

The background of the cover is a detailed black and white line drawing of a classical architectural archway. It features two large columns on either side, topped with ornate urns. The arch itself is decorated with intricate scrollwork and moldings. The author's name is inscribed in a small cartouche at the top center of the arch.

Rise Of The West A History Of The Human

**William H. (William Hardy)
McNeill, Stock, Mavis**

Rise Of The West A History Of The Human:

The Rise of the West William H. McNeill, 2024-05-31 The most stimulating and fascinating book that has ever set out to recount and explain the whole history of mankind H R Trevor Roper The New York Times Book Review The Rise of the West winner of the National Book Award for history in 1964 is famous for its ambitious scope and intellectual rigor In it McNeill challenges the Spengler Toynbee view that a number of separate civilizations pursued essentially independent careers and argues instead that human cultures interacted at every stage of their history The author suggests that from the Neolithic beginnings of grain agriculture to the present major social changes in all parts of the world were triggered by new or newly important foreign stimuli and he presents a persuasive narrative of world history to support this claim In a retrospective essay titled The Rise of the West after Twenty five Years McNeill shows how his book was shaped by the time and place in which it was written 1954 63 He discusses how historiography subsequently developed and suggests how his portrait of the world s past in The Rise of the West should be revised to reflect these changes The most lucid presentation of world history in narrative form that I know While the story leads up to the predominance of the West in the modern age it also takes full account of the expansion of civilization eastwards as well as westwards from its birthplace in the Fertile Crescent I am sure that anyone who reads this book will gain from it a greater insight into the long and complicated historical process that has resulted in the world in which we are living today Arnold Toynbee author of A Study of History The Rise of the West William Hardy McNeill, 1970 The Rise of the West William Hardy McNeill, 1991 **The Rise of the West** William Hardy McNeill, 1963 The Rise of the West William Hardy McNeill, 1964 *The Rise of the West* Keigo Seki, 1963 *Zhe Rise of the West* William Hardy McNeill, 1963 Historians Debate the Rise of the West Jonathan Daly, 2014-07-11 How and why did Europe rise to world pre eminence Providing an overview of this central historical conundrum of modern times Historians Debate the Rise of the West enables students to grasp major scholars evaluations of the biggest picture of all how Western civilization fits into modern world history Most historians who write in this area subscribe to a combination of interpretations set forward by scholars of the field like David Landes Jared Diamond or Kenneth Pomeranz But it is often difficult to understand the position they are coming from and for readers to understand clearly how Europe made the transition from merely one of many developing civilizations to the world s first industrial power In this volume Jonathan Daly introduces us to the main interpretations of Europe s rise that have been proposed over the past half century and presents the views of these historians and schools of scholarship advocating for each point of view and letting each author speak for him or herself through the inclusion of brief textual selections Also included are interesting biographical details for each scholar as well as a list of further reading for each chapter and a collection of maps An ideal introduction for students of world history **The Rise of the West** William Hardy McNeill, Bela Petheo, 1991 **The Rise of the West** William Hardy McNeill, 1964 **The Rise of Western Power** Jonathan Daly, 2021-01-14 In this second edition of The Rise of Western Power Jonathan Daly retains

the broad sweep of his introduction to the history of Western civilization as well as introducing new material into every chapter enhancing the book's global coverage and engaging with the latest historical debates The West's history is one of extraordinary success no other region empire culture or civilization has left so powerful a mark upon the world Daly charts the West's achievements representative government the free enterprise system modern science and the rule of law as well as its misdeeds two World Wars the Holocaust imperialistic domination and the Atlantic slave trade Taking us through a series of revolutions he explores the contributions of other cultures and civilizations to the West's emergence weaving in historical geographical and cultural factors The new edition also contains more material on themes such as the environment and gender and additional coverage of India China and the Islamic world Daly's engaging narrative is accompanied by timelines maps and further reading suggestions along with a companion website featuring study questions over 100 primary sources and 60 historical maps to enable further study

A Companion to World History Douglas Northrop, 2014-12-15 A COMPANION TO WORLD HISTORY This new volume offers insightful reflections by both leading and emerging world historians on approaches methodologies arguments and pedagogies of a sub discipline that has continued to be in flux as well as in need of defining itself as a relevant alternative to the traditional national regional or chronological fields of inquiry Choice The focus on the practicalities of how to do world history probably gives it its edge Its thirty three chapters are grouped into sections that address how to set up research projects in world history how to teach it how to get jobs in it how to frame it and how it is done in various parts of the globe It is an actual handbook in other words as opposed to a sample of exemplary work English Historical Review A Companion to World History offers a comprehensive overview of the variety of approaches and practices utilized in the field of world and global history This state of the art collection of more than 30 insightful essays including contributions from an international cast of leading world historians and emerging scholars in the field identifies continuing areas of contention disagreement and divergence while pointing out fruitful directions for further discussion and research Themes and topics explored include the lineages and trajectories of world history key ideas and methods employed by world historians the teaching of world history and how it draws upon and challenges traditional approaches and global approaches to writing world history By considering these interwoven issues of scholarship and pedagogy from a transnational interregional and world global scale fresh insights are gained and new challenges posed With its rich compendium of diverse viewpoints A Companion to World History is an essential resource for the study of the world's past

Encyclopedia of Historians and Historical Writing Kelly Boyd, 1999 Contains over 800 entries ranging from Lord Acton and Anna Comnena to Howard Zinn and Herodotus to Simon Schama Over 300 contributors have composed critical assessments of historians from the beginning of historical writing to the present day including individuals from

The Rise of the West; a History of the Human Community. Drawings by B la Pethe William Hardy McNeill, 1963

Human Geography Mark Boyle, 2021-03-29 Revised Extended and Extensively Updated Text Uses Historical Geographical

and Thematic Approach to Provide Undergraduates with a Firm Foundation in Human Geography Drawing on nearly three decades of instructional experience and a wealth of testing pedagogical innovations with students Mark Boyle has revised and expanded this authoritative and comprehensive introduction to Human Geography As with the First Edition Boyle follows the premise that history makes geography whilst geography makes history and that the key to studying the principal demographic social political economic cultural and environmental processes in any region in the world today is to look at how that region has been impacted by and in turn has impacted the story of the rise reign and decline of the West Moreover he argues that Human Geography itself is best understood as both an intellectual endeavour and a historical political and institutional project Informed by recent developments in post colonial scholarship the book covers key concepts seminal thinkers and influential texts in the field Although designed for the beginner student Boyle does not shy away from ideas and debates often avoided in introductory texts clearly communicating theory without condescension In addition he places human geography in its larger academic context discussing the influences on the field from related subjects Notable features in the Second Edition include Extensive revision and updating of coverage of key ideas developments debates and case studies New chapter on uneven geographical development at different scales and development theory and practice Dedicated coverage of Covid 19s geographies New learning resources figures tables plates maps Deep Dive boxes etc throughout the text plus learning objectives essay questions checklists summarizing key ideas and guidance for further reading Updated and expanded companion website with MP4 and MP3 chapter by chapter lectures and PowerPoint slides for each chapter new multiple choice exam paper and additional essay style exam questions and a wide range of student tutorial exercises Human Geography An Essential Introduction Second Edition is an excellent foundational text for undergraduate courses in human geography globalization Western civilization historiographies of intellectual thought the grand public problems confronting humanity in the twenty first century and other wider social science courses

China's Rise and Its Global Implications

Shaoguang Wang,2021-09-22 This book is the culmination of a lifetime of research into Chinese development situated in a global historical context The author explores the irreplaceable role of state capacity state owned enterprises and five year plan in China s transformation from an agricultural state to an industrial state and then to the world s economic powerhouse as well as the remarkable achievements of social policy to reduce the rural urban gap and regional gap This book will be of interest to China scholars development economists political activists and general readers who would like to know more about China s growth miracle

The Rise of the West William H. McNeill,1963 The Rise of the West. A History of the Human Community ... Maps by Béla Petheö. [With Plates.]. William Hardy McNeill,1965

The History of Human Rights

Micheline Ishay,2008-06-02 Ishay recounts the struggle for human rights across the ages from the Mesopotamian Codes of Hammurabi to the era of globalization She illustrates how the history of human rights has evolved from one era to the next through texts cultural traditions creative expression
