Rethinking Ukrainian History

G Psacharopoulos

Rethinking Ukrainian History:

Rethinking Ukrainian History University of Alberta. Canadian Institute of Ukrainian Studies, 1981 *Ukrainian Historical Writing in North America during the Cold War* Volodymyr V. Kravchenko, 2022-12-13 This book is the first comprehensive survey of Ukrainian historical writing in North America during the Cold War The author describes the development of Ukrainian historical studies in Canada and the United States as an open sometimes difficult dialogue between the Ukrainian ethnic and academic communities on the one hand and between Ukrainian scholars and Western academic mainstream on the other He focuses on the institutional and the intellectual issues including various interpretations of major topics related to the Ukrainian national grand narrative considering them in the evolving academic and political contexts of Slavic East European and Soviet studies *A History of Ukraine* Paul Robert Magocsi, 2010-06-18 First published in 1996 A History of Ukraine quickly became the authoritative account of the evolution of Europe's second largest country In this fully revised and expanded second edition Paul Robert Magocsi examines recent developments in the country's history and uses new scholarship in order to expand our conception of the Ukrainian historical narrative New chapters deal with the Crimean Khanate in the sixteenth and seventeenth centuries and new research on the pre historic Trypillians the Italians of the Crimea and the Black Death the Karaites Ottoman and Crimean slavery Soviet era ethnic cleansing and the Orange Revolution is incorporated Magocsi has also thoroughly updated the many maps that appear throughout Maintaining his depiction of the multicultural reality of past and present Ukraine Magocsi has added new information on Ukraine's peoples and discusses Ukraine's diasporas Comprehensive innovative and geared towards teaching the second edition of A History of Ukraine is ideal for both teachers and students Kaleidoscopic Odessa Tanya Richardson, 2008-08-02 The recent tumult of Ukraine's Orange Revolution and its aftermath has exposed some of the deep political social and cultural divisions that run through the former Soviet republic Examining Odessa the Black Sea port that was once the Russian Empire's southern window onto Europe Kaleidoscopic Odessa provides an ethnographic portrait of these overlapping divisions in a city where many residents consider themselves separate and distinct from Ukraine Exploring the tensions between local and national identities in a post Soviet setting from the point of view of everyday life Tanya Richardson argues that Odessans's sense of distinctiveness is both unique and typical of borderland countries such as Ukraine Kaleidoscopic Odessa provides a detailed account of how local conceptions of imperial cosmopolitanism shaped the city's identity in a newly formed state Richardson draws on her participation in history lessons markets and walking groups to produce an exemplary study of urban ethnography Ethnographically sophisticated and methodologically innovative Kaleidoscopic Odessa will interest anthropologists Slavists sociologists historians and scholars of urban studies *Ukraine* Yaroslav Hrytsak, 2024-01-23 A pioneering and fundamental Timothy Snyder new history of Ukraine from one of its leading public intellectuals When Russia invaded Ukraine in 2022 the world witnessed the creative freewheeling darkly humorous and deeply resilient society that is

contemporary Ukraine In this timely and original history a bestseller in Ukraine the historian Yaroslav Hrytsak tells the sweeping story of his nation through a meticulous examination of the major events conflicts and developments that have shaped it over the course of centuries Hrytsak weaves a rich and detailed tapestry of a country in continual transformation Ukraine is essential reading for anyone who wants to better understand Ukraine s dramatic past and its global significance from the 17th century Cossack uprising to the collapse of the USSR in 1991 and Ukrainian independence and from the evolution of the Ukrainian language to the warning signs that anticipated Russia s 2022 invasion This book is the definitive story of Ukraine and its people as told by one of its most celebrated voices The "Russian" Civil Wars, 1916-1926 Jonathan Smele, 2016-01-15 This volume offers a comprehensive and original analysis and reconceptualisation of the compendium of struggles that wracked the collapsing Tsarist empire and the emergent USSR profoundly affecting the history of the twentieth century Indeed the reverberations of those decade long wars echo to the present day not despite but because of the collapse of the Soviet Union which re opened many old wounds from the Baltic to the Caucasus Contemporary memorialising and de memorialising of these wars therefore form part of the book s focus but at its heart lie the struggles between various Russian political and military forces which sought to inherit and preserve or even expand the territory of the tsars overlain with examinations of the attempts of many non Russian national and religious groups to divide the former empire The reasons why some of the latter were successful Poland and Finland for example while others Ukraine Georgia and the Muslim Basmachi were not are as much the author s concern as are explanations as to why the chief victors of the Russian Civil Wars were the Bolsheviks Tellingly the work begins and ends with battles in Central Asia a theatre of the Russian Civil Wars that was closer to Mumbai than it was to Moscow *Encyclopedia of Ukraine* Danylo Husar Struk, 1993-12-15 Over thirty years in the making the most comprehensive work in English on Ukraine is now complete its history people geography economy and cultural heritage both in Ukraine and in the diaspora *Historical Dictionary of Ukraine* Ivan Katchanovski, Zenon E. Kohut, Bohdan Y. Nebesio, Myroslav Yurkevich, 2013-07-11 Although present day Ukraine has only been in existence for something over two decades its recorded history reaches much further back for more than a thousand years to Kyivan Rus Over that time it has usually been under control of invaders like the Turks and Tatars or neighbors like Russia and Poland and indeed it was part of the Soviet Union until it gained its independence in 1991 Today it is drawn between its huge neighbor to the east and the European Union and is still struggling to choose its own path although it remains uncertain of which way to turn Nonetheless as one of the largest European states with considerable economic potential it is not a place that can be readily overlooked The problem is or at least was where to find information on this huge modern Ukraine and since 2005 the answer has been the Historical Dictionary of Ukraine in its first edition and now even more so with this second edition It now boasts a dictionary section of about 725 entries these covering the thousand years of history but particularly the recent past and focusing on significant persons places and events political

parties and institutions as well as more broadly international relations the economy society and culture The chronology permits readers to follow this history and the introduction is there to make sense of it It also features the most extensive and up to date bibliography of English language writing on Ukraine Encyclopedia of Ukraine Volodymyr Kubijovyc,1988-12-15 The appearance of Volume II of the Encyclopedia of Ukraine makes the second stage of a major publishing project Based on twenty five years research by more than 100 scholars from around the world the encyclopedia provides the most essential information about Ukraine and its people history geography economy and cultural heritage Volume II contains entries beginning with the letters G to K among them numerous biographies of historical figures and people currently living in and outside of Soviet Ukraine Included are some 600 illustrations maps and statistical tables The five volumes of the Encyclopedia of Ukraine will constitute a comprehensive guide to the life and culture of Ukrainians and reflect the manifold relations of Ukrainians with their neighbours and with their non Ukrainian environments in the various countries to which they immigrated

Nazi Empire-Building and the Holocaust in Ukraine Wendy Lower,2006-05-18 On 16 July 1941 Adolf Hitler convened top Nazi leaders at his headquarters in East Prussia to dictate how they would rule the newly occupied eastern territories Ukraine the jewel in the Nazi empire would become a German colony administered by Heinrich Himmler s SS and police Hermann Goring s economic plunderers and a host of other satraps Focusing on the Zhytomyr region and weaving together official German wartime records diaries memoirs and personal interviews Wendy Lower provides the most complete assessment available of German colonization and the Holocaust in Ukraine Midlevel managers Lower demonstrates played major roles in mass murder and locals willingly participated in violence and theft Lower puts names and faces to local perpetrators bystanders beneficiaries as well as resisters She argues that Nazi actions in the region evolved from imperial arrogance and ambition hatred of Jews Slavs and Communists careerism and pragmatism greed and fear In her analysis of the murderous implementation of Nazi race and population policy in Zhytomyr Lower shifts scholarly attention from Germany itself to the eastern outposts of the Reich where the regime truly revealed its core beliefs aims and practices Stalinism Nicholas Lampert,Gábor Tamás Rittersporn,1992 A collection of essays with contributors from Britain continental Europe and USA dealing with the character and aftermath of Stalinism in the USSR concentrating on the inter war years

Stanlinism Nick Lampert,2016-09-16 Although scholars have devoted much attention to the impact of technology on society they have tended to slight the question of how technology is affected by social systems The authors of this volume take precisely this approach in their examination of the Soviet model of development **Stalinism: Its Nature and Aftermath** Nick Lampert,Gabor T. Rittersporn,1992-01-20 This is a collection of essays with contributors from Britain Continental Europe and the USA dealing with the character and aftermath of Stalinism in the USSR The focus is on the interwar years and on the methodological problems of studying this period but the volume highlights also the links between Stalinism and the Tsarist past and the ways in which Stalinism in its very formation prepared the ground for its own demise

In this way it contributes to a historical understanding of the current upheavals in the Soviet Union *The Longman Companion to European Nationalism 1789-1920* Raymond Pearson, 2014-09-25 A highly topical analysis of European Nationalism from the French Revolution through to the aftermath of the First World War when the nationalist issues and problems that dominate the political landscape of our own time were already fully established Covering an enormous range of peoples from the Icelanders to the Gypsies from Brittany to Wallachia the book presents a wealth of historical geopolitical information unavailable elsewhere Essential as a reference work it also provides a unique opportunity to survey systematically a crucial but fragmented subject in its full European context For historians political scientists departments of European studies and general readers *Canadian Books in Print. Author and Title Index*, 1975 **Ukrainians and Jews in Revolutionary Times** Henry Abramson, 2018-02-23 After the fall of the Russian Empire Jewish and Ukrainian activists worked to overcome previous mutual antagonism by creating a Ministry of Jewish Affairs within the new Ukrainian state and taking other measures to satisfy the national aspirations of Jews and other non Ukrainians This bold experiment ended in terrible failure as anarchic violence swept the countryside amidst civil war and foreign intervention Pogromist attacks resulted in the worst massacres of Jews in Europe in almost three hundred years Some 40 percent of these pogroms were perpetrated by troops ostensibly loyal to the very government that was simultaneously extending unprecedented civil rights to the Jewish population Henry Abramson explores this paradox and sheds new light on the relationship between the various Ukrainian governments and the communal violence focusing especially on the role of Symon Petliura the Ukrainian leader later assassinated by a Jew claiming revenge for the pogroms A Prayer for the Government treats a crucial period of Ukrainian and Jewish history and is also a case study of ethnic violence in emerging political entities This revised edition contains a new Foreword and Afterword by the author **Laboratory of Modernity** Serhiy Bilenky, 2023-10-15 When the powers of Europe were at their prime present day Ukraine was divided between the Austrian and Russian empires each imposing different political social and cultural models on its subjects This inevitably led to great diversity in the lives of its inhabitants shaping modern Ukraine into the multiethnic country it is today Making innovative use of methods of social and cultural history gender studies literary theory and sociology Laboratory of Modernity explores the history of Ukraine throughout the long nineteenth century and offers a unique study of its pluralistic society culture and political scene Despite being subjected to different and conflicting power models during the nineteenth and early twentieth centuries Ukraine was not only imagined as a distinct entity with a unique culture and history but was also realized as a set of social and political institutions The story of modern Ukraine is geopolitically complex encompassing the historical narratives of several major communities including ethnic Ukrainians Poles Jews and Russians who for centuries lived side by side The first comprehensive study of nineteenth century Ukraine in English Laboratory of Modernity traces the historical origins of some of the most pressing issues facing Ukraine and the international community today *The Jews of Odessa* Steven J.

Zipperstein,1991-11 Founded in 1794 as a frontier city on the Black Sea Odessa soon grew to be one of Russia's busiest seaports. Settlers of all nationalities went there to seek their fortune among them Jews who came to form one of the largest wealthiest and most culturally fertile Jewish communities in Europe. This history of Jewish Odessa traces the rise of that community from its foundation in 1794 to the pogroms of 1881 that erupted after the assassination of Alexander II. Zipperstein emphasizes Jewish acculturation changes in behavior attitude and ideology as reflected in schools synagogues newspapers and other institutions of the period. The patterns set then affected the community's cultural development well into the second decade of the twentieth century. More a modern metropolis than any other Russian city with a significant Jewish population Odessa offers a window into the diversity of Russian Jewish experience. **Habsburg Lemberg**

Markian Prokopovych,2009 When Austria annexed Galicia during the first partition of Poland in 1772 the province's capital Lemberg was a decaying Baroque town. By the outbreak of the First World War in 1914 Lemberg had become a booming city with a modern urban and at the same time distinctly Habsburg flavor. In the process of the long nineteenth century both Lemberg's appearance and the use of public space changed remarkably. The city center was transformed into a showcase of modernity and a site of conflicting symbolic representations while other areas were left decrepit overcrowded and neglected. Habsburg Lemberg Architecture Public Space and Politics in the Galician Capital 1772-1914 reveals that behind a variety of national and positivist historical narratives of Lemberg and of its architecture there always existed a city that was labeled cosmopolitan yet provincial and a Vienna but still of the East. Buildings streets parks and monuments became part and parcel of a complex set of culturally driven politics. *Peasants with Promise*

Stella Hryniuk,1991-06-30 A socio cultural history of a region of Eastern Galicia in the last two decades of the nineteenth century
