Historical Dictionary of Japanese Traditional Theatre Samuel L. Leiter, 2006-01-16 This comprehensive reference work covers all four forms of traditional Japanese theatre nT kyTgen bunraku and kabuki International tours by each have become commonplace allowing audiences everywhere to broaden their understanding of theatre's possibilities and inspiring artists to infuse their works with ideas sparked by Japanese theatre's conventions Because of the great interest generated by

increasing familiarity with these theatre traditions along with a multitude of general and specialized publications investigating and describing them there has developed a serious need for a work that allows for immediate access to specific information regarding many concepts terms and individuals The Historical Dictionary of Japanese Traditional Theatre covers all four genres providing information on nearly every aspect including actors theatres companies history makeup costumes masks biographies theories training music religion criticism and many more This is done through hundreds of dictionary entries arranged alphabetically with abundant cross references a general introduction a chronology and a special glossary of all terms mentioned in the text but not provided with their own entries all of which can be supplemented by consulting the most extensive bibliography of English language Japanese theatre books articles and websites presently available **E.L.**

Doctorow Michael Wutz, 2019-09-27 This book gathers a suite of newly commissioned original essays on the work of E L Doctorow **Lexical Knowledge in the Organization of Language** Urs Egli, Peter E. Pause, Christoph Schwarze, Arnim

von Stechow, Götz Wienold, 1995-03-09 This book contains a selection of the papers given at an international conference at the University of Konstanz Germany in 1991 All contributions relate to the assumption that lexical knowledge plays a central role in the organization of language inasmuch as the components or modules of grammar come together and interact in the lexicon Originating in various traditions of linguistic thought however the individual papers reflect differing interests and are based upon different conceptions of the lexicon its status and interfaces There is the position of current generative linguistics which aims at accounting for structural properties of the lexicon within syntactic theory There is also the perspective of model theoretical semantics where borderline phenomena between lexical semantics and the semantics of sentence and text receive particular attention Still another group of papers directly discusses problems of lexical semantics focussing on representational and conceptual aspects of word meanings The notion of a two level semantics as well as cross linguistic analyses are characteristic of these contributions The book closes with a comparative and historical study of lexical evolution

Thresholds of Western Culture John Burt Foster, Jr., Wayne Froman, 2003-01-01 Thresholds of Western Culture explores identity postcoloniality and transnationalism three closely related issues which redefine contemporary cultural identity The book opens with an analysis of subjectivity and the cultural meltdown that accompanied fascism in the West The situation in Africa is then explored which while recalling modernity's dark side highlights the intricacy of postcolonial identity Post Soviet Eastern Europe presents a separate case of neglected postcoloniality which emphasizes how ethnocentrism and cultural tensions have exposed the fragility of transnationalism The book concludes with an examination of East Asia a region which offers transnational options potentially much more fruitful than Balkanization **Sensational**

Knowledge Tomie Hahn, 2007-05-07 DVD contains Examples of performances **Daitokuji** Gregory P. A. Levine, 2005 The Zen Buddhist monastery Daitokuji in Kyoto has long been revered as a cloistered meditation centre a repository of art treasures and a wellspring of the Zen aesthetic Gregory Levine's Daitokuji unsettles these conventional notions with

groundbreaking inquiry into the significant and surprising visual and social identities of sculpture painting and calligraphy associated with this fourteenth century monastery and its enduring monastic and lay communities The book begins with a study of Zen portraiture at Daitokuji that reveals the precariousness of portrait likeness the face that gazes out from an abbot's painting or statue may not be who we expect it to be or submit quietly to interpretation By tracing the life of Daitokuji's famed statue of the chanoyu patriarch Sen no Rikyū 1522-91 which was all but destroyed by the ruler Toyotomi Hideyoshi 1537-98 but survived in Rashōmon-like narratives and reconstituted sculptural forms Levine throws light upon the contested status of images and their mytho-poetic potential Levine then draws from the seventeenth century journal of Kōgetsu Sōgan Bokuseki no utsushi to explore practices of calligraphy connoisseurship at Daitokuji and the pivotal role played by the monastery's abbots within Kyoto art circles The book's final section explores Daitokuji's annual airings of temple treasures not merely as a practice geared toward preservation but also as a space in which different communities vie for authority over the artistic past An epilogue follows the peripatetic journey of the monastery's scrolls of the 500 Luohan from China to Japan to exhibition and partial sale in the West and back to Daitokuji Illuminating canonical and heretofore ignored works and mining a trove of documents diaries and modern writings Levine argues for the plurality of Daitokuji's visual arts and the breadth of social and ritual circumstances of art making and viewing within the monastery This diversity encourages reconsideration of stereotyped notions of Zen art and offers specialists and general readers alike opportunity to explore the fertile and sometimes volatile nexus of the visual arts and religious sites in Japan

The New Woman in Early Twentieth-century Chinese Fiction Jin Feng, 2004 Jin Feng proposes that representation of the new woman in Communist Chinese fiction of the earlier twentieth century was paradoxically one of the ways in which male writers of the era explored negotiated and laid claim to their own emerging identity as modern intellectuals

Historical Dictionary of Shinto Stuart D.B. Picken, 2010-12-28 One of Japan's major religions Shinto has no doctrines and there are no sacred texts from which religious authority can be derived It does not have an identifiable historical founder and it has survived the vicissitudes of history through rituals and symbols rather than through continuity of doctrine Shinto is primarily a religion of nature centered on the cultivation of rice the basis of a culture with which the western world is not familiar in terms of either its annual cycle or the kind of lifestyle it generates The roots of the Shinto tradition probably precede this and reflect an awareness of the natural order The oldest shrines came to be located in places that inspired awe and wonder in their observers such as the great Fall of Nachi in Kumano or in mountains that conveyed a sense of power The expanded second edition of the *Historical Dictionary of Shinto* relates the history of Shinto through a chronology an introductory essay an extensive bibliography and over 800 cross-referenced dictionary entries on Shinto concepts significant figures places activities and periods Scholars and students will find the overviews and sources for further research provided by this book to be enormously helpful
