Rethinking

Inclusive Education: The Philosophers of Difference in Practice Julie Allan, 2007-11-07 One of the important responsibilities that advocates of inclusion need to continually practise is that of self criticism This includes examining and re examining the assumptions informing our perspectives the concepts that we use including inclusive education and our intentions especially

in relation to the question of change We need to beware of the danger of unexamined orthodoxies the possibilities of adopting inclusive language with little if any changes in our thinking and practice and a sterile and insensitive position with regard to the pursuit of new or alternative ideas In this very important book Allan powerfully reminds us of the necessity and centrality of these concerns and provides a direct perceptive and thoughtful examination and critique of the varied barriers to the task of how to make inclusion happen Allan challenges the reader to step back and reexamine the rationale for inclusion through an alternative mindset She challenges the varied attacks upon inclusion including those in the education business to stop using economic it costs too much and pedagogical it is bad for the other children in the class and traumatic for the disabled children and social just too much for the teacher's workload reasons for closing the door and doing the right thing and those who argue that inclusion was an experiment that did not work

Childhood Education Rachael S. Burke, Judith Duncan, 2014-10-30 Taking the body as a locus for discussion Rachael S Burke and Judith Duncan argue not only that implicit cultural practices shape most of the interactions taking place in early childhood curricula and pedagogy but that many of these practices often go unnoticed or unrecognized as being pedagogy Current scholars inspired by Foucault acknowledge that the body is socially and culturally produced and historically situated it is simultaneously a part of nature and society as well as a representation of the way that nature and society can be conceived Every natural symbol originating from the body contains and conveys a social meaning and every culture selects its own meaning from the myriad of potential body symbolisms Bodies as Sites of Cultural Reflection in Early Childhood Education uses empirical examples from qualitative fieldwork conducted in New Zealand and Japan to explore these theories and discuss the ways in which children's bodies represent a central focus in teachers' pedagogical discussions and create contexts for the embodiment of children's experiences in the early years *Yale Law Journal* Yale Law Journal, 2013-06-29 Symposium The Gideon Effect Rights Justice and Lawyers Fifty Years After Gideon v Wainwright The year 2013 marks the golden anniversary of the U S Supreme Court's landmark ruling in Gideon v Wainwright 1963 which established a constitutional right to counsel for criminal defendants A half century later there remains a compelling need for a reexamination of its legacy extensions shortfalls and long shadow over other areas of law such as immigration and custody disputes This special Symposium issue of the Yale Law Journal is in effect a new and extensive book on this important subject featuring contributions by internationally recognized legal and political scholars It is one of the most thorough detailed and wide ranging analyses of the current standing and reach of what may be the Court's most important criminal law decision The contributors are Rebecca Aviel John H Blume Sheri Lynn Johnson Stephen B Bright Sia M Sanneh Paul D Butler Jeanne Charn Erwin Chemerinsky Gabriel J Chin Martha F Davis Ingrid V Eagly Roger A Fairfax Jr Bruce A Green M Clara Garcia Hernandez Carole J Powell Emily Hughes Kevin R Johnson Neal Kumar Katyal Nancy J King Nancy Leong Justin F Marceau Hope Metcalf Judith Resnik Pamela R Metzger David E Patton Eve Brensike Primus L Song Richardson Phillip Atiba Goff

Parental Alienation, DSM-5, and ICD-11 William Bernet, 2010 Parental alienation is an important phenomenon that mental health professionals should know about and thoroughly understand especially those who work with children adolescents divorced adults and adults whose parents divorced when they were children In this book the authors define parental alienation as a mental condition in which a child usually one whose parents are engaged in a high conflict divorce allies himself or herself strongly with one parent the preferred parent and rejects a relationship with the other parent the alienated parent without legitimate justification This process leads to a tragic outcome when the child and the alienated parent who previously had a loving and mutually satisfying relationship lose the nurture and joy of that relationship for many years and perhaps for their lifetimes We estimate that 1 percent of children and adolescents in the U S experience parental alienation When the phenomenon is properly recognized this condition is preventable and treatable in many instances The authors of this book believe that parental alienation is not simply a minor aberration in the life of a family but a serious mental condition Because of the false belief that the alienated parent is a dangerous or unworthy person the child loses one of the most important relationships in his or her life This book contains much information about the validity reliability and prevalence of parental alienation It also includes a comprehensive international bibliography regarding parental alienation with more than 600 citations In order to bring life to the definitions and the technical writing several short clinical vignettes have been included These vignettes are based on actual families and real events but have been modified to protect the privacy of both the parents and children
