Discussing Chemistry and Steam Trevor Harvey Levere, Gerard L'Estrange Turner, Jan Golinski, Larry R. Stewart, 2002 This book contains an edition of the Minutes of the Coffee House Philosophical Society 1780-1787 as transcribed by William Nicholson the secretary to the society The 1780s were exciting years for science and for its applications and experimental philosophy and industrial development were closely interwoven This coffee house society provided a group of natural philosophers with the opportunity to discuss the topics that most interested them The minutes themselves unique in their completeness constitute a continuous record of the fortnightly meetings of a group of leading natural philosophers instrument makers physicians and industrialist entrepreneurs They are an important resource for historians of politics and society including the industrial revolution as well as for historians of science and technology In addition to a fully edited edition of the Minute book and brief biographies of all the members the book includes essays by Jan Golinski on the members discussion about phlogiston and other issues relating to the chemical revolution and by Larry Stewart on the reforming radical and industrial contexts of the networks to which the members belonged One of the standard criticisms of English science in the late eighteenth century is its isolation from the rest of Europe These minutes offer a very different picture The members the Irish chemist Richard Kirwan taking the most active role discussed current issues in science and reported on scientific and industrial advances from all Europe and even from

Tague,2015-06-17 Animal Companions explores how eighteenth century British society perceived pets and the ways in which conversation about them reflected and shaped broader cultural debates While Europeans kept pets long before the eighteenth century many believed that doing so was at best frivolous and at worst downright dangerous Ingrid Tague argues that for Britons of the eighteenth century pets offered a unique way to articulate what it meant to be human and what society ought to look like With the dawn of the Enlightenment and the end of the Malthusian cycle of dearth and famine that marked previous eras England became the wealthiest nation in Europe with a new understanding of religion science and non European cultures and unprecedented access to consumer goods of all kinds These transformations generated excitement and anxiety that were reflected in debates over the rights and wrongs of human animal relationships Drawing on a broad array of sources including natural histories periodicals visual and material culture and the testimony of pet owners themselves Animal Companions shows how pets became both increasingly visible indicators of spreading prosperity and catalysts for debates about the morality of the radically different society emerging in eighteenth century Britain **Cultural Work of Empire** Carol Watts,2007-06-05 This book argues that the Seven Years War 1756-63 produced an intense historical consciousness within British cultural life regarding the boundaries of belonging to community

family and nation Global warfare prompts a radical re imagining of the state and the subjectivities of those who inhabit it Laurence Sterne s distinctive writing provides a remarkable route through the transformations of mid eighteenth century British culture The risks of war generate unexpected freedoms and crises in the making of domestic imperial subjects which will continue to reverberate in anti slavery struggles and colonial conflict from America to India The book concentrates on the period from the 1750s to the 1770s It explores the work of Johnson Goldsmith Walpole Burke Scott Wheatley Sancho Smollett Rousseau Collier Smith and Wollstonecraft alongside Sterne s narratives It incorporates debates among moral philosophers and philanthropists examines political tracts poetry and grammar exercises and paintings by Kauffman Hayman and Wright of Derby tracking the investments in and resistances to the cultural work of empire Key Features Topical in its focus on the making of modern subjectivity during the first global war Path breaking in advancing our understanding of the cultural history of eighteenth century Britain Timely in its combination of new historical research with a critical engagement with debates in postcolonial and subaltern studies Original in its account of the literature of the Seven Years War and its outstanding analysis of the writing of Laurence Sterne
