Newton,2013-07-01 Important goals of mankind such as eliminating injustice and attaining a higher quality of life are achievable To achieve them however requires a will and a way God provides the will The focus of A Pen Named Man Our Destiny is to illustrate the way The route to social fulfillment is through the establishment of universal institutions designed to enable man to serve as God s representative on Earth and automatically satisfy his purpose in life Family is the most important institution of mankind It forms the nucleus of social living and fosters a deep sense of love and commitment among biologically related people who live together in an emotionally secure environment Religion ties human behavior to morality and serves as the pathway between an individual and his God Government establishes a standardized code of equality and fairness Where the goal of the institution of religion is a moral world the role of government is a just world Employment is the institution that opens the door to attaining one s purpose in life A restructured universal institution of employment provides every individual with the opportunity to contribute his time and resources toward the betterment of

mankind By working in an occupation that makes a product or provides a service useful to society a person is able to earn the necessities of life for himself attain psychological fulfillment and provide support to those who are physically or mentally unable to take care of themselves

*Morality and the Nature of Law* Kenneth Einar Himma, 2019-03-07 Morality and the Nature of Law explores the conceptual relationship between morality and the criteria that determine what counts as law in a given society the criteria of legal validity Is it necessary condition for a legal system to include moral criteria of legal validity Is it even possible for a legal system to have moral criteria of legal validity The book considers the views of natural law theorists ranging from Blackstone to Dworkin and rejects them arguing that it is not conceptually necessary that the criteria of legal validity include moral norms Further it rejects the exclusive positivist view arguing instead that it is conceptually possible for the criteria of validity to include moral norms In the process of considering such questions this book considers Raz's views concerning the nature of authority and Shapiro's views about the guidance function of law which have been thought to repudiate the conceptual possibility of moral criteria of legal validity The book then articulates a thought experiment that shows that it is possible for a legal system to have such criteria and concludes with a chapter that argues that any legal system like that of the United States which affords final authority over the content of the law to judges who are fallible with respect to the requirements of morality is a legal system with purely source based criteria of validity

**John Locke's Theology** Jonathan S. Marko, 2023 John Locke was one of history's greatest polymaths In addition to writing books on philosophy and political science he also wrote theological books His best known theological work is *The Reasonableness of Christianity* a book credited as being a window into the theological thoughts of John Locke Scholars have made arguments from the book about why Locke is partial to a particular sect or an admixture of a couple of them This book argues however that scholars have not recognized that Locke's book was not intended to be a promulgation of his personal theology but rather a program that most professed Christians could agree upon particularly in the areas of eternal salvation and divine revelation
