Inscribing the Time Eric S. Mallin, 2023-11-15 Combining the resources of new historicism feminism and postmodern textual analysis Eric Mallin reveals how contemporary pressures left their marks on three Shakespeare plays written at the end of Elizabeth's reign *Close attention to the language of Troilus and Cressida Hamlet and Twelfth Night reveals the ways the plays echo the events and anxieties that accompanied the beginning of the seventeenth century Troilus reflects the rebellion of the Earl of Essex and the failure of the courtly chivalric style Hamlet resonates with the danger of the bubonic plague and the difficult succession history of James I Twelfth Night is imbued with nostalgia for an earlier period of Elizabeth's rule when her control over religious and erotic affairs seemed more secure This title is part of UC Press's Voices Revived program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1995* *A Child at Heart* Christopher Phillips, 2018-03-13 Weaving together philosophy social science and neuroscience research personal anecdotes and dialogues *A Child at Heart* takes a radically different approach to the traditional boundaries between childhood and adulthood to reveal how rather than lapse into adulthood we can achieve what the Greeks of old call arete all around excellence when we look to children and youth as a lodestar for our development Childhood is our primary launching pad a time of life when learning is more intense than at any other when we gain the critical knowledge and skills that can help ensure that we remain adaptable This book weaves together the thinking of philosophers from across the ages who make the unsettling assertion that with the passage of time we are apt to shrink mentally emotionally and cognitively If we follow what has become an all too common course we denature our original nature which brims with curiosity empathy reason wonder and a will to experiment and understand and we regress our sense of who we are will become fuzzier and everyone in our orbit will pay a price Mounting evidence shows that we begin our lives with a moral intellectual and creative bang and in this groundbreaking heavily researched and highly engaging volume Christopher Phillips makes the provocative case that childhood isn't merely a state of becoming while adulthood is one of being as if we've arrived and reached the summit His life changing proposition is that if we embrace the defining qualities of youth we're not destined to become frail dispirited or unhinged we'll grow in a way defined by wonder curiosity imaginativeness playfulness and compassion in essence unlimited potential
