Ehsan Yarshater Discussing a large variety of subjects which covers the whole spectrum of life in early Islamic Iran the volume offers one of the most ambitious perspectives on Persian religion society and culture to be published to date It will be consulted by all students of Iranian history and will be regarded as essential reading for scholars of Islam the Middle East and medieval religion alike Persia, the Rise of Islam, and the Holy Roman Empire Herald P. McKinley, 2015-07-15 Learn about the spread of culture from Middle East throughout Europe Find out about Persia Mohammad and the spread of Islam and the beginnings of the Holy Roman Empire in this fascinating book The Rise of Islam Matthew Gordon, 2008 Focuses on the socioeconomic political and cultural milieu in which a new religious movement was born and has thrived This work includes a discussion of the origins of Islamic law spirituality and theology mysticism philosophy and culture as well as an appendix of individual page length biographies of important figures A Prophet Has Appeared Stephen J. Shoemaker, 2021-03-02 Early Islam has emerged as a lively site of historical investigation and scholars have challenged the traditional accounts of Islamic origins by drawing attention to the wealth of non Islamic sources that describe the rise of Islam A Prophet Has Appeared brings this approach to the classroom This collection provides students and scholars with carefully selected introduced and annotated materials from non Islamic sources dating to the early years of Islam These can be read alone or alongside the Qur'an and later Islamic materials Applying historical critical analysis the volume moves these invaluable sources to more equal footing with later Islamic narratives about Muhammad and the formation of his new religious movement Included are new English translations of sources by twenty authors originally written in not only Greek and Latin but also Syriac Georgian Armenian Hebrew and Arabic and spanning a geographic range from England to Egypt and Iran Ideal for the classroom and personal library this sourcebook provides readers with the tools to meaningfully approach a new burgeoning area of Islamic studies The Emergence of Islam Gabriel Said Reynolds, 2023 Now in an updated second edition Gabriel Said Reynolds tells the story of Islam in this brief illustrated survey beginning with Muhammad's early life and rise to power then tracing the origins and development of the Quran juxtaposed with biblical literature and concluding with an overview of modern and fundamentalist narratives of the origin of Islam Reynolds offers a fascinating look at the structure and meaning of the Qur'an revealing the ways in which biblical language is used to advance the Qur'an's religious meaning Reynolds analysis identifies the motives that shaped each narrative Islamic Jewish and Christian The book's conclusion yields a rich understanding of diverse interpretations of Islam's emergence suggesting that its emergence is itself ever developing Publisher description Eastern Rome and the Rise of Islam Olof Heilo, 2015-11-19 The emergence of Islam in the seventh century AD still polarises scholars who seek to separate religious truth from the historical reality with which it is associated However history and prophecy are not solely defined by positive evidence or apocalyptic truth but by human subjects who consider them to convey distinct messages and in turn make these messages meaningful to others These messages are mutually interdependent and analysed together provide new insights into history It

is by way of this concept that Olof Heilo presents the decline of the Eastern Roman Empire as a key to understanding the rise of Islam two historical processes often perceived as distinct from one another Eastern Rome and the Rise of Islam highlights significant convergences between Early Islam and the Late Ancient world It suggests that Islam's rise is a feature of a common process during which tensions between imperial ambitions and apocalyptic beliefs in Europe and the Middle East cut straight across today's theological and political definitions The conquests of Islam the emergence of the caliphate and the transformation of the Roman and Christian world are approached from both prophetic anticipations in the Ancient and Late Ancient world and from the Medieval and Modern receptions of history In the shadow of their narratives it becomes possible to trace the outline of a shared history of Christianity and Islam The Dark Ages thus emerge not merely as a tale of sound and fury but as an era of openness diversity and unexpected possibilities Approaching the rise of Islam as a historical phenomenon this book opens new perspectives in the study of early religion and philosophy as well as providing a valuable resource for students and scholars of Islamic Studies

**Fall of Capitalism and Rise of Islam** Mohammad Malkawi, 2010-04-22 The Fall of Capitalism and the Rise of Islam provides a critical analysis of the current financial crisis in the US and the world at large It concludes that the current crisis could very well be a sign of failure of the underlying system of capitalism The book shows that the system of capitalism contains serious faults and defects at the core theory level Economic and financial crisis periodically occur whenever these defects are triggered by various conditions and political decisions during the life of capitalism The collapse of financial institutions the crash of the housing market the evaporation of trillions of dollars the creation of virtual unreal wealth and the decline of productivity are symptoms of the potential failure of the ideology of capitalism This failure has serious impact on the life quality of billions of people around the world who suffer from poverty hunger health insecurity lack of education and serious inhuman conditions The world order under capitalism witnessed multiple world wars political and economic instability colonialism absence of peace deprivation of justice and polarization of wealth and power This book predicts a potential crash and collapse of the world order under the pressure of a failing capitalism Concurrent to the decline and potential collapse of capitalism the book makes an account of another global phenomenon namely the second rise of Islam The rise of Islam similar to the first one that lasted for thirteen hundred years is a comprehensive rise that brings up the economic system together with the political system and the moral system together with the legal system It is much needed and sought to introduce to the world a system full of justice fairness and geared toward productivity and human righteousness The new rise of Islam is argued to be in the best interest of the human societies around the world and that the propagated fear of this rise is unfounded The book provides a detailed description of the economic system and the political economy of Islam It provides compelling evidence that the Islamic political economy characterized by sustained productivity and wealth distribution guarantees the satisfaction of the basic needs of a human The Islamic political economy integrates several mechanisms for natural distribution of wealth while it maintains a high level of

productivity through the inhibition of usury hoarding and exploitation The Fall of Capitalism and the Rise of Islam makes extensive references to a score of historians scholars and scientists who provide a fair testimony of the Islamic civilization and the ideology of Islam Byzantium and the Arabs in the Fourth Century Irfan Shahîd,1984 This book elucidates the birth of the new relationship between the Roman Empire and the Arabs and the rise of its institutional forms Shah d discusses the participation of the Arab foederati in Byzantium s wars with her neighbors the Persians and the Goths during which those Arab allies contributed to the welfare of the imperium and the ecclesia The Cambridge Illustrated History of the Islamic World Francis Robinson,1996 Islamic peoples account for one fifth of the world s population and yet there is widespread misunderstanding in the West of what Islam really is Francis Robinson and his team set out to address this revealing the complex and sometimes contrary nature of Muslim culture As well as taking on the issues uppermost in everyone s minds such as the role of religious and political fundamentalism they demonstrate the importance of commerce literacy and learning Islamic art the effects of immigration exodus and conquest and the roots of current crises in the Middle East Bosnia and the Gulf Throughout emphasis is placed on the interaction between Islam and the West from the first Latin translations of the Quran to the fatwa on Salman Rushdie This elegant book deliberately sets out to dismantle the Western impression of Islam as a monolithic world and replace it with a balanced view from current issues of fundamentalism to its dynamic culture and art Francis Robinson is the editor of two outstanding reference works Atlas of the Islamic World Since 1500 Cambridge 1982 and The Cambridge Encyclopedia of Islam 1990 **The Rise of Islam: History of Islam** ,2022-12-06
