Rethinking Instructional Supervision:

Rethinking Instructional Supervision Duncan Waite, 2004-06-02 Published in the year 19595 Rethinking Instructional Supervision is a valuable contribution to the field of Education *Rethinking Teacher Supervision and Evaluation* Kim Marshall, 2009-10-30 In this important book education expert Kim Marshall shows how to break away from the typical and often ineffective evaluation approaches in which principals use infrequent classroom visits or rely on standardized test scores to assess a teacher's performance Marshall proposes a broader framework for supervision and evaluation that enlists teachers in improving the performance of all students Emphasizing trust building and teamwork Marshall's innovative four part framework shifts the focus from periodically evaluating teaching to continuously analyzing learning This book offers school principals a guide for implementing Marshall's framework and shows how to make frequent informal classroom visits followed by candid feedback to each teacher work with teacher teams to plan thoughtful curriculum units rather than focusing on individual lessons get teachers as teams involved in low stakes analysis of interim assessment results to fine tune their teaching and help struggling students and use compact rubrics for summative teacher evaluation This vital resource also includes extensive tools and advice for managing time as well as ideas for using supervision and evaluation practices to foster teacher professional development Rethinking Instructional Supervision in Papua New Guinea Henry Atete Kapao, 1996 Rethinking Teacher Supervision and Evaluation Kim Marshall, 2024-08-06 A proven practical approach to teacher supervision coaching and evaluation that emphasize fairness equity and achievement In the third edition of this longtime bestseller nationally recognized education leader Kim Marshall offers a framework for supervisors who want to motivate and inspire their colleagues and bring more good teaching to more classrooms more of the time Rethinking Teacher Supervision and Evaluation shows you how to break away from outdated evaluation approaches describing an innovative approach that enlists teachers and teacher teams in improving the performance of all students This thoroughly revised and updated third edition brings Marshall's widely used framework up to date with even more practical guidelines for implementing effective classroom visits teacher teamwork around data and curriculum unit planning professional development and more You'll also discover high tech and low tech tools that can boost a supervisor's impact and efficiency Discover the bestselling approach to teacher supervision coaching and evaluation Implement techniques to learn what's really going on inside classrooms Implement short frequent unannounced classroom visits followed by face to face conversations about teaching and learning Use rubrics to continuously improve teaching and learning Foster professional development with supervision and evaluation techniques that focus on improvement and motivation Improve time management and the effective use of student learning data Since the publication of the first and second editions Rethinking Teacher Supervision and Evaluation has been an invaluable resource for K 12 supervisors instructional coaches and teacher leaders as well as trainers and policymakers The third edition builds on a decade of additional research and work in schools

around the world bringing the ideas into alignment with the rapidly changing world of education for a timely and beneficial approach to leading today's teachers Redefining Instructional Leadership John R. Jones, Misty Henry, 2022-10-01

Redefining Instructional Leadership The Skills and Energy Required of an Instructional Leader focuses on how principals must be instructional leaders by first making building relationships a priority. Then with those relationships that are built, the leader will earn trust from their teachers, which will give them the influence they need to lead them to better levels of performance and better performance leads to greater depths of student achievement. Redefining Instructional Leadership goes beyond simply stating theory and summarizing research about what schools need from instructional leaders by emphasizing what instructional leaders should do and how to do it. This book explains the steps instructional leaders must learn and put into practice if their desire is to become a truly dynamic leader that will have a positive impact on teaching and learning. *The Practical Critical Educator* Karyn Cooper, Robert E. White, 2006-02-02

Premised on the need for democratic education and positive social change, this book is about being sensitive to respecting and honoring differences. It connects the professional lives of educators with critical democratic practices. Using concrete examples, the editors promote the assertion that every educator can become an agent of change. Moreover, the book presents the experiences of professionals involved in effecting positive change. **Resources in Education**, 1999-04 *IJER Vol 9-N4* International Journal of Educational

Reform, 2000-10-01 The mission of the International Journal of Educational Reform (IJER) is to keep readers up to date with worldwide developments in education reform by providing scholarly information and practical analysis from recognized international authorities. As the only peer-reviewed scholarly publication that combines authors' voices without regard for the political affiliations, perspectives, or research methodologies, IJER provides readers with a balanced view of all sides of the political and educational mainstream. To this end, IJER includes but is not limited to inquiry-based and opinion pieces on developments in such areas as policy administration, curriculum, instruction, law, and research. IJER should thus be of interest to professional educators with decision-making roles and policymakers at all levels, since it provides a broad-based conversation between and among policymakers, practitioners, and academicians about reform goals, objectives, and methods for success throughout the world. Readers can call on IJER to learn from an international group of reform implementers by discovering what they can do that has actually worked. IJER can also help readers to understand the pitfalls of current reforms in order to avoid making similar mistakes. Finally, it is the mission of IJER to help readers to learn about key issues in school reform from movers and shakers who help to study and shape the power base directing educational reform in the U.S. and the world. Analysing Discourses in Teacher Observation Feedback Conferences Fiona Copland, Helen

Donaghue, 2021-06-07 This volume focuses on the post-observation feedback conference, a common feature of teacher education programs, and highlights the importance of such talk in the development and evaluation of teachers and other professionals. The book adopts a linguistic ethnographic approach which provides a framework for examining the contextual

nature of the talk and how it is embedded within wider social contexts and structures such as evaluation regimes Drawing on data from a range of settings including pre service teacher education medical education and teacher appraisal programs Copland and Donaghue examine the feedback conference from a range of perspectives including face identity and genre and show how a nuanced understanding of discussions can support teacher trainers supervisors and observers to provide appropriate and useful feedback A concluding chapter brings together brief vignettes from researchers active in the field to point to future directions for further study This book will be of particular interest to students and researchers in discourse analysis language education linguistic anthropology and professional communication as well as pre and in service teachers
