## **Rethinking The Sociology Of Mental Health:**

*Rethinking the Sociology of Mental Health*, 2000      Rethinking the Sociology of Mental Health Joan Busfield, 2001-03-30

Rethinking the Sociology of Mental Health is a collection of original papers introducing new ways of thinking sociologically about the terrain of mental health. There are more general papers about mental health and mental health policy and papers about specific types of mental illness and particular policy issues such as dangerousness.      *Special Issue: Rethinking the Sociology of Mental Health* Joan Busfield, 2000      *Responding to Men in Crisis*,      The Age of Melancholy Dan G. Blazer, 2012-12-06

Depression has become the most frequently diagnosed chronic mental illness and is a disability encountered almost daily by mental health professionals of all trades. Major Depression is a medical disease which some would argue has reached epidemic proportions in contemporary society and it affects our bodies and brains just like any other disease. Why this book asks has the incidence of depression been on such an increase in the last 50 years if our basic biology hasn't changed as rapidly? To find answers Dr Blazer looks at the social forces, cultural and environmental upheavals and other external group factors that have undergone significant change. In so doing the author revives the tenets of social psychiatry: the process of looking at social trends, environmental factors and correlations among groups in efforts to understand psychiatric disorders.

**Making Sense of Everyday Life** Susie Scott, 2013-08-27

This accessible introductory text explains the importance of studying everyday life in the social sciences. Susie Scott examines such varied topics as leisure, eating and drinking, the idea of home and time and schedules in order to show how societies are created and reproduced by the apparently mundane micro-level practices of everyday life. Each chapter is organized around three main themes: rituals and routines, social order and challenging the taken-for-granted, with intriguing examples and illustrations. Theoretical approaches from ethnomethodology, Symbolic Interactionism and social psychology are introduced and applied to real-life situations and there is clear emphasis on empirical research findings throughout. Social order depends on individuals following norms and rules which are so familiar as to appear natural yet as Scott encourages the reader to discover these are always open to question and investigation. This user-friendly book will appeal to undergraduate students across the social sciences including the sociology of everyday life, the sociology of emotions, social psychology and cultural studies and will reveal the fascinating significance our everyday habits hold.

It puts forward a feminist critique of the prison, arguing that prisoner bodies are central to our understanding of modern punishment and particularly of women's survival and resistance during and after prison. Drawing on a feminist phenomenological framework informed by a serious engagement with scholars such as Maurice Merleau-Ponty, Simone de Beauvoir, Erwin Goffman, Michel Foucault, Sandra Lee Bartky and Tori Moi, Embodying Punishment revisits and expands the literature on the pains of imprisonment and offers an interdisciplinary examination of the embodiment and identities of prisoners and former prisoners, pressing the need for a body-aware approach to criminology and penology. The book develops this argument through a qualitative study with prisoners and former prisoners, discussing themes such as the perception of the prison through time, space, smells and sounds; the change of prisoner bodies; the presentation of self in and after prison, including the centrality of appearance and prison dress in the management of prisoner and ex-prisoner identities; and a range of coping strategies adopted during and after imprisonment, including prison food, drug misuse and a case study on women's self-injuring practices. Embodying Punishment brings to the fore and critically analyses longstanding and urgent problems surrounding women's multifaceted oppression through imprisonment, including matters of discriminatory and gendered treatment as well as issues around penal harm, and argues for an experientially grounded critique of punishment.

**Class Struggle on the Home Front** G. Cassano, 2009-11-27 Home Front examines the gendered exploitation of labor in the household from a postmodern Marxian perspective.
