Rise Of Modern Asia:

The Rise of Modern Asia, 1957 *The Rise of Modern Asia* Ian Thomson, 1957 **Makers of Modern Asia**

Ramachandra Guha, 2014-08-29 The twenty first century has been dubbed the Asian Century Highlighting diverse thinker politicians rather than billionaire businessmen Makers of Modern Asia presents eleven leaders who theorized and organized anticolonial movements strategized and directed military campaigns and designed and implemented political systems

Jewish Communities in Modern Asia Rotem Kowner, 2023-06-15 A pioneering exploration of the Jewish communities across the Asian continent and their dramatic rise and fall in modern times **The Rise of Modern Asia. [With Plates, Including Portraits, Maps and a Bibliography].** George Ian Falconer Thomson, 1957 **Migration and Diaspora in Modern Asia** Sunil S. Amrith, 2011-03-07 Migration is at the heart of Asian history For centuries migrants have tracked the routes and seas of their ancestors merchants pilgrims soldiers and sailors along the Silk Road and across the Indian Ocean and the China Sea Over the last 150 years however migration within Asia and beyond has been greater than at any other time in history Sunil S Amrith's engaging and deeply informative book crosses a vast terrain from the Middle East to India and China tracing the history of modern migration Animated by the voices of Asian migrants it tells the stories of those forced to flee from war and revolution and those who left their homes and their families in search of a better life These stories of Asian diasporas can be joyful or poignant but they all speak of an engagement with new landscapes and new peoples The Rise of Asia Frank B. Tipton, 1998-05-01 For many years Japan was seen as the peculiar exception in Asia a highly dynamic economy isolated in an otherwise moribund continent With the rise of the Southeast Asian and Chinese economies however it has now become clear that Asia as a whole is experiencing an extraordinary revolution which will result within a very few years in living standards for some countries being on a par with those in the West The results of this transformation can only be guessed at but The Rise of Asia adds a far greater sophistication to our understanding of how this process came about treating the key areas of Asian life economics society and politics as an integrated whole and avoiding the trap of most commentators who see the phenomenon as an exclusively postwar economic issue Balancing the uniquely Asian aspects with global developmental factors Dr Tipton creates a convincing picture of how this amazing change has occurred **Contemporary Asia** John McKay, 2024-11-14 For the first time in the modern era Asia is not dominated by an outside power Is this the Asian Century Will internal rivalries emerge between China Japan and India How will growing tensions between the United States and China shape the global economic strategic and political system Covering governance culture and society in East and South Asia this book introduces Key economic developments including the Asian economic miracle and the 1997-8 Financial Crisis The central role of education and the contentious debate about Asian values The rapid expansion of military spending in the region The demography and geography of major nations and their forms of nationalism With further reading suggestions and discussion questions for every chapter this is essential introductory

reading for students of Asian Studies and interested general readers alike **Power Transition in Asia** David Walton, Emilian Kavalski, 2016-08-12 Current preoccupations with the rise of Asia attest to the nascent contestation of the very idea of what the pattern of international politics should look like and how it should be practiced In this respect the growing reference to a shift to the East in global politics has become a popular shorthand for the nascent power transition in world affairs This volume offers a detailed conceptual and empirical investigation of the dynamics of power transition in Asia and details the accommodation strategies and coping mechanisms of different small and middle powers in Asia and importantly China's responses to these approaches Recueil Des Cours 1961 Academie De Droit International De La Ha, 1968-12-01 The Academy is a prestigious international institution for the study and teaching of Public and Private International Law and related subjects The work of the Hague Academy receives the support and recognition of the UN Its purpose is to encourage a thorough and impartial examination of the problems arising from international relations in the field of law The courses deal with the theoretical and practical aspects of the subject including legislation and case law All courses at the Academy are in principle published in the language in which they were delivered in the Collected Courses of the Hague Academy of International Law **Max Weber** Peter Hamilton, 1991 Crossroads and Cultures, Combined Volume Bonnie G. Smith, Marc Van De Mierop, Richard von Glahn, 2012-01-30 Crossroads and Cultures A History of the World's Peoples incorporates the best current cultural history into a fresh and original narrative that connects global patterns of development with life on the ground As the title Crossroads suggests this new synthesis highlights the places and times where people exchanged goods and commodities shared innovations and ideas waged war and spread disease and in doing so joined their lives to the broad sweep of global history Students benefit from a strong pedagogical design abundant maps and images and special features that heighten the narrative's attention to the lives and voices of the world's peoples Test drive a chapter today Find out how **Prospects for Monetary Cooperation and Integration in East Asia** Ulrich Volz, 2010 East Asian countries were notably uninterested in regional monetary integration until the late 1990's when the Asian financial crisis revealed the fragility of the region's exchange rate arrangements and highlighted the need for a stronger regional financial architecture Since then the countries of East Asia have begun taking steps to explore monetary and financial cooperation establishing such initiatives as regular consultations among finance ministers and central bank governors and the pooling of foreign exchange reserves In this book Ulrich Volz investigates the prospects for monetary cooperation and integration in East Asia using state of the art theoretical and empirical tools to analyze the most promising policy options Sinicization and the Rise of China Peter J. Katzenstein, 2013-03-01 China's rise and processes of Sinicization suggest that recombination of new and old elements rather than a total rupture with or return to the past is China's likely future In both space and time civilizational politics offers the broadest social context It is of particular salience in China Reification of civilizations into simple categories such as East and West is widespread in everyday politics and

common in policy and academic writings This book's emphasis on Sinicization as a specific instance of civilizational processes counters political and intellectual shortcuts and corrects the mistakes to which they often lead Sinicization illustrates that like other civilizations China has always been open to variegated social and political processes that have brought together many different kinds of peoples adhering to very different kinds of practices This book tries to avoid the reifications and celebrations that mark much of the contemporary public debate about China's rise It highlights instead complex processes and political practices bridging East and West that avoid easy shortcuts The analytical perspectives of this book are laid out in Katzenstein's opening and concluding chapters They are explored in six outstanding case studies written by widely known authors which cover questions of security political economy and culture Featuring an exceptional line up and representing a diversity of theoretical views within one integrative perspective this work will be of interest to all scholars and students of international relations sociology and political science Chapter 7 of this book is freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com> under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 license

Men of Money Lynn Horton, 2022-04-26 In this book sociologist Lynn Horton explores how the most dynamic sectors of the global economy finance and technology are shaping new forms of elite masculinity She offers fresh insights into the often overlooked links between economic inequalities and the identity politics of gender and race Through analysis of the lives and discourse of ultra visible male billionaires Horton examines how extreme accumulations of wealth are both imbued with gendered celebrity and moral authority and harshly contested She identifies the ways neoliberalism as an ideological project advanced by elite funded networks of think tanks and advocacy groups draws on such masculinities to amplify and naturalize market centered assumptions values and practices Gender systems relational and ranked constructs of masculinity femininity permeate neoliberal discourse of markets the state and the household Horton also details the tensions and ties between technocratic elite masculinities which eschew open sexism and discrimination and rightwing populist mobilization of gendered and racialized anti elite discourse *Current History*, 1929

Holmes, Andrew C. Winner, Toshi Yoshihara, 2009-04-02 This is the first academic study of India's emerging maritime strategy and offers a systematic analysis of the interplay between Western military thought and Indian maritime traditions By a quirk

of historical fate Europe embarked on its Age of Discovery just as the main Asian powers were renouncing the sea ushering in centuries of Western dominance In the 21st century however Asian states are once again resuming a naval focus with both China and India dedicating some of their new found wealth to building powerful navies and coast guards and drawing up maritime strategies to govern the use of these forces The United States like the British Empire before it is attempting to manage these rising sea powers while preserving its maritime primacy This book probes how India looks at the sea what kind of strategy and seagoing forces New Delhi may craft in the coming years and how Indian leaders may use these forces It examines the material dimension but its major premise is that navies represent a physical expression of a society s history philosophical traditions and culture This book then ventures a comprehensive appraisal of Indian maritime strategy This book will be of interest to students of sea power strategic studies Indian politics and Asian Studies in general James R Holmes is an Associate Professor of Strategy at the U S Naval War College and a former U S Navy surface warfare officer Toshi Yoshihara is an Associate Professor in the Strategy and Policy Department at the Naval War College Andrew C Winner is Professor in the Strategic Research Department at the U S Naval War College
