Merchant Marine and Fisheries, 1943      Allegheny National Forest (N.F.). Vegetation Management on Electric Utility Rights-of-way, 1997      Utility and Rights Raymond Gillespie Frey, 1984 Utility and Rights was first published in 1984 Minnesota Archive Editions uses digital technology to make long unavailable books once again accessible and are published unaltered from the original University of Minnesota Press editions At issue in the clash between utilitarianism and the theory of rights is a fundamental question about the theoretical underpinnings of moral and political philosophy Is this structure to be utility based grounded in the general welfare or is it to be based on individual moral and political rights as critics of utilitarianism increasingly insist The argument centers in part upon the fact that utilitarianism with its emphasis upon outcomes and total utility in the world seems to employ a value theory that offers no protection to persons and their vital interests The essays in this volume grapple with the main issues in this controversy They share a common concern with the nature of rights and the ways in which various moral theories can accommodate them some measure the degree to which utilitarianism can or cannot be modified to include rights Eight of the eleven essays were written expressly for this book all of the authors are deeply engaged in the debate over utility and rights and their essays build upon and extend current thinking on the subject R G Frey s lucid introduction will make the book appropriate for advanced students as well as for scholars in moral political and legal theory One ubiquitous criticism of utilitarianism is that it cannot make sense of moral rights at all This collection is the first that explicitly addresses these issues and it marks a major step in the debate Dale Jamieson University of Colorado R G Frey is senior lecturer in philosophy at the University of Liverpool He is the author of *Interests and Rights* and *Rights Killing and Suffering*      **Utility Ratepayer Refunds; Indian Fishing Rights; and United Nations Housing Benefits** United States. *Survivors' Benefits: A Comparative Analysis of EU Member States and Candidate Countries* Chiara Monticone, 2008 This report presents and compares old age income provision rules with respect to the issue of equality between women and men in the current and future EU member states The report focuses on 25 member states and to the extent possible on the recently acceded and candidate countries Romania Bulgaria Turkey and Croatia The report considers various aspects of the benefits ranging from entitlement rules to minimum pensions through to childcare credits and assistance for survivors Overall European countries adopt similar measures for ensuring adequate old age income for women The elimination of differentiated entitlement rules for standard and early retirement plays a key role in the reduction of the differences between men and women In particular this process means a faster increase in the minimum retirement age for women and different methods of encompassing childcare periods in the pension benefit formulas In the long run the higher employment rates of women and reduced wage disparities between men and women should lead to better individual pension rights for women especially in defined contribution schemes which have recently been introduced in some countries
