Routledge International Handbook of Sexual Addiction Thaddeus Birchard, Joanna Benfield, 2017-09-11 The concept of sexual addiction has gained increasing recognition in the academic and healthcare communities since the 1990s It has also

captured the attention of the media where there has been much debate over whether it can truly be described as an addiction. What is certain is that many people struggle with out of control sexual behaviour which takes over their lives and has harmful consequences for their relationships, careers and finances. The Routledge International Handbook of Sexual Addiction brings together a comprehensive range of perspectives on sexual addiction from a worldwide selection of scholars and therapists. It sets out to define sexual addiction and to study its causes from a range of different psychological perspectives. A series of presentations of sexual addiction are outlined including internet sexual addiction and the relationship between paraphilias and sex addiction. The handbook considers both individual and group treatment strategies drawing on a wide range of approaches including cognitive behavioural therapy, mindfulness and 12 step programmes. The book studies sex addiction in specific populations including women, adolescents and men who have sex with men. Finally it considers some of the alternative discourses surrounding the concept of sexual addiction. This is the first comprehensive reference book to bring together global viewpoints on advances in research, theory and practice in one volume. This handbook provides an essential guide for academics and students of psychotherapy, counselling, nursing, addiction, sexualities, social work and health and social care as well as professionals in practice and in training working with sexual addiction and related issues.

Primary Love Randall S. Klein, 2010-06-05. In *Primary Love* Dr Klein describes love and intimacy as they evolve in the context of family relations from birth to maturity in adulthood. Once the original attachment and the loving intimate bond between a mother and her infant child are established, primary love is founded and secured. Every relationship of love and intimacy formed thereafter has as its foundation, nature and design the original, pristine loving relationship encountered in the very earliest period of life. When two adults form a mature intimate relationship, it is the unconscious wish of both partners to recapture and claim the bliss and the ecstasy of primary love, nestled securely in a mother's loving and ministering arms. Dr Klein's view of love and intimacy is that which is found in the ideal marriage and family, fully acknowledging that the pure and perfect marriage and family does not exist. Yet the perfectly described nature of marriage and the family serves as an ideal toward which to strive for the ideal, provides the ultimate of pleasure and reward in the human encounter of love.
