analyses within the global context by reflecting on the interaction between Soviet legacies and global education reform pressures in the Central Asian countries of Kazakhstan Kyrgyzstan Tajikistan Turkmenistan and Uzbekistan This new edition in addition to a revised introduction and a newly added conclusion consists of four thematic sections each reflecting a key theme in the educational life of the Central Asian states These thematic sections introduction and conclusion collectively update our understanding of the recent developments and challenges in education of the five Central Asian states They however go beyond mere information update so as to complicate re engage re form and re define the margins taking up margins a conceptual geographic cultural and geo political construct Notwithstanding the diversity of local and international authors variety of theoretical perspectives methodological approaches and conceptual lenses the essays reveal the complexity and uncertainty of the post socialist education transformations Instead of portraying the transition process as the influx of Western ideas into the region *Globalization on the Margins* provides new lenses to critically example education as a contested field of diverse perspectives competing forces and multidirectional flow of ideas concepts and reforms in Central Asia

ENDORSEMENTS Hindsight famously brings clarity And much of what happened after the fall of the Berlin Wall and the collapse of the Soviet Union has now been correctly deeded over to historians Nonetheless we ignore that history at our peril The contributors to this volume show that carefully textured and historically attuned education research generates deep insights into ongoing transformations and the political cultural social and economic structures relations and practices that do the work of producing margins and centers in the first place Noah W Sobe Loyola University Chicago *Globalization on the margins* and at the epicentre of the battles of the Great Powers Two excellent educators Sarfaro Niyozov and Iveta Silova compiled a timely and long awaited scholarly work based on empirical research in societies which had similar history close to three decades ago All the contributors are prolific educators who know the education system from within and without who either hailed from the region or have spent a considerable amount of time to know the systems well The book contains remarkable stories of education through the ups

and downs of historical evolution It is a must read primer for anyone interested in learning about high quality research in the field of education in Central Asia It is a huge contribution to educational research with an impact on research and teaching for years to come Duishon Shamatov Nazarbayev University Kazakhstan The challenge of moving Central Asia from the borders of the Soviet Empire to the world s center is the focus of the discussions in Globalization on the Margins The transition to the Western models of education was happening in the context of major paradigm shift which entire humanity was experiencing and which could be described as the arrival of the new post industrial civilization During this process Central Asian countries have been pushed to the margins because their contribution to the wealth of the new world know how was much less pronounced than that of their Western neighbours Therefore investment into the research that contributes to local knowledge production seems a natural solution to the problem All the contributors to this book have a vast experience in the region and many of their observations are thought provoking This is a very insightful and much needed book Elena Lenskaya Moscow School of Social and Economic Sciences Russia **Being Muslim in Central Asia**

,2018-01-03 This volume explores the changing place of Islam in contemporary Central Asia understanding religion as a societal shaper a roadmap for navigating quickly evolving social and cultural values Islam can take on multiple colors and identities from a purely transcendental faith in God to a cauldron of ideological ferment for political ideology via diverse culture community and history based phenomena The volumes discusses what it means to be a Muslim in today s Central Asia by looking at both historical and sociological features investigates the relationship between Islam politics and the state the changing role of Islam in terms of societal values and the issue of female attire as a public debate Contributors include Aur lie Biard Tim Epkenhans Nurgul Esenamanova Azamat Junisbai Barbara Junisbai Marlene Laruelle Marantha Miles Emil Nasritdinov Shahnoza Nozimova Yaacov Ro i Wendell Schwab Manja Stephan Emmrich Rano Turaeva Alon Wainer Alexander Wolters Galina M Yemelianova Baurzhan Zhussupov Pre-tsarist and Tsarist Central Asia Paul Georg Geiss,2004-11-23

existing ideas about the aims and goals of economic growth

Female Religiosity in Central Asia Aziza

Shanazarova,2024-04-30 Challenges conventional approaches to gender history in early modern Central Asia through unique analysis of female religious authority

History of civilizations of Central Asia Adle, Chahryar,Baipakov, Karl M.,Habib,

Irfan,UNESCO,2003-12-31 The period treated in this volume is highlighted by the slow retreat of nomadism and the progressive increase of sedentary polities owing to a fundamental change in military technology Furthermore this period certainly saw a growing contrast in the pace of economic and cultural progress between Central Asia and Europe The internal growth of the European economies and the influx of silver from the New World gave Atlantic Europe an increasingly important position in world trade and caused a major shift in inland Asian trade Thus 1850 marks the end of the total sway of pre modern culture as the extension of colonial dominance was accompanied by the influx of modern ideas

Nationalism in Central Asia Nick Megoran,2017-10-04 Nick Megoran explores the process of building independent nation states in post Soviet Central Asia through the lens of the disputed border territory between Uzbekistan and Kyrgyzstan In his rich biography of the boundary he employs a combination of political cultural historical ethnographic and geographic frames to shed new light on nation building process in this volatile and geopolitically significant region Megoran draws on twenty years of extensive research in the borderlands via interviews observations participation and newspaper analysis He considers the problems of nationalist discourse versus local vernacular elite struggles versus borderland solidarities boundary delimitation versus everyday experience border control versus resistance and mass violence in 2010 all of which have exacerbated territorial anxieties Megoran also revisits theories of causation such as the loss of Soviet control poorly defined boundaries natural resource disputes and historic ethnic clashes to show that while these all contribute to heightened tensions political actors and their agendas have clearly driven territorial aspirations and are the overriding source of conflict As this compelling case study shows the boundaries of the The Ferghana Valley put in succinct focus larger global and moral questions of what defines a good border

The Legendary Biographies of Tamerlane Ron Sela,2011-04-29 Timur or

Tamerlane is famous as the fourteenth century conqueror of much of Central Eurasia and the founder of the Timurid dynasty His reputation lived on in his native lands and reappeared some three centuries after his death in the form of fictional biographies authored anonymously in Persian and Turkic These biographies have become part of popular culture Despite a direct continuity in their production from the eighteenth century to the present they remain virtually unknown to people outside the region This remarkable and rigorous scholarly appraisal of the legendary biographies of Tamerlane is the first of its kind in any language The book sheds light not only on the character of Tamerlane and how he was remembered and championed by many generations after his demise but also on the era in which the biographies were written and how they were conceived and received by the local populace during an age of crisis in their own history

A History of Social Justice and Political Power in the Middle East Linda T.

Darling,2013-05-02 From ancient Mesopotamia into the 20th century the Circle of Justice as a concept has pervaded Middle Eastern political thought and underpinned the exercise of power in the Middle East The Circle of Justice depicts graphically how a government s justice toward the population generates political power military strength prosperity and good administration This book traces this set of relationships from its earliest appearance in the political writings of the Sumerians through four millennia of Middle Eastern culture It explores how people conceptualized and acted upon this powerful insight how they portrayed it in symbol painting and story and how they transmitted it from one regime to the next Moving towards the modern day the author shows how although the Circle of Justice was largely dropped from political discourse it did not disappear from people s political culture and expectations of government The book demonstrates the Circle s relevance to the Iranian Revolution and the rise of Islamist movements all over the Middle East and suggests how the concept remains relevant in an age of capitalism A must read for students policymakers and ordinary citizens this book will be an important contribution to the areas of political history political theory Middle East studies and Orientalism
