Library, 1973      Digital Literary Redlining Amy E. Earhart, 2025-06-24 Though canon concerns seem to be a relic of 1990s academia we are once again at a historical moment when there is resistance to teaching texts by writers of color and texts that deal with race ethnicity and gender At the same time algorithmic bias scholars are locating systemic bias encoded into systems from policing software to housing software Bringing these divergent areas together Amy E Earhart examines how technological and institutional infrastructures construct and deconstruct race ethnicity and gender identities Focusing on two central infrastructures the database a commonly used technological infrastructure in the digital humanities and the anthology a scholarly and pedagogical infrastructure Earhart considers how such seemingly naturalized infrastructures impact the representation and modeling of identity The book draws upon the building and use of DALA a collection of almost 100 years of generalist American and African American literature anthologies constructed to investigate questions of identity and representation in literary anthologies and by extension the larger literary canon The resulting examination and its rigorous discussion of how identities are created and recreated within Black literary histories has important implications for contemporary cultural and political debates about canon formation literary scholarship and the bias embedded in technological infrastructures      The Pen is Ours Jean Fagan Yellin, Cynthia D. Bond, 1991 This bibliography of writing by and about African American women provides a much needed research tool to scholars and researchers in the field The bibliography lists writing by African American women whose earliest publication appeared before 1910 a supplemental bibliography lists writing published as of 1911      *African-American Literature* Paul Q. Tilden, 2003 Having its origins in the slave narratives and the folktales transmitted orally during that period the literature of the African American has been rich and varied Beginning with the first published work of fiction *Clotel* Or the President's Daughter in 1853 continuing under the influence of W E B Du Bois during the first part of this century and reaching a flowering during the Harlem Renaissance major contributions have been made to American literature Today African American writers such as Toni Morrison Alex Haley and Maya Angelou are recognised as among the most significant and popular authors in this country This new book presents an important overview of African American literature as well as a comprehensive bibliography with easy access provided by title subject and author indexes      Richard Wright Kenneth Kinnamon, 2014-11-04 African American writer Richard Wright 1908 1960 was celebrated during

the early 1940s for his searing autobiography *Black Boy* and fiction *Native Son*. By 1947 he felt so unwelcome in his homeland that he exiled himself and his family in Paris. But his writings changed American culture forever and today they are mainstays of literature and composition classes. He and his works are also the subjects of numerous critical essays and commentaries by contemporary writers. This volume presents a comprehensive annotated bibliography of those essays, books, and articles from 1983 through 2003. Arranged alphabetically by author, within years are some 8,320 entries ranging from unpublished dissertations to book-length studies of African American literature and literary criticism. Also included as an appendix are addenda to the author's earlier bibliography covering the years from 1934 through 1982. This is the exhaustive reference for serious students of Richard Wright and his critics. The Dictionary Catalog of the Vivian G. Harsh Collection of Afro-American History and Literature, the Chicago Public Library, Chicago Public Library, 1978 **Human Rights**

**Rhetoric** Arabella Lyon, Lester C. Olson, 2013-09-13. Rhetoric scholars have articulated diverse approaches to both civil and human rights as political, ethical, and academic discourses. *Traditions of Testifying and Witnessing* initiates important interdisciplinary conversations within human rights rhetoric concerning the construction of rights knowledge, the role of advocacy, and politics of representations during acts of witnessing. Developing a conceptual framework for rhetorical inquiry into rights discourse, the collection of essays by established scholars demonstrates a range of approaches and subject matter. From textual analysis of AIDS politics and activism to theoretical discussions of the nature of rights rhetoric and confession, the book challenges many current assumptions about rights history and practices and still provides an introduction to the recent themes for classroom use. To encourage critical reflection on the assumptions, contentions, and implications of political representations and human rights, the editors have concluded the collection with a series of suggestive visual works without comment to prompt viewers' own engagement with them. This book was originally published as a special issue of *Rhetoric Society Quarterly*. Race, Rights and Reform Sarah C. Dunstan, 2021-02-18. Innovative new study mapping African American and Francophone black intellectual collaborations over human rights and citizenship from 1919 to 1963. *The Civil Rights Reader* Julie Buckner Armstrong, Amy Schmidt, 2009-01-01. This anthology of drama, essays, fiction, and poetry presents a thoughtful, classroom-tested selection of the best literature for learning about the long civil rights movement. Unique in its focus on creative writing, the volume also ranges beyond a familiar 1954-68 chronology to include works from the 1890s to the present. The civil rights movement was a complex, ongoing process of defining national values such as freedom, justice, and equality. In ways that historical documents cannot, these collected writings show how Americans negotiated this process politically, philosophically, emotionally, spiritually, and creatively. Gathered here are works by some of the most influential writers to engage issues of race and social justice in America, including James Baldwin, Flannery O'Connor, Amiri Baraka, and Nikki Giovanni. The volume begins with works from the post-Reconstruction period when racial segregation became legally sanctioned and institutionalized. This section, titled *The Rise of Jim Crow*, spans the period from

Frances E W Harper s Iola Leroy to Ralph Ellison s Invisible Man In the second section The Fall of Jim Crow Martin Luther King Jr s Letter from Birmingham Jail and a chapter from The Autobiography of Malcolm X appear alongside poems by Robert Hayden June Jordan and others who responded to these key figures and to the events of the time Reflections and Continuing Struggles the last section includes works by such current authors as Rita Dove Anthony Grooms and Patricia J Williams These diverse perspectives on the struggle for civil rights can promote the kinds of conversations that we as a nation still need to initiate

Marshall, 2013-03-11 In the 1890s Mississippi society still drew a sharp line between its African American and white communities by creating a repressive racial system that ensured white supremacy by legally segregating black residents and removing their basic citizenship and voting rights Over the ensuing decades white residents suppressed African Americans who dared defy that system with an array of violence terror and murder In 1960 students supporting civil rights moved into Mississippi and challenged this repressive racial order by encouraging African Americans to reassert the rights guaranteed under the Fourteenth and Fifteenth Amendments to the United States Constitution The ensuing social upheaval changed the state forever In Student Activism and Civil Rights in Mississippi James P Marshall a former civil rights activist tells the complete story of the quest for civil rights in Mississippi Using a voluminous array of sources as well as his own memories Marshall weaves together an astonishing account of student protestors and local activists who risked their lives for equality standing between southern resistance and federal inaction Their efforts and the horrific violence inflicted on them helped push many non southerners and the federal government into action culminating in the passage of the 1964 Civil Rights Act and the 1965 Voting Rights Act measures that destroyed legalized segregation and disfranchisement Ultimately Marshall contends student activism in Mississippi helped forge a consensus by reminding the American public of its forgotten promises and by educating the nation to the fact that African Americans in the South deserved to live as free and equal citizens     **Women's Rights in the United States** Tiffany K.
