Scott, 2016-03-23 The study of the business of opera has taken on new importance in the present harsh economic climate for the arts This book presents research that sheds new light on a range of aspects concerning marketing audience development promotion arts administration and economic issues that beset professionals working in the opera world The editors aim has been to assemble a coherent collection of essays that engage with a single theme business but differ in topic and critical perspective The collection is distinguished by its concern with the business of opera here and now in a globalized market This includes newly commissioned operas sponsorship state funding and production and marketing of historic operas in the twenty first century     *Richard Wagner* ,     **Robert Lepage / Ex Machina** James Reynolds, 2019-02-07 Robert Lepage *Ex Machina* *Revolutions in Theatrical Space* provides an ideal introduction to one of our most innovative companies and a much needed and timely reappraisal of Lepage's oeuvre International interdisciplinary and intercultural to the core *Ex Machina* have negotiated some of the most complex creative and cultural challenges of our time This book maps the story of that journey by analysing the full spectrum of their richly varied work Through a comprehensive historiography of productions since 1994 Robert Lepage *Ex Machina* offers a detailed picture of the relationship between director and company while connecting *Ex Machina* to culturally specific features of Quebec and its theatre This book reveals for the first time how overlooked aspects of creativity and culture shaped the company's early work while installing a dynamic interplay between director and company that would spark a unique and ongoing evolution of praxis Central to this re-evaluation of practice is the book's identification of an architectural aesthetic at the

heart of Ex Machina's work an aesthetic which provides its artistic and political centres of gravity Moreover this architectural aesthetic powers the emergence of concrete narrative as a new and distinctive mode of theatrical storytelling uniting story and space body and technology content and form and demanding that we discover the politics of these performances in the energetic gestures of theatre design and space itself Drawing on extensive interviews with Lepage Ex Machina personnel and collaborative partners Robert Lepage Ex Machina calls upon us to revise both our creative and critical perceptions of this vital and distinctive practice

Albacan, 2016-09-23 Robert Lepage has imposed himself in the past three decades as a Wunderkind of contemporary theatre with eagerly awaited and widely acclaimed productions at the most prestigious theatre festivals and venues around the world Soon after his international breakthrough with The Dragon's Trilogy 1984 Lepage's work became an object of particular scrutiny for critics and scholars and continues to be subject to media exposure inspiring cultural critique academic study and the admiration of audiences across the world A recurrent fascination with the formal novelty of his theatrical approach imbues most if not all critical considerations However in spite of the wide interest provoked little space has been devoted to the quintessential

impact of his work on spectatorship and most importantly to connecting the dots between his creative practice and its substantial impact on audiences Intermediality and Spectatorship in the Theatre Work of Robert Lepage bridges this gap by exploring the notion that intermediality observed both as a *mise en scene* strategy and a perceptual effect in performance is situated at the core of the director's approach This approach is situated in direct relation to the evolving expectations and medial competencies of spectators demonstrating an in depth understanding of the ways in which different media can be engaged in the creative process in a holistic way in order to alter the regime of spectatorship to enhance its creative and cognitive potential Lepage's work and theatre making process are analysed here from an interdisciplinary perspective that combines theatre media and cultural studies and which is applied to his solo shows namely *Vinci* 1986 *Needles and Opium* 1991 *Elsinore* 1995 *Far Side of the Moon* 2000 and *Project Andersen* 2005 In bringing to the forefront interconnecting notions of intermediality and contemporary spectatorship the book highlights the director's preoccupation with an ongoing dialogue with audiences across the world and their particular involvement in the development of one of the most innovative practices of the Western theatre landscape Annals of the Metropolitan Opera Gerald Fitzgerald, 2016-06-11 **The History of Classical Music** Stuart A.
