Rethinking Empowerment Gender And Development In A Global Local World:

Rethinking Empowerment Jane L. Parpart, Shirin Rai, Kathleen A. Staudt, 2002 Rethinking Empowerment looks at the changing role of women in developing countries and calls for a new approach to empowerment An approach that adopts a more nuanced feminist interpretation of power and empowerment recognises that local empowerment is always embedded in regional national and global contexts pays attention to institutional structures and politics and acknowledges that empowerment is both a process and an outcome Moreover the book warns that an obsession with measurement rather than process can undermine efforts to foster transformative and empowering outcomes It concludes that power must be restored as the centrepiece of empowerment Only then will the term and its advocates provide meaningful ammunition for dealing with the challenges of an increasingly unequal and often sexist global local world

Development, Sexual Rights and Global Governance Amy Lind, 2010-01-04 This book addresses how sexual practices and identities are imagined and regulated through development discourses and within institutions of global governance The underlying premise of this volume is that the global development industry plays a central role in constructing people s sexual lives access to citizenship and struggles for livelihood Despite the industry s persistent insistence on viewing sexuality as basically outside the realm of economic modernization and anti poverty programs this volume brings to the fore heterosexual bias within macroeconomic and human rights development frameworks The work fills an important gap in understanding how people s intimate lives are governed through heteronormative policies which typically assume that the family is based on blood or property ties rather than on alternative forms of kinship By placing heteronormativity at the center of analysis this anthology thus provides a much needed discussion about the development industry s role in pathologizing sexual deviance yet also more recently in helping make visible a sexual rights agenda Providing insights valuable to a range of disciplines this book will be of particular interest to students and scholars of Development Studies Gender Studies and International

Relations It will also be highly relevant to development practitioners and international human rights advocates The Open Access version of this book available at <http://www.taylorfrancis.com/books/e/9780203868348> has been made available under a Creative Commons Attribution Non Commercial No Derivatives 4.0 license

Financial inclusion through microfinance has become a powerful force in improving the living conditions of poor farmers, rural non-farm enterprises, and other vulnerable groups. In its unique ability to link the existing extensive network of India's rural bank branches with the Self Help Groups (SHGs), the National Bank of Agriculture and Rural Development (NABARD) has covered up to 97 million poor households by March 2010 under its Self Help Group Bank Linkage Programme. Policy makers have proclaimed SHGs as the most potent initiative for delivering financial services to the poor in a sustainable manner. This book presents a comprehensive scientific assessment of the impact of the Self Help Group Bank Linkage Programme (SBLP) on the member households. The book discusses wide-ranging topics including the rural financial sector in India, the history and structure of the SBLP, the impact methodologies, the economic and social impact of microfinance, its role in building assets while reducing poverty, and

vulnerability the role of women and their empowerment training and accumulation of human capital and policy implications of lessons learned The empirical results show that vulnerability of the more mature SHG members declines significantly Vulnerability also falls for villages with better infrastructure and for SHGs that are formed by NGOs and linked by banks The results strongly demonstrate that on average there is a significant increase in the empowerment of the female participants The economic impact of SBLP is found to be the most empowering Greater autonomy and changes in social attitudes also lead to female empowerment The investigation further reveals that training especially business training has a definite positive impact on assets but not on income The impact of training can be improved through better infrastructure as in paved roads linkage model type and the training organiser Bridging the gap in the existing literature and between academics and practitioners this book moves beyond the usual theoretical issues in the impact assessment literature and draws on new developments in methodology It will be of interest to academics development practitioners and students of economics political science sociology public policy and development studies
