Rise Of Romanticism

Craig R. Smith

Rise Of Romanticism:

Romanticism and the Rise of History Stephen Bann, 1995 In *Romanticism and the Rise of History* Bann argues that history came of age in Europe during the period following the French Revolution through the end of the nineteenth century becoming an object of widespread desire As one perhaps mildly astonished scholar noted later it was a time when the most simple minded farmhand was able to distinguish an old belfry from a new one and Bann might add perceive value in the old one To draw the reader into his exploration of the nineteenth century s discovery of history Bann presents twenty five images from the period engravings oil paintings sculptures watercolors that appear to both represent and interact with the past Does the suit of armor standing at Walter Scott s shoulder in Sir John Watson Gordon s portrait validate the image of the author as rightful custodian of the past and its relics or is it Scott who through his imaginative interpretation of history imbues this shell of knighthood with lasting significance

The Emergence of Romanticism Nicholas Valentine Riasanovsky, 1992 Viewed as one of the most tumultuous momentous movements in the history of world literature Romanticism and its origins have long been studied by literary critics In this book Nicholas Riasanovsky primarily known as an eminent historian of Russia offers a refreshing and appealing new interpretation of Romanticism s origins goals and influence The original surge of Romantic thought occurred in England and Germany in the middle to late 1790s and within a decade had spent itself Riasanovsky focuses on the explosion of the Romantic impulse and searches for the origins of the revolutionary vision that made the early Romantic poets in England and Germany take an entirely different view of the world Pairing two British authors Wordsworth and Coleridge with three German authors Novalis Friedrich Schlegel and Wackenroder Riasanovsky demonstrates that for all the cultural differences between them they represent variations on the same emergence Essentially all five were obsessed with the problem of their eternal striving and inability to reach their own goals All five abandoned the Romantic ideology within a decade and having supported the goals of the French Revolution in the 1790s retreated into political conservatism or religious orthodoxy Riasanovsky identifies the heart of Romanticism as being the creature of a pantheistic religious culture He stresses that Romanticism was produced only by Western Christian civilization with its unique view of humankind s relationship to God The Romantics frantic and heroic striving for unreachable goals mirrors Christian beliefs in human inability to adequately address God speak to God or praise God Further Riasanovsky argues that Romantic thought had important political implications playing a key role in the rise of nationalism in Europe Offering a historical examination of an area often limited to literary analysis this book gracefully makes a larger historical statement about the nature and centrality of European Romanticism Not limited to the cultural historian and the literary critic *The Emergence of Romanticism* also makes available to the general reader a jargon free look at the heady days of Romanticism

Political Liberalism and the Rise of American Romanticism Scott M. Reznick, 2024-07-18 *Political Liberalism and the Rise of American Romanticism* explores how American Romanticism developed in response to pervasive conflicts over democracy

s moral dimensions in the early republic and antebellum eras By recovering the long under examined tradition of political liberalism for literary studies it traces how US writers reacted to ongoing moral and political conflict by engaging with liberal thinkers and ideas as they endeavored to understand how individuals beholden to a divergent array of moral convictions might nevertheless share a stable and just political world the very dilemma at the core of political liberalism This study demonstrates how those philosophical engagements sparked Romanticism s rise and eventual flourishing as US writers increasingly embraced Romantic literary modes emphasizing the imagination s capacity for creative synthesis and the role it plays in shoring up the habits of mind and feeling that are vital to a meaningful democratic culture It offers revisionary readings of works by Charles Brockden Brown Robert Montgomery Bird James Fenimore Cooper Harriet Beecher Stowe Frederick Douglass and Nathaniel Hawthorne to show how these Romantic writers were preoccupied with how individuals come to embrace their deepest convictions and what happens when they encounter others who see the world differently

Columbia University Course in Literature, 1928 The Emergence of a Modern City Henriette Steiner, 2016-03-23 This book is an exploration of how urban life in Copenhagen in the period known as the Golden Age c 1800 to 1850 was experienced and structured socially institutionally and architecturally It draws on a broad historical source material spanning urban anecdotes biography philosophy literature and visual culture to do so The book argues that Copenhagen emerged as a modern city at this time despite the fact that the Golden Age never witnessed the appearance of the main characteristics of the modernisation of cities associated with industrialisation such as street lighting sewer systems and railroads The book outlines the historical and topographical context of Copenhagen in the Golden Age with a special focus on the works of the most prominent architect of the period C F Hansen The characterisation of the city is complemented by investigations into writings of three citizens the philosopher Soren Kierkegaard the novelist Thomasine

Gyllembourg and the criminal Ole Kollerod who all take an interest in the city's institutional and urban structures as well as their own place in it. From these different sources a picture is painted of urban life and thought at a time when the city began to take on characteristics of ambiguity and alienation in European thinking while at the same time the city itself retained some pre-modern motifs of a symbolic order. This transformation is set in a larger process of cultural re-orientation from traditional Baroque culture to what might be termed Romantic culture. The book reconsiders the significance of this transformation for the emergent order of the modern European city in the nineteenth century and thus of the very foundation on which our own urban culture rests.

It argues that these contemporary forms of music are not only influenced by but are an expression of Romanticism continuous with their eighteenth and nineteenth-century influences. Figures such as Blake, Wordsworth, Coleridge, Byron, Keats, Mary Shelley, Percy Shelley, Friedrich Schlegel, and Hoffman are brought alongside the music and visual aesthetics of the Rolling Stones, the New Romantics, the Pretenders, Joy Division, Nick Cave, Tom Verlaine, emo, Eminem, My Dying Bride, and Norwegian black metal to explore the ways that Romanticism continues into the present in all of its varying forms and expressions.

A History of Modern English Romanticism Harko Gerrit de Maar, 1924 **What the Victorians Made of Romanticism** Tom Mole, 2020-06-09 This insightful and elegantly written book examines how the popular media of the Victorian era sustained and transformed the reputations of Romantic writers. Tom Mole provides a new reception history of Lord Byron, Felicia Hemans, Sir Walter Scott, Percy Bysshe Shelley, and William Wordsworth, one that moves beyond the punctual historicism of much recent criticism and the narrow horizons of previous reception histories. He attends instead to the material artifacts and cultural practices that remediated Romantic writers and their works amid shifting understandings of history, memory, and media. Mole scrutinizes Victorian efforts to canonize and commodify Romantic writers in a changed media ecology. He shows

how illustrated books renovated Romantic writing how preachers incorporated irreligious Romantics into their sermons how new statues and memorials integrated Romantic writers into an emerging national pantheon and how anthologies mediated their works to new generations This ambitious study investigates a wide range of material objects Victorians made in response to Romantic writing such as photographs postcards books and collectibles that in turn remade the public's understanding of Romantic writers Shedding new light on how Romantic authors were posthumously recruited to address later cultural concerns What the Victorians Made of Romanticism reveals new histories of appropriation remediation and renewal that resonate in our own moment of media change when once again the cultural products of the past seem in danger of being forgotten if they are not reimagined for new audiences

ENGLISH LITERATURE ADVANCING THROUGH

HISTORY 4 - The Eighteenth Century Petru Golban, 2022-12-28 It appears that literary work possesses eternal temporal validity due to its autonomous aesthetic value whereas criticism provides points of view having temporary and transitory significance Despite such claims the vector of methodology in our series of books dealing with the history of English literature relies on Viktor Shklovsky T S Eliot Mikhail Bakhtin and especially Yuri Tynyanov whose main reasoning would be that literature is a system of dominant central and peripheral marginalized elements to us tradition centre versus innovation margin engaged in a battle for supremacy demarginalization and the right to form a new literary system and the development or historical advancement of literature is the substitution of systems Roman Jakobson and French structuralism on the whole later Linda Hutcheon with her system and constant and Bran Nicol with the dominant to say nothing about Itamar Even Zohar and his theory of polysystem to a certain extent Julia Kristeva and even Homi Bhabha as well as our humble contribution we would like to believe maintain Tynyanov's line of thinking and concepts alive which have developed and emerged nowadays more like a kind of neo formalism Focusing on literary practice applying critical theory and emerging from within our own teaching experience the books in the present series are theoretical and surveyistic like a monograph whereas their more practical and text oriented aspect should appeal as a student handbook for didactic purposes in which certain literary works belonging to various writers of different trends movements and periods are analysed and compared with regard to their source form thematic arrangements ideas motifs character representation strategies intertextual perspectives structural or narrative techniques and other aspects
