Rise And Fall Of The Taliban:

The Taliban and the Crisis of Afghanistan Robert D. Crews, Amin Tarzi, 2009-06-30 This book explores how has a seemingly anachronistic band of religious zealots managed to retain a tenacious foothold in the struggle for Afghanistan's future. It investigates questions relating to the character of the Taliban, its evolution over time and its capacity to affect the future of the region. Dust jacket

The Rise and Fall of the Taliban Kelly Barth, 2005 Afghanistan has a long history of power shifts and civil unrest. The Taliban, a fundamentalist Islamic group, was simply another in a series of individuals and organizations who attempted to rule this war-torn country. This anthology details the conditions that gave rise to the Taliban. It also covers the conditions of the Afghani people under Taliban rule and the U.S. led war meant to oust them from power following the September 11, 2001 terrorist attacks.

The Rise and Decline of the Insurgency in Pakistan's FATA Shahzad Akhtar, 2022-12-16 This book analyzes the emergence, rise and decline of insurgency by the Pakistani Taliban in Pakistan's North Western region, also known as Federally Administered Tribal Areas (FATA). It provides a detailed account of the rise and decline of the FATA insurgency and also examines the after-effects of the insurgency. Offering an in-depth analysis of how insurgency in the FATA began in 2004 after Pakistan entered its military forces into the tribal areas, the author illustrates that the insurgency erupted when state repression on masses is combined with a disruption of the previous modus vivendi centered on co-optation of local elites. In the following years, the insurgency became so powerful that most of the FATA region fell under the control of the insurgents. The book further argues that a weak counterinsurgency strategy by the Pakistani government, characterized by the overzealous use of force and a failure to win the support of local communities, led the insurgency to become stronger and expand its control. Furthermore, the analysis reveals that a more robust counterinsurgency strategy, relying more on a determined and a judicious use of force and attempts to gain the trust and support of local communities adopted in the later years, led to the collapse of the insurgency. In short, this book offers an explanation of what makes an insurgency more likely to occur and how insurgency escalates and declines. In addition, this book sheds light on recent development in FATA, including the merger of FATA with the mainstream Pakistan, the rise of the Pashtun Tahafuz Movement, a non-violent protest movement, and the resurgence of the Pakistani Taliban, especially after the Afghan Taliban capture of Kabul in the wake of US withdrawal of forces in Afghanistan. This book is a timely addition to the literature on South Asian Politics and Security Studies.

The Rise and Fall of Nations: Forces of Change in the Post-Crisis World Ruchir Sharma, 2016-06-06 International Bestseller Quite simply the best guide to the global economy today. Fareed Zakaria. Shaped by his twenty-five years traveling the world and enlivened by encounters with villagers from Rio to Beijing, tycoons and presidents, Ruchir Sharma's *The Rise and Fall of Nations* rethinks the dismal science of economics as a practical art. Narrowing the thousands of factors that can shape a country's fortunes to ten clear rules, Sharma explains how to spot political, economic and social changes in real time. He shows how to read political headlines, black markets, the

price of onions and billionaire rankings as signals of booms busts and protests Set in a post crisis age that has turned the world upside down replacing fast growth with slow growth and political calm with revolt Sharma s pioneering book is an entertaining field guide to understanding change in this era or any era The Rise and Decline of the American "Empire" Geir Lundestad,2012-03-08 The Rise and Decline of the American Empire explores the rapidly growing literature on the rise and fall of the United States The author argues that after 1945 the US has definitely been the most dominant power the world has seen and that it has successfully met the challenges from first the Soviet Union and then Japan and the European Union Now however the United States is in decline its vast military power is being challenged by asymmetrical wars its economic growth is slow and its debt is rising rapidly the political system is proving unable to meet these challenges in a satisfactory way While the US is still likely to remain the world s leading power for the foreseeable future it is being challenged by China particularly economically and also by several other regional Great Powers The book also addresses the more theoretical question of what recent superpowers have been able to achieve and what they have not achieved How could the United States be both the dominant power and at the same time suffer significant defeats And how could the Soviet Union suddenly collapse No power has ever been omnipotent It cannot control events all around the world The Soviet Union suffered from imperial overstretch the traditional colonial empires suffered from a growing lack of legitimacy at the international national and local levels The United States has been able to maintain its alliance system but only in a much reformed way If a small power simply insists on pursuing its own very different policies there is normally little the United States and other Great Powers will do Military intervention is an option that can be used only rarely and most often with strikingly limited results **The Rise, Fall, and the Resurgence of the Taliban** Happymon Jacob,2005 The Taliban Were God Like Figures For War Torn Country S War Weary People They Promised To Rid The Country Of Anarchy Law Lessness And Disintegration And Thus Earned The Support Of Afghans The Taliban Were Defeated Or So We Were Told By The Americans When The Frankenstein Came Back To Haunt Them The Taliban Were Consigned To The Dustbin Of History Or So We Thought When Hamid Karzai Was Anointed As The Newest Ruler In Kabul However If Lessons Of History Canons Of Geo Strategy And Reports From Afghanistan Are Anything To Go By Taliban Were Not Done Away With Not By Default But By Design The Author Rejects The Widely Believed Argument That The Taliban Movement Has Been Defeated Once And For All

Immerman,2015-12-18 Understanding the United States wars in Iraq and Afghanistan is essential to understanding the United States in the first decade of the new millennium and beyond These wars were pivotal to American foreign policy and international relations They raised critical ethical and legal questions they provoked debates over policy strategy and war planning they helped to shape American domestic politics And they highlighted a profound division among the American people While more than two million Americans served in Iraq and Afghanistan the vast majority of American and their families remained untouched by and frequently barely aware of the wars conducted in their name far from American shores in regions about which they knew little Understanding the U S Wars in Iraq and Afghanistan gives us the first book length expert historical analysis of these wars It examines the lessons and legacies of wars whose outcomes may not be clear for decades Back cover **Jihad & Co.** Aisha Ahmad,2017-08-04 For two decades militant jihadism has been one of the world s most pressing security crises In civil wars and insurgencies across the Muslim world certain Islamist groups have taken advantage of the anarchy to establish political control over a broad range of territories and communities In effect they have built radical new jihadist proto states Why have some ideologically inspired Islamists been able to build state like polities out of civil war stalemate while many other armed groups have failed to gain similar traction What makes jihadists win In Jihad Co Aisha Ahmad argues that there are concrete economic reasons behind

Islamist success By tracking the economic activities of jihadist groups in Afghanistan Somalia Pakistan Mali and Iraq she uncovers an unlikely actor in bringing Islamist groups to power the local business community To illuminate the nexus between business and Islamist interests in civil war Ahmad journeys into war torn bazaars to meet with both jihadists and the smugglers who financed their rise to power From the arms markets in the Pakistani border region to the street markets of Mogadishu their stories reveal a powerful economic logic behind the rise of Islamist power in civil wars Behind the fiery rhetoric and impassioned ideological claims is the cold hard cash of the local war economy Moving readers back and forth between mosques marketplaces and battlefields Ahmad makes a powerful argument that economic savvy as much as ideological fervor explains the rise of militant jihadism across the modern Muslim world Insecurity Communities of South Asia and the Middle East Majid Sharifi, 2020-11-10 This book critically examines how US foreign policy has produced a regional regime of instability and insecurity in South Asia and the Middle East It focuses on three interconnected zones of conflict Afghanistan and Pakistan in South Asia Iran and the Persian Gulf states and Iraq and its neighbours In a comprehensive historical survey this work compares the governing behaviour of these states with that of the West where the American foreign policy establishment has in contrast pushed for investing in collective security The author studies various events throughout history such as the Taliban regime the US led war in Afghanistan the Obama administration and Pakistan the first and second Gulf wars the Arab Spring and the rise of ISIS to present a theoretical analysis of Washington's consistent pursuit of multibalancing and regime change wars in the region An important critical assessment of Western foreign policies this book will be indispensable for students and researchers of US foreign policy defense and security studies strategic affairs politics and international relations political economy nation state building identity studies globalization studies Middle East studies and South Asian studies The Pashtun Question Abubakar Siddique, 2014-06-15 Most contemporary journalistic and scholarly accounts of the instability gripping Afghanistan and Pakistan have argued that violent Islamic extremism including support for the Taliban and related groups is either rooted in Pashtun history and culture or finds willing hosts among their communities on both sides of the Afghanistan Pakistan border Abubakar Siddique sets out to demonstrate that the failure or even unwillingness of both Afghanistan and Pakistan to absorb the Pashtuns into their state structures and to incorporate them into the economic and political fabric is central to these dynamics and a critical failure of nation and state building in both states In his book he argues that religious extremism is the product of these critical failures and that responsibility for the situation lies to some degree with the elites of both countries Partly an eye witness account and partly meticulously researched scholarship The Pashtun Question describes a people whose destiny will shape the future of Pakistan and Afghanistan **Afghanistan Labor Policy, Laws and Regulations Handbook: Strategic Information and Regulations** IBP, Inc., 2017-07 Afghanistan Labor Laws and Regulations Handbook Strategic Information and Basic Laws **Pain Control and Drug Policy** Guy B. Faguet M.D., 2010-04-15 This book offers an indictment of the nation's

drug enforcement approach focusing on the short sighted policies that often deny patients suffering from chronic pain the medications they need Pain Control and Drug Policy A Time for Change focuses on America s national crisis in pain management caused by the widening divergence between the enormous contributions of opioids narcotics to pain management in the clinical setting and the mistaken belief that they are dangerous highly addictive drugs After dissecting the strategy and tactics of the War on Drugs from medical historical legal socioeconomic and geopolitical perspectives Guy Faguet MD indicts the 40 year long War on Drugs for having failed to stem the supply of illicit drugs in America despite expenditures of half a trillion dollars despite violating the basic human right to pain relief of tens of millions of American chronic pain sufferers and despite fomenting organized crime government corruption racial injustice and social disruption in both the United States and the producer countries He concludes with a clarion call for the abandonment of the War on Drugs disbanding the Drug Enforcement Administration and encouraging Congress to repeal the Controlled Substances Act As a clinical and research oncologist responsible for the chronic pain management of thousands of cancer patients over the course of his 30 year career Dr Faguet knows that the most effective and safest way to manage most cases of chronic pain is with opioids All modern pain management textbooks advocate titration to effect in cases where opioids help that is gradually increasing the dosage until either the pain is acceptably controlled or the side effects begin to outweigh the pain relief benefits Yet the vast majority of doctors don t practice what the medical textbooks teach and instead prescribe opioids very reluctantly and conservatively As a result only half of all chronic pain sufferers and fewer than half of all cancer patients get adequate pain relief from their doctors Why do physicians radically undertreat pain that is susceptible to opioid analgesics They fear that if they prescribe Schedule II opioids in accordance with the professional standards of pain management set by such medical bodies as the American Pain Society they will be investigated by the DEA stigmatized prosecuted as criminals stripped of their licenses and sent to jail Visit Guy B Faguet MD s website here www.faguet.net

Propaganda, Communication and Empire Sumanth Inukonda, Oliver Boyd-Barrett, Lara Martin Lengel, 2025-04-22 This volume interrogates the mediatized politics of western intervention in Afghanistan to gain a deeper understanding of the occupation within the broader transition toward a multipolar global order Accurate histories of western interventions and regional realities are often obscured or even eclipsed in the accounts of western mainstream media which if anything tend to rue the withdrawals and lionize the suffering of returning troops This volume investigates the state s role in the dark underbelly of the shortsighted interventionist media narrative as well as the dehumanizing portrayals of people living in the Afghanistan Pakistan region In its opening section the book critically evaluates the narrative of the Global War on Terror as well as the wars launched after 9 11 that destabilized the Middle East The chapters in the following section contextualize developments in Afghanistan with a historical framework that will problematize linear narratives that are mobilized in support of interventions The chapters in the final section re present specific aspects of the geopolitical and humanitarian consequences

that have eluded mainstream media workers including journalists and Hollywood moviemakers This book will be of interest to students of propaganda studies media and communication studies US foreign policy and international relations

Afghanistan Immigration Policy, Laws and Regulations Handbook: Strategic Information and Regulations IBP, Inc.,2017-07 Afghanistan Immigration Laws and Regulations Handbook Strategic Information and Basic Laws **Falling Terrorism and Rising Conflicts** Hooman Peimani,2003-09-30 The Taliban s fall and the massive American military and political presence in South and West Asia have created grounds for a polarization into two camps India Iran and Russia to which China is affiliated and the United States and Pakistan In Peimani s analysis their incompatible interests will push them towards confrontations with regional and international implications Contrary to expectations the fall of the Taliban did not bring peace and stability to Afghanistan The Afghan interim government is simply too weak to act as a central government this results in the re emergence of warlords turf wars and the expansion of drug trafficking This unstable situation may well result in the emergence of Taliban like groups Added to this the threat of the spillover of instability from Afghanistan into neighboring regions on the one hand and the rapid expansion of American military and political power in Central Asia the Caucasus the Persian Gulf Afghanistan and Pakistan on the other have created fear among the regional powers The stated indefinite stay of American forces well after the end of the anti terrorist war in Afghanistan has worsened that fear as it reflected the American government s plan to pursue certain strategic interests unrelated to that war Consequently as Peimani shows the regional anti terrorist coalition has disintegrated in the absence of a common objective to help focus the region Fear of the long term American objectives and those of its Pakistani ally in South and West Asia incompatible with those of the regional powers have facilitated the creation of two camps consisting of Iran India and Russia to which China is affiliated and Pakistan and the United States Respectively these implicit and explicit camps are likely to collide over their regional interests especially in the strategically important energy producing Persian Gulf and Caspian Sea regions
