Rise Of The Nouveaux Riches Style And Status In Victorian And Edwardian Architecture:

The Rise of the Nouveaux Riches Joseph Mordaunt Crook,1999 The story of the decline of the British aristocracy is relatively well documented but this text examines the new plutocracy who challenged it in the years that led to the Belle Epoque of King Edward VII It explores where its members resided what they spent their money on and how they lived down or up to their parvenu wealth

The Georgians Penelope J. Corfield,2022-02-08 A comprehensive history of the Georgians comparing past views of these exciting turbulent and controversial times with our attitudes today The Georgian era is often seen as a time of innovations It saw the end of monarchical absolutism global exploration and settlements overseas the world's first industrial revolution deep transformations in religious and cultural life and Britain's role in the international trade in enslaved Africans But how were these changes perceived by people at the time And how do their viewpoints compare with attitudes today In this wide ranging history Penelope J Corfield explores every aspect of Georgian life politics and empire culture and society love and violence religion and science industry and towns People's responses at the time were often divided Pessimists saw loss and decline while optimists saw improvements and light Out of such tensions came the Georgian culture of both experiment and resistance Corfield emphasizes those elements of deep continuity that persisted even within major changes and shows how new developments were challenged if their human consequences proved dire

Popular Conservatism in Imperial London, 1868-1906 Alex Windscheffel,2007 First detailed investigation into the popular dimensions of late Victorian London Conservatism

Identity, Community and Australian Artists, 1890-1914 Kate R. Robertson,2019-09-19 An irresistible call lured Australian artists abroad between 1890 and 1914 a transitional period immediately pre and post federation Travelling enabled an extension of artistic frontiers and Paris the centre of art and London the heart of the Empire promised wondrous opportunities These expatriate artists formed communities based on their common bond to Australia enacting their Australian ness in private and public settings Yet they also interacted with the broader creative community fashioning a network of social and professional relationships They joined ateliers in Paris such as the Acad mie Julian clubs like the Chelsea Arts Club in London and visited artist colonies including St Ives in England and taples in France Australian artists persistently sought a sense of belonging negotiating their identity through activities such as plays balls tableaux parties dressing up and of course the creation of art While individual biographies are integral to this study it is through exploring the connections between them that it offers new insights Through utilising extensive archival material much of which has limited or no publication history this book fills a gap in existing scholarship It offers a vital exploration re consideration of the fluidity of identity place and belonging in the lives and work of Australian artists in this juncture in British Australian history

The Making of a Cultural Landscape Jason Wood,John K. Walton,2016-03-09 For centuries the English Lake District has been renowned as an important cultural sacred and literary landscape It is therefore surprising that there has so far been no in depth critical examination of the Lake District from a tourism and heritage

perspective Bringing together leading writers from a wide range of disciplines this book explores the tourism history and heritage of the Lake District and its construction as a cultural landscape from the mid eighteenth century to the present day It critically analyses the relationships between history heritage landscape culture and policy that underlie the activities of the National Park Cumbria Tourism and the proposals to recognise the Lake District as a UNESCO World Heritage Site It examines all aspects of the Lake District s history and identity brings the story up to date and looks at current issues in conservation policy and tourism marketing In doing so it not only provides a unique and valuable analysis of this region but offers insights into the history of cultural and heritage tourism in Britain and beyond *States and the Masters of Capital* Quentin Bruneau,2022-12-13 Winner 2025 Francesco Guicciardini Prize for Best Book in Historical International Relations Historical International Relations section International Studies Association Today states ability to borrow private capital depends on stringent evaluations of their creditworthiness While many presume that this has long been the case Quentin Bruneau argues that it is a surprisingly recent phenomenon the outcome of a pivotal shift in the social composition of financial markets Investigating the financiers involved in lending capital to sovereigns over the past two centuries Bruneau identifies profound changes in their identities goals and forms of knowledge He shows how an old world made up of merchant banking families pursuing both profit and status gradually gave way to a new one dominated by large companies such as joint stock banks and credit rating agencies exclusively pursuing profit Lacking the web of personal ties to sovereigns across the world that their established rivals possessed these financial institutions began relying on a different form of knowledge created to describe and compare states through quantifiable data statistics Over the course of this epochal shift which only came to an end a few decades ago financial markets thus reconceptualized states Instead of a set of individuals to be known in person they became numbers on a page Raising new questions about the history of sovereign lending this book illuminates the nature of the relationship between states and financial markets today and suggests that it may be on the cusp of another major transformation **London Clubland** A. Milne-Smith,2011-11-15 This work is the first to study the gentlemen s clubs that were an important feature of the Late Victorian landscape and the first to discover the secret history of clubmen and their world placing them at centre stage detailing how clubland dramatically shaped 19th and early 20th century ideas about gender power class and the city *Household Gods* Deborah Cohen,2006-01-01 At what point did the British develop their mania for interiors wallpaper furniture and decoration Richly illustrated *Household Gods* chronicles 100 years of British interiors focusing on class choice shopping and possessions *Stewards of the Nation's Art* Andrea Geddes Poole,2010-02-13 Between 1890 and 1939 the groups of men involved in running Britain s four main public art galleries the National Gallery the Tate Gallery the Wallace Collection and the National Portrait Gallery were embroiled in continuous power struggles *Stewards of the Nation's Art* examines the internal tensions between the galleries administrative directors the aristocrats dominating the boards of trustees and those in the Treasury who controlled the funds as well as

board appointments Andrea Geddes Poole uses meticulous primary research from all four of these institutions to discuss changing ideas about class education and work during this period The conflicts between aristocratic trustees and administrative directors were not only about the running of the galleries but also reflected the era's strain between aristocratic amateurs and nouveau riche professionals Stewards of the Nation's Art is an absorbing study that explores the extent to which the aristocracy was able to hold on to cultural power in an increasingly professional and meritocratic age

Edward VII (Penguin Monarchs) Richard Davenport-Hines, 2016-02-25 Like his mother Queen Victoria Edward VII defined an era Both reflected the personalities of their central figures hers grand imperial and pretty stiff his no less grand but much more relaxed and enjoyable This book conveys Edward's distinct personality and significant influences To the despair of his parents he rebelled as a young man conducting many affairs and living a life of pleasure But as king he made a distinct contribution to European diplomacy and which is little known to London laying out the Mall and Admiralty Arch Richard Davenport Hines's book is as enjoyable as its subject and the age he made

Inner empire Daniel Maudlin, Alex Bremner, 2024-08-06 Inner Empire explores the impact of imperial cultures on the landscapes and urban environments of the British Isles from the sixteenth century through to the twentieth century It asserts that Britain's four hundred year entanglement with global empire left its mark upon the British Isles as much as it did the wider world Buildings stood as one of the most conspicuous manifestations of the myriad relationships that Britain maintained with the theory and practice of colonialism in its modern history Divided into two main sections the volume's content considers internal colonisation and its infrastructures of control order and suppression alongside wider relationships between architecture the imperial economy and cultural identity Taken together the essays in this volume present for the first time a coherent analysis of the British Isles as an imperial setting understood through its buildings spaces and infrastructure

Modernism and the Aristocracy Adam Parkes, 2023-06-14 During a modern age that saw the expansion of its democracy the fading of its empire and two world wars Britain's hereditary aristocracy was pushed from the centre to the margins of the nation's affairs Widely remarked on by commentators at the time this radical redrawing of the social and political map provoked a newly intensified fascination with the aristocracy among modern writers Undone by history the British aristocracy and its Anglo Irish cousins were remade by literary modernism Modernism and the Aristocracy Monsters of English Privilege is about the results of that remaking The book traces the literary consequences of the modernist preoccupation with aristocracy in the works of Elizabeth Bowen Ford Madox Ford Aldous Huxley D H Lawrence Evelyn Waugh Rebecca West and others writing in Britain and Ireland in the first half of the twentieth century Combining an historical focus on the decades between the two world wars with close attention to the verbal textures and formal structures of literary texts Adam Parkes asks What did the decline of the British aristocracy do for modernist writers What imaginative and creative opportunities did the historical fate of the aristocracy precipitate in writers of the new democratic age Exploring a range of feelings affects and attitudes that modernist authors associated with

the aristocracy in the interwar period from stupidity boredom and nostalgia to sophistication cruelty and kindness the book also asks what impact this subject matter has on the form and style of modernist texts and why the results have appealed to readers then and now In tackling such questions Parkes argues for a reawakening of curiosity about connections between class status and literature in the modernist period *British Models of Art Collecting and the American Response* Dr Inge Reist, 2014-10-28 This collection of fourteen essays by distinguished art and cultural historians examine points of similarity and difference in British and American art collecting Half the essays examine the trends that dominated the British art collecting scene of the nineteenth century Others focus on American collectors using biographical sketches and case studies to demonstrate how collectors in the United States embellished the British model to develop their own often philanthropic approach to art collecting **Fraud, Fakery and False Business** Abigail Harrison Moore, 2011-09-08 In 1922 Adolphe Shrager having made his fortune during the First World War approached the London dealer Basil Dighton for advice on purchasing antique furniture Dighton sold him about five hundred items but shortly afterwards Shrager discovered that one of his collector's pieces was judged to be a fake and grossly over priced and he sued The trial held in early 1923 became a cause celebre but it can be viewed as a case study of a much wider set of social and cultural concerns the fact that Shrager lost both the first trial and the appeal despite demonstrating on numerous occasions that he had a clear case against Dighton raises questions of race prejudice and class where the establishment closed ranks against Shrager the nouveau riche Jew and alleged war profiteer This book the first on the Shrager Dighton case is the result of the author's original archival research

The Challenge of Democracy Hugh Cunningham, 2014-10-29 This authoritative and thought provoking history takes a fresh view of what was a period of unprecedented and rapid change Assuming no prior knowledge of the subject Hugh Cunningham provides a clear narrative of political events and an analysis of change and continuity in ideas and in economic and social structure Britain is set firmly in the context of world power and the possession of empire An overarching theme is the challenge presented by democracy in a period framed by the First and Fourth Reform Acts Democracy had no stable meaning and its opponents were just as vocal as its advocates The book explores its implications for the role of the state for the governance of empire and for the relationship between the different nations within the United Kingdom *Cultural Consumption, Classification and Power* Alan Warde, 2013-10-18 When social scientists in the 1970s began to identify the positive and constructive role of cultural practices in the operation of power Pierre Bourdieu advanced a highly influential and subsequently controversial account Most notably in *Distinction* he charted the connections between cultural taste and practice and social classification This book seeks to evaluate develop and transcend the ideas that Bourdieu explored in *Distinction* Taken together the papers compare and contrast different theoretical and conceptual approaches bring empirical investigations to bear on relevant theoretical issues drawing on different national experiences France UK Canada Central Africa and attend to aspects of the relationship between culture and power with reference to gender and ethnicity as well as

class Thus the book contributes to the on going international debates across the social sciences about Bourdieu s legacy and the current role of cultural practice in social reproduction **Making History Now and Then** D.
