## **Ritual Human Sacrifice In Mesoameric 1st Edition:**

Ritual Human Sacrifice in Mesoamerica Rubén G. Mendoza, Linda Hansen, 2024-03-01 This edited volume addresses the environmental and cultural underpinnings of the kind of social conflict that spawned the origins and elaboration of ritualized human and animal sacrifice in Mesoamerica. The chapters variously document the place of cultural evolution and social complexity in the origins and elaboration of ritual human sacrifice, cannibalism and trophy taking across a broad spectrum of Mesoamerican cultural and social contexts that first saw the light of day before 2600 BCE and rapidly developed and proliferated across the Mesoamerican world in the centuries to follow. They study the developments in sacrifice rituals through the centuries into the first millennium CE when the Mexica, Aztec and their allies had elevated ritual human sacrifice such that they produced a plethora of sacrificial acts, modes and manners of death and associated deities to articulate the necro cultures and blood tribute of the times. The chapters further study present day rites of Amerindian communities from throughout Mesoamerica that include paying homage to the deities of earth and sky through sacrifice and consumption of animal surrogates. The interdisciplinary effort undertaken by this international cadre of scientists including anthropologists, bioarchaeologists, art historians, ethnohistorians, iconographers and religious studies experts provides a particularly rich forum for launching an interrogation into the role of conflict, environment and social complexity in the emergence and persistence of ritual violence and human sacrifice in the Mesoamerican world.

Ritual Violence in the Ancient Andes Haagen D. Klaus, J. Marla Toyne, 2016-07-26 Traditions of sacrifice exist in almost every human culture and often embody a society's most meaningful religious and symbolic acts. Ritual violence was particularly varied and enduring in the prehistoric South American Andes where human lives, animals and material objects were sacrificed in secular rites or as offerings to the divine. Spectacular discoveries of sacrificial sites containing the victims of violent rituals have drawn ever increasing attention to ritual sacrifice within Andean archaeology. Responding to this interest, this volume provides the first regional overview of ritual killing on the pre-Hispanic north coast of Peru where distinct forms and diverse trajectories of ritual violence developed during the final 1,800 years of prehistory. Presenting original research that blends empirical approaches, iconographic interpretations and contextual analyses, the contributors address four linked themes: the historical development and regional variation of north coast sacrifice from the early first millennium AD to the European conquest; a continuum of ritual violence that spans people, animals and objects; the broader ritual world of sacrifice including rites both before and after violent offering; and the use of diverse scientific tools, archaeological information and theoretical interpretations to study sacrifice. This research proposes a wide range of new questions that will shape the research agenda in the coming decades while fostering a nuanced scientific and humanized approach to the archaeology of ritual violence that is applicable to archaeological contexts around the world.
