## Rise And Fall Of Mikhail Gorbachev:

**Rise and Fall of Mikhail Gorbachev** Thomson Learning Australia, Gorbachev I. D. Oppenheim, 1991 **The Rise and Fall of the Soviet Economy** Philip Hanson, 2014-09-11 Why did the Soviet economic system fall apart Did the economy simply overreach itself through military spending Was it the centrally planned character of Soviet socialism that was at fault Or did a potentially viable mechanism come apart in Gorbachev's clumsy hands Does its failure mean that true socialism is never economically viable The economic dimension is at the very heart of the Russian story in the twentieth century Economic issues were the cornerstone of Soviet ideology and the Soviet system and economic issues brought the whole system crashing down in 1989-91 This book is a record of what happened and it is also an analysis of the failure of Soviet economics as a concept *Red October: The Rise and Fall of the Soviet Regime* Pasquale De Marco, 2025-05-14 In the annals of history few experiments have been as ambitious transformative and ultimately tragic as that of the Soviet Union Spanning seven tumultuous decades this colossal enterprise sought to reshape the world in the image of communism leaving an indelible mark on humanity's collective memory This comprehensive and captivating book delves into the heart of the Soviet experience unraveling the intricate tapestry of events decisions and personalities that shaped its destiny From the ashes of the Russian Empire we witness the birth of the Bolshevik Revolution and the rise of Vladimir Lenin the charismatic leader who ignited the flames of communism We follow the Soviet Union's tortuous path through industrialization collectivization and the Great Purge as Joseph Stalin's iron fist grips the nation Through the lens of ordinary citizens we experience the hardships hopes and dreams of those who lived under the Soviet regime We witness the sacrifices they made the compromises they endured and the resilience they displayed in the face of adversity We encounter dissidents and reformers visionaries and tyrants all playing their part in the grand drama of Soviet history We traverse the harrowing years of World War II witnessing the Soviet Union's resilience in the face of Nazi Germany's onslaught We explore the ideological battles of the Cold War the space race and the Cuban Missile Crisis as the world teeters on the brink of nuclear annihilation We navigate the labyrinthine corridors of the Kremlin observing the power struggles political intrigues and economic challenges that plagued the Soviet leadership The collapse of the Soviet Union in 1991 marked a seismic shift in the global geopolitical landscape The world watched in awe as the Iron Curtain crumbled and the Soviet republics declared their independence Yet the legacy of the Soviet Union continues to cast a long shadow over Russia and the world shaping political discourse international relations and cultural identities This book is an essential guide to understanding this fascinating and complex chapter in human history Through a blend of rigorous research vivid storytelling and insightful analysis it provides a comprehensive overview of the Soviet Union's rise reign and eventual collapse It is a must read for anyone seeking to unravel the enigmas of this vanished empire and its enduring impact on the modern world If you like this book write a review on google books [The Rise and Fall of Gorbachev](#) Dmitrii Mikheev, 1992 One such puzzle is the phenomenon of Gorbachev

Dozens of books and thousands of articles have already been written about his upbringing his decisions his words his image his career and his behavior His wife close associates friends and enemies have written books about him Yet the real Gorbachev as man and as politician still defies explanation Perhaps the most striking paradox of the Gorbachev puzzle is the fact that a leader so admired around the world could be so hated despised and pitied by so many people in his own country He captured the imaginations of the world and was talked about as a new messiah yet so many of his countrymen when asked about Gorbachev could hardly fight back their loathing toward the man who changed the world The political dimension of Gorbachev s saga is the drama of gaining enormous power and losing it all      *The Rise and Fall of the Soviet Union* Epic Epoch,2025-04-29 The Rise and Fall of the Soviet Union by Epic Epoch Disclaimer This is an original work of historical non fiction by Epic Epoch How did the world s largest country collapse without a single bomb dropped This is the gripping story of the USSR from Lenin s revolution to Stalin s terror Khrushchev s promises and Gorbachev s unraveling Learn how idealism met corruption and how the Cold War ended without war at all We can t predict the future But we can preserve the past Mikhail Gorbachev Step into the factories gulags and summits that shaped modern geopolitics and see how the Soviet dream turned into a bureaucratic nightmare P S Whether you lived through the Cold War or only heard stories this is the book that connects the dots Why Choose Us Epic Epoch Epic History Told Simply Bold vivid cinematic storytelling Clear concise and never boring Real takeaways Real history Disclaimer Once Again This is an original book written and published by Epic Epoch It is not a summary or affiliated with any other work      *The Rise and Fall of Peace on Earth* Michael Mandelbaum,2021-01-02 In *The Rise and Fall of Peace on Earth* Michael Mandelbaum examines the peaceful quarter century after the end of the Cold War He describes how the period came about and why it ended arguing that individual countries overturned peaceful political and military arrangements in Europe Asia and the Middle East thereby affecting the rest of the world He also probes prospects for the revival of peace in the future and stresses the importance of democracy and civil liberties across borders      **Rise & Decline** Bruce Thatcher,2017-05 *Rise Decline* is a political science work that examines the history of six republics to identify common elements in their rise decline and extinction Ancient Athens the Roman Republic the Polish Lithuanian Commonwealth and the Third Republic of France have all passed from the world scene The United Kingdom and the United States of America still exist but are in decline While many things can cause the end of a nation these studies show that the normal life cycle of a nation its birth rise maturity decline expiration is determined by the degree to which its citizens accept the principles upon which it was founded its raison d tre Nations in ascendance are characterized by a critical mass of citizens attuned to their founding principle As they decline nations are characterized by growing numbers of citizens who are indifferent to or disdainful of founding principles History is clear All nations end The existential question for Americans is not whether we can prevent it      *Legitimacy in International Relations and the Rise and Fall of Yugoslavia* John Williams,2016-07-27 This book develops a conceptual model of legitimacy as a value judgement in

international relations in contrast to Weberian and legal approaches The model is based on the interaction of the states systemic value of order with a liberal ideal of the state and a free market liberal international economy Whilst formulated as a principally Western model the analysis of the rise and fall of Yugoslavia and the international response points towards a wider applicability as well as confirming the value of the concept as an analytical tool [The Fall of the Soviet Union, 1991](#) Susan Sales Harkins, William H. Harkins, 2020-02-04 Soviet History begins with bloodshed oppression and strife Civil War stained the Russian landscape with the blood of its people after Nicholas II abdicated his throne to a provisional government The Bolsheviks wanted Russia and eventually they took her Peasants became citizens with rights but the truth is the civil war only changed the name of their oppressor from czar to Communist dictator After decades of isolation and sometimes harsh living conditions Mikhail Gorbachev ushered in an age of reform but in doing so he made enemies Then Boris Yeltsin championed reform and the rights of the people When Communist hard liners made one last effort to regain control Yeltsin held his ground Unlike its birth the death of the Soviet Union saw little bloodshed After seventy years even the Communist hard liners no longer had the stomach for killing citizens to keep control The union dissolved in 1991 **The Rhetorical Rise and Demise of "Democracy" in Russian Political Discourse, Volume 3** David Cratis Williams, Marilyn J. Young, Michael K. Launer, 2024-02-20 In Volume Three of this four volume series we examine the rhetorical development that occurred during the first two terms of Vladimir Putin's tenure as president of the Russian Federation Initially Putin appeared to follow in the path set by his predecessor Boris Yeltsin vowing that Russia was at heart a European nation and would be a westward facing democracy going forward He even mentioned partnering with the EU and NATO Eight years later at the 2007 Munich Security Conference Putin excoriated the West for in his words attempting to create a unipolar world in which NATO expansion threatened Russia's security the United States acted as the world's sole hegemon and Europe simply followed orders relinquishing any sense of agency in its own affairs [Asad's Legacy](#) Eyal Ziser, 2001 Hafez al Asad d 2000 ruled Syria for 30 of its 55 year history as a modern state Zisser Moshe Dayan Center for Middle Eastern and African studies Tel Aviv U offers a balanced view of Asad's role in elevating Syria to a stable major Middle East player but with a legacy of authoritarianism and struggles over succession Includes maps of Syria's frontier with Israel and Lebanon c Book News Inc

**Rethinking the Rise and Fall of Apartheid** Adrian Guelke, 2017-03-16 Providing a much needed antidote to recent revisionist attempts to rehabilitate apartheid this major new text by a leading authority offers a considered and substantive reassessment of the nature endurance and significance of apartheid in South Africa as well as the reasons for its dramatic collapse Paying particular attention to the international dimension as well as the domestic the author assesses the impact of anti apartheid protest of changing attitudes of Western governments to the apartheid regime and the evolution of South African government policies to the outside world *The Encyclopedia of Christianity, Vol. 5* Erwin Fahlbusch, Geoffrey William Bromiley, 1999 Written by leading scholars from around the world the articles in this volume range from sin Sufism

and terrorism to theology in the 19th and 20th centuries Vatican I and II and the virgin birth

**The Rise and Fall of the Soviet Union** Laurie Stoff, 2006 Presents a collection of primary and secondary documents offering varying opinions on the Soviet Union

**Soviet Union's Hidden Horrors: Unveiling Decades of Repression and Suffering** Pasquale De Marco, 2025-05-16 In the vast expanse of history few regimes have cast as long and dark a shadow as the Soviet Union This book unveils the hidden horrors that lie beneath the surface of the Soviet era shedding light on the systematic repression violence and suffering that shaped the lives of millions Through meticulous research and firsthand accounts we delve into the machinations of a totalitarian state exposing the true nature of the Soviet regime We uncover the roots of Stalin's reign of terror the Gulag Archipelago and the systematic persecution of dissidents and minorities We explore the devastating impact of central planning on the economy leading to chronic shortages poverty and isolation from the global community Beyond the political sphere we examine the social and cultural consequences of Soviet rule The stifling of creativity and intellectual freedom the pervasive surveillance and propaganda and the erosion of traditional values left an indelible mark on Soviet society We explore the human cost of totalitarianism giving voice to the victims and survivors of political repression and the psychological toll it took on entire generations We also investigate the final years of the Soviet Union tracing the rise and fall of perestroika and the challenges of transition to democracy We analyze the historical lessons learned from the Soviet experience and their relevance to contemporary society emphasizing the importance of vigilance against authoritarianism and the preservation of human rights This book is a powerful reminder of the fragility of freedom and the resilience of the human spirit in the face of adversity It is a call to remember the victims honor their sacrifices and ensure that such atrocities never happen again By confronting the dark past we can pave the way for a brighter future founded on the principles of justice freedom and human dignity If you like this book write a review on google books

**Robustness and Fragility of Political Orders** Richard Ned Lebow, Ludvig Norman, 2022-11-24 A comparative interdisciplinary volume on the robustness and fragility of political orders that focuses on leader understandings and their consequences It includes studies of failed orders like the Weimar Republic and the Soviet Union current orders like the United States regional orders such as the European Union and international orders

**The Logic of the Cold War** Tian-jia Dong, 2018-08-24 The Cold War revealed for the first time in human history the logic of human togetherness which indicated that it was not only necessary for nation states to live together but also possible for them to do so The necessity was because of the inescapably shared vulnerability of mutually assured destruction not only in terms of security but more so in economic well being and political stability The possibility was due to the unipolar world structure sustained by the global governance web of interdependent partnership which worked powerfully between the power agents to ensure the best of all possible world This latent governance system was both hierarchical and dynamic because its power was connective in the sense that power was rooted in one another and the ability to be interdependent by empowering other power agents and sharing vulnerability at the same time was the way

of becoming the nucleus on the global web of interdependent partners and hence gaining power in transforming one another connectively and governing the world collectively George Kennan s patience in building up hard and soft powers within individual power agents of the web and Wilson Roosevelt s institutionalization of collective power above each power agents contributed to the construction of the system The Soviet big brotherly governing type was proven a failure      **An Anticlassical Political-Economic Analysis** Yasusuke Murakami,Kozo Yamamura,1996 In his final work Murakami confronts three crucial questions How and in what form can a harmonious and stable post cold war world order be created How can the world maintain the necessary economic performance while minimizing conflicts and environmental deterioration What must be done to safeguard the freedoms of all peoples      **The Collapse of Communist Power in Poland** Jacqueline Hayden,2006-03-23 Based on extensive original research including interviews with key participants this book investigates the sudden and unforeseen collapse of communist power in Poland in 1989 It sets out the sequence of events and examines the strategies of the various political groupings prior to the partially free election of June 1989 This volume argues that the specific negotiating strategies adopted by the communist party representatives in the Round Table discussions before the elections was a key factor in communism s collapse The book shows that on many occasions PZPR decision makers ignored expert advice and many Round Table bargains went against the party s best interests Using in depth interviews with major party players including General Jaruzelski General Kiszczak and Mieczyslaw Rakowski as well as Solidarity advisors such as Adam Michnik the text provides a unique source of first hand accounts of Poland s revolutionary drama
