Brode, 2019-12-12 Focusing on twenty first century Western films including all major releases since the turn of the century the essays in this volume cover a broad range of aesthetic and thematic aspects explored in these films including gender and race As diverse contributors focus on the individual subgenres of the traditional Western the gunfighter the Cavalry vs Native American conflict the role of women in Westerns etc they share an understanding of the twenty first century Western may be understood as a genre in itself They argue that the films discussed here reimagine certain aspects of the more conventional Western and often reverse the ideology contained within them while employing certain forms and clich s that have become synonymous internationally with Westerns The result is a contemporary sensibility that might be referred to as the postmodern Western The Masculine Century Michael Antony, 2008-05 Now that the Twentieth Century is behind us what made it what it was 200 million human beings killed by war totalitarianism and extermination programs What made the twentieth century the most murderous age in human history as well as the age that made the greatest advances ever in

science and technology while art and serious music declined into abstraction non communication and grotesque hoaxes blank canvases old urinals cans of excrement and concertos consisting of four minutes of silence This book argues that the century was marked by an over masculinization of the Western mind leading to autism and psychopathic aggression and the eclipse of the feminine expressive emotional empathetic side of human nature Hence the unprecedented culture of total war and genocide and the totalitarian projects to raze the human past and start again which Modernism carried out in the arts Hence also the masculinization of sexual behavior as romance gave way to pornography and marriage to promiscuity the adoption by women of a male work role the decline of motherhood and family and the collapse of Western birthrates This is all traced back to the rise of two aggressive ultra masculine ideologies in the nineteenth century Darwinism and Marxism which gave birth to Fascism and Feminism These ideologies put violence conflict and aggression at the heart of life and changed human mentalities This book examines these developments through the literature and art of the past hundred and fifty years and discusses their implications for the future of Western Civilization Penguin Classics Anonymous,2012-01-31 A Complete Annotated Listing More than 1 500 titles in print Authoritative introductions and notes by leading academics and contemporary authors Up to date translations from award winning translators Readers guides and other resources available online Penguin Classics on air online radio programs
