Stressing that adult children should talk with aging relatives while they are healthy and vital, the book helps families remove psychological and practical barriers, identify all the information required to make good decisions, creating a framework for action, compile data, formulate discussion points, and set and achieve goals. Deal with reticent parents, advisors, distance barriers, and complex financial issues. Understand the financial and legal aspects of aging: what to do if your parents have money and what to do if they don't.
