What's Wrong With Terrorism? Robert E. Goodin, 2013-04-23 Terrorists perform terrible acts They maim mutilate and kill in pursuit of their goals The horrifying events of 9 11 and the regular suicide bombings around the world have made terrorism one of the central preoccupations of the twenty first century But what is the distinctive wrong of terrorism Criminal acts such as murder and hijacking are already on the moral statute books so why is it that we regard terrorists as different from and morally worse than ordinary killers and kidnappers Some see terrorism as an ideology others claim it is a deep seated social or psychological failing others that it is a form of fighting unfairly judged by just war standards In this provocative new book Robert Goodin puts forward the view that terrorism is in fact a deliberate tactic of frightening people for socio political gain Fear affects peoples ability to reason clearly and undermines their capacity for autonomous self government In this way Goodin contends that terror is not only the weapon of organizations such as al Qaeda it also benefits democratic politicians who profit from the climate of insecurity induced by terrorist threats and violence Political figures conducting a campaign of fear as part of their war on terrorism may therefore be committing wrongs akin to those of terrorists themselves This Goodin argues is what is distinctively wrong with terrorism in the contemporary world

Refugee Law after 9/11 Obiora Chinedu Okafor, 2020-02-15 Common wisdom suggests that the 9 11 terrorist attacks changed everything about the character of refugee law in the United States and in neighbouring Canada But did they If so how do the responses of the two countries compare in terms of their negative impacts on refugee rights Refugee Law after 9 11 undertakes a systematic examination of available legal policy and empirical evidence to reveal a great irony refugee rights were already so whittled down in both countries before 9 11 that there was relatively little room for negative change after the attacks It also shows that the Canadian refugee law regime reacted to 9 11 in much the same way as its US counterpart and these similar reactions raise significant questions about security relativism and the cogency of Canadian and US national self image

The Moral Dimension of Asymmetrical Warfare Th.A. van Baarda, D.E.M. Verweij, 2009-06-30 During the Cold War an era in which the term asymmetric warfare was not well known the issue of the laws and ethics of war seemed simple enough to most soldiers being concerned mainly with leadership management and morale. Post Cold War reality revealed a very different set of challenges including a significantly wider moral dimension particularly when forces initially under UN leadership and later under the NATO flag were deployed in different parts of the turbulent Balkans. Military observers by now with legal advisers close by watched events in the Balkans, East Timor and then in central and West Africa with professional interest and some were involved there. A few years later soldiers were subsequently caught as much by surprise by the events of 9/11 a graphic example of asymmetric warfare as most of the rest of the world. The initial post 9/11 response in Afghanistan and Iraq brought the notion of the fragile or collapsed state and the blurring of the roles of military forces, international organisations, non governmental organisations, non state actors and indigenous administrators and their uniformed organisations and with them the moral dilemmas to much wider notice. More recent conflicts have indeed shown the need for commanders and soldiers in all types of conflict to have a much better understanding of the complex moral and legal environments and opened new debates about the principle of winning hearts and minds in counter insurgency and peace support operations. Moreover technological superiority by the West has also produced mixed benefits in the field of military operations and posed additional dilemmas many of them moral. The trend towards defining human rights and fundamental freedoms poses further questions for the soldier today. This collection of essays written by a wide variety of practising experts and scholars touches on all these issues. It links the medieval traditions of *jus in bello* codified by Saint Thomas Aquinas in the Christian Church nearly eight centuries ago to examination of modern challenges and moral dilemmas relating to the ethics and laws of conflict and crises of all types in the twenty first century and in a global context among people of many different faiths and beliefs and none. It is an important collection for all those researching or practically involved in conflict and post conflict situations. **Race, Ethnicity, and Crime** Dianne Williams, 2012 Melting pot or tossed salad the U S criminal justice system may prove to be fueling intolerance rather than enabling society to accommodate racial and ethnic differences.
