Rethinking Nuclear Strategy:

Rethinking Nuclear Strategy Stephen J Cimbala, 1988-03 *Rethinking Nuclear Strategy* Pennie, Ken, University of Manitoba. Centre for Defence and Security Studies, 1994 **The Logic of American Nuclear Strategy** Matthew Kroenig, 2018 For decades the reigning scholarly wisdom about nuclear weapons policy has been that the United States only needs the ability to absorb an enemy nuclear attack and still be able to respond with a devastating counterattack So long as the US or any other nation retains such an assured retaliation capability no sane leader would intentionally launch a nuclear attack against it and nuclear deterrence will hold According to this theory possessing more weapons than necessary for a second strike capability is illogical This argument is reasonable but when compared to the empirical record it raises an important puzzle Empirically we see that the United States has always maintained a nuclear posture that is much more robust than a mere second strike capability In *The Logic of American Nuclear Strategy* Matthew Kroenig challenges the conventional wisdom and explains why a robust nuclear posture above and beyond a mere second strike capability contributes to a state's national security goals In fact when a state has a robust nuclear weapons force such a capability reduces its expected costs in a war provides it with bargaining leverage and ultimately enhances nuclear deterrence This book provides a novel theoretical explanation for why military nuclear advantages translate into geopolitical advantages In so doing it helps resolve one of the most intractable puzzles in international security studies Buoyed by an innovative thesis and a vast array of historical and quantitative evidence *The Logic of American Nuclear Strategy* will force scholars to reconsider their basic assumptions about the logic of nuclear deterrence *Rethinking National Security* Frances Scott, 1990 **US Nuclear Strategy** Philip Bobbitt, 1989-03-01 Setting the terms for an effective public debate on nuclear issues this provides essays and excerpts from longer works that have charted the development of American nuclear strategy Each section ends with questions for study and analysis with suggested further reading **Nuclear Weapons and American Grand Strategy** Francis J. Gavin, 2020-01-21 Exploring what we know and don't know about how nuclear weapons shape American grand strategy and international relations A 2020 CHOICE Outstanding Academic Title The world first confronted the power of nuclear weapons when the United States dropped atomic bombs on Hiroshima and Nagasaki in August 1945 The global threat of these weapons deepened in the following decades as more advanced weapons aggressive strategies and new nuclear powers emerged Ever since countless books reports and articles and even a new field of academic inquiry called security studies have tried to explain the so called nuclear revolution Francis J Gavin argues that scholarly and popular understanding of many key issues about nuclear weapons is incomplete at best and wrong at worst Among these important misunderstood issues are how nuclear deterrence works whether nuclear coercion is effective how and why the United States chose its nuclear strategies why countries develop their own nuclear weapons or choose not to do so and most fundamentally whether nuclear weapons make the world safer or more dangerous These and similar questions still matter

because nuclear danger is returning as a genuine threat Emerging technologies and shifting great power rivalries seem to herald a new type of cold war just three decades after the end of the U S Soviet conflict that was characterized by periodic prospects of global Armageddon Nuclear Weapons and American Grand Strategy helps policymakers wrestle with the latest challenges Written in a clear accessible and jargon free manner the book also offers insights for students scholars and others interested in both the history and future of nuclear danger **Rethinking the Role of Nuclear Weapons** David C.

Gompert,1998 In the new era the United States need not rely on nuclear weapons to prevent a global challenger from upsetting the status quo to compensate for weakness in conventional defense or to impress others with its power Although the threat of nuclear response to conventional attack is no longer crucial to U S strategy rogue states might adopt this tactic to deter U S power projection However the United States needs nuclear weapons to deter nuclear and biological attack which could be just as deadly and might not be deterred by threat of U S conventional retaliation The United States could reduce the importance and attractiveness of nuclear weapons delegitimize their use in response to conventional threats sharpen nuclear deterrence against biological weapons by stating nuclear weapons would be used only in retaliation for attacks with weapons of mass destruction WMD in essence a no first use of WMD policy *Professional Journal of the*

United States Army ,1989 **Stalking the Antichrists (1965-2012) Volume 2** George E. Lowe,2013-12-16 Volume 1 of Stalking the Antichrists and Their False Nuclear Prophets Nuclear Gladiators and Spirit Warriors 1940 1965 is essentially an enhanced memoir It is based for the most part on my personal observations and knowledge and specialized information from my academic studies of history political science and literature at Grove City College and the University of Chicago as well as my professional insights into the heart of the U S Navy 1953 1957 1960 1961 OP 09D as an Air Intelligence Officer in Hawaii and Japan and the Pentagon political military counsellor assignments in the State Department as a Foreign Service Officer FSO 6 at the American embassy in Paris 1962 64 and a speechwriter in the Navy Department 1965 In volume 2 the textual narrative begins with the end of my specific actions activities in the Navy and Foreign Service in July 1965 which I have called How I Lived in History 1950 1965 In retrospect my entire Navy career from my commissioning as Ensign USNR 1355 AIO in early September 1953 at Naval Station Newport Rhode Island to my first honorable discharge at Treasure Island on August 27 1957 was in preparation to an understanding of World War II and the Cold War *Review of Current Military Literature* ,1989 Energy Abstracts for Policy Analysis ,1987 **Soviet Imperatives for the 1990's** United States.

Congress. Senate. Committee on Foreign Relations. Subcommittee on European Affairs,1986 *START and the Future of Deterrence* Michael J. Mazarr,1990-06-18 Examining the future of nuclear deterrence in the 1990s and beyond this book outlines aspects of the evolving strategic environment It also projects the likely future of deterrence strategies and strategic force postures Other topics such as the Soviet nuclear doctrine are also covered **Military Review** ,1989-07

Contemporary Security and Strategy Craig Snyder,Craig A. Snyder,1999 First Published in 1999 Routledge is an imprint

of Taylor Francis an informa company Air University Library Index to Military Periodicals ,1990 The future of U.S.-India security cooperation Sumit Ganguly,M. Chris Mason,2021-03-30 This book deals with the evolution current status and potential of U S India strategic cooperation From very modest beginnings the U S India strategic partnership has developed significantly over the last decade In considerable part this growth has stemmed from overlapping concerns about the rise and assertiveness of the People s Republic of China as well as the instability of Pakistan Despite the emergence of this partnership significant differences remain some of which stem from Cold War legacies others from divergent global strategic interests and institutional design In spite of these areas of discord the overall trajectory of the relationship appears promising Increased cooperation and closer policy coordination underscore a deepening of the relationship while fundamental differences in national approaches to strategic challenges demand flexibility and compromise in the future

India's Evolving Deterrent Force Posturing in South Asia Zulfqar Khan,Zafar Khan,2020-12-16 The book discusses India s evolving deterrent force posturing in South Asia under the conceptual essentials of nuclear revolution when it comes to various combinations of conventional and nuclear forces development and the strategic implications it intentionally or unintentionally poses for the South Asian region The book talks about how the contemporary restructuring of India s deterrent force posture affects India s nuclear strategy in general and how this in turn could affect the policies of its adversaries China and Pakistan in particular Authors discuss the motivations of such posturing that broadly covers India s restructuring of its Nuclear Draft Doctrine DND the ballistic missile development program including that of its Ballistic Missile Defence BMD system and the possibility of conflicts between China India and India Pakistan given their transforming strategic force postures and their recurring adversarial behavior against each other in the Southern Asian region **Tokens of Power** Ann Hironaka,2017-03-06 What motivates going to war This book reexamines how leaders make decisions based on appearances of power over military reality Deterrence A. Lowther,2012-12-10 This volume moves beyond Cold War deterrence theory to show the many ways in which deterrence is applicable to contemporary security in space in cyberspace and against non state actors It also examines the role of nuclear deterrence in the twenty first century and reaches surprising conclusions
