Ethics in Theory and Application Horatio Willis Dresser, 1925

The Lockean Theory of Rights A. John

Simmons, 2020-11-10 John Locke s political theory has been the subject of many detailed treatments by philosophers and political scientists But The Lockean Theory of Rights is the first systematic full length study of Locke s theory of rights and of its potential for making genuine contributions to contemporary debates about rights and their place in political philosophy Given that the rights of persons are the central moral concept at work in Locke s and Lockean political philosophy such a study is long overdue

The Ground of Professional Ethics Daryl Koehn, 2006-05-23 As each week brings more stories of doctors lawyers and other professionals abusing their powers while clients demand extra services as at a time of shrinking resources it is imperative that all practising professionals have an understanding of professional ethics In The Ground of Professional Ethics Daryl Koehn discusses the practical issues in depth such as the level of service clients can justifiably expect from professionals when service to a client may be legitimately terminated and circumstances in which client confidences can be broken She argues that while clients may legitimately expect professionals to promote their interests professionals are not morally bound to do whatever a client wants The Ground of Professional Ethics is important reading for all practising professionals as well as those who study or have an interest in the subject of professional ethics **Idea and**

Essence in the Philosophies of Hobbes and Spinoza Albert G. A. Balz, 1918 Examines the philosophy of Hobbes and Spinoza and argues that to endow these philosophers with a psychology based upon the conception of physical existence is to misrepresent their work It both indicates the resulting misrepresentations and points out the true character of their teachings **Complex Variables Theory and Application** , 1923 **Science and Social Progress** Herbert Wallace

Schneider, 1920 **Computerization and Controversy** Rob Kling, 1996-02-28 The Second Edition of Computerization and

Controversy Value Conflicts and Social Choices is a collection of 78 articles that examine the social aspects of computerization from a variety of perspectives many presenting important viewpoints not often discussed in the conventional literature A number of paired articles comprise thought provoking head on debate Fields represented include computer

science information systems management journalism psychology law library science and sociology This volume introduces some of the major controversies surrounding the computerization of society and helps readers recognize the social processes that drive and shape computerization Division into eight provocatively titled sections facilitates course planning for classroom or seminar use A lead article for each section frames the major controversies locates the selections within the debates and points to other relevant literature A fully revised and updated version of the first anthological treatment of the subject Organized to facilitate course planning for classroom or seminar use Provides coverage of the influence of computers on a wide variety of fields including computer science information systems management journalism psychology law library science and sociology Citation Classics from the Journal of Business Ethics Alex C. Michalos, Deborah C Poff, 2012-08-01 The Journal of Business Ethics was founded by Alex C Michalos and Deborah C Poff and published its first issue in March 1982 It is the most frequently cited business ethics journal in the world The Journal has always offered a multi disciplinary and international public forum for the discussion of issues concerning the interaction of successful business and moral virtue Its authors and readers are primarily scholars and students in social sciences and philosophy with special interests in the interaction of these disciplines with business or corporate responsibility Since the field of business ethics grew simultaneously with the growth of the Journal a collection of its most cited articles is tantamount to a collection of the articles that had the greatest influence in defining the field over its first 30 years of development In this anniversary volume an overview of citation classics from the Journal is presented the 33 most frequently cited articles are reproduced and brief reflections on the impact of the Journal on the field are given from over 100 scholars who authored citation classics and or distinguished papers as well as those who served on the Editorial Board and or are recognized as leaders in the field

Comparative Study of Professional Accountants Judgements Christopher Patel, Marc J. Epstein, 2006-04-21 Provides an empirical examination of cultural influences on judgments of professional accountants from Australia India and Malaysia in relation to a number of ethical issues in accounting including auditor client conflict resolution whistle blowing as an internal control mechanism and social desirability response bias *Psychology in Theory and Application* Horatio Willis Dresser, 1924 **Families** Susan K Pfeifer, Marvin B Sussman, 2014-06-17 This special volume is devoted to the synthesis and review of theoretical and conceptual approaches associated with familial and non familial connections across the life span An important book as society returns to the family it compares and contrasts different disciplinary perspectives associated with intergenerational relationships Because intergenerational relationships have been the focus of research in many disciplines various perspectives have emerged about kin and non kin connections Renewed interest in families and familial connections is due largely to events and situations occurring in complex modernized societies which place the intergenerational nexus on center stage The leading researchers represented in this outstanding book provide rare opportunity for the scholarly comparison of the various perspectives in the broader spectrum of family relations Families

Intergenerational and Generational Connecting is a significant addition to the body of research on family connections. The three major areas of generational and intergenerational connections include theoretical and conceptual perspectives, connections within the family and connections outside the family. As the use of families as support networks for individual members increases, this timely book will be an invaluable aid to educators, students, and researchers concerned about families and familial and non-familial relationships. Counselors and therapists will value this enlightening book with its diverse theoretical and conceptual perspectives on kinship, intergenerational solidarity, and relations, social supports, and cross-national perspectives on family connections. *Environmental Dilemmas* Robert Mugerauer, Lynne Manzo, 2008-01-01

Environmental Dilemmas focuses on the ethical problems and dilemmas that emerge in place-based professional practices—architecture, landscape architecture, planning, engineering, and construction management. Mugerauer and Manzo connect decision making to major ethical theories, principles, and rules, and professional codes of ethics. **A Theory of Mediators' Ethics** Omer Shapira, 2016-03-14

Many aspects relating to the conduct of mediation are left to mediator choice, but mediators often lack adequate guidance on how their discretion ought to be exercised. In this book, Omer Shapira identifies the ethical norms that govern mediators' conduct. Adopting a professional ethics perspective on the basis of role morality and applying it to a core definition of mediators' role, Shapira argues that all mediators are placed in ethical relationships with mediation parties, the mediation profession, the public, and their employers or principals that produce ethical obligations. The book goes on to explore the legitimate expectations of these groups and analyzes existing codes of conduct for mediators. Shapira constructs a theory of mediators' ethics that produces a proposed model code of conduct for mediators, a detailed set of norms of mediators' ethics that can be rationally justified and defended with regard to mediators at large. *Ethics in Real Estate* Stephen E. Roulac, 2013-04-17

ethics. Certainly, our industry is bound by the formal constraints of law in national, state, and local jurisdictions. What this volume reminds us, however, is that those laws are only as good as the personal sea of ethics in which each of us operates. **THE ETHICS OF PROPERTY INVOLVEMENTS** Stephen E. Roulac. The Roulac Group, San Rafael, California, and Visiting Professor, University of Ulster. Ethical considerations are a dominant theme in the management literature. As ethics and ethical issues surround our lives, ethics has become one of the most rapidly growing areas of management research, with over 800 articles and 1,400 books appearing since 1990. Schminke, Ambrose, and Miles, 1998. Compared to business and business management, however, the research and writing on real estate in an ethics context is in the very early stages of development. The lack of a developed literature on ethics in real estate is reflected in the response by one highly placed executive to my solicitation for funding to support the publication of this volume: I didn't know there were any ethics in real estate. Fortunately, the Summa Corporation and the American Real Estate Society believe in the importance of ethics in real estate, for their cosponsorship has made possible this special monograph on the subject of Ethics in Real Estate. The support of the Summa Corporation and the American Real Estate Society of this
