The Return of Geopolitics in Europe? Stefano Guzzini, 2012-10-25 A comparative study of the relationship between the end of the Cold War and the resurgence of geopolitics in Europe Eurasian Politics and Society Erman Akılı, Hüsrev Tabak, Ozgur Tufekci, Alessio Chiriatti, 2017-05-11 Eurasian Politics and Society Issues and Challenges studies the various outcomes of regional transformation the ideology of Turkish Eurasianism and the Eurasian Economic Union In doing so it looks at the power struggle in the South Caucasus Kazakhstan's relations with Russia Russia's sense of Eurasianism and geopolitical awareness as a pattern of imperial self perception for Putin's Russia The book also provides a detailed analysis of the situation in Syria from a humanitarian perspective and utilizes an innovative approach in exploring how the European Neighbourhood Policy resonates in Neo Functionalism As such this volume represents a valuable resource for graduate and undergraduate students academics and researchers in the areas of security political economy European studies post Soviet studies and Eurasian studies Eurasia 2.0 Mark Bassin, Mikhail Suslov, 2016-03-17 This book discusses the return of geopolitical ideas and doctrines to the post Soviet space with special focus on the new phenomenon of digital geopolitics which is an overarching term for different political practices including dissemination of geopolitical ideas online using the internet by political figures and diplomats for legitimization and outreach activity and viral spread of geopolitical memes Different chapters explore the new possibilities and threats associated with this digitalization of geopolitical knowledge and practice Our authors consider new spatial sensibilities and new identities of global as well as local Selves the emergence of which is facilitated by the internet They explore recent reconfigurations of the traditional imperial conundrum of center versus periphery Developing Manuel Castells argument that social activism in the digital era is organized around cultural values the essays discuss new geopolitical ideologies which aim to reinforce Russia's spiritual sovereignty as a unique civilization while at the same time seeking to rebrand Russia as a greater soft power by utilizing the Russian speaking diaspora or employing traditionalist rhetoric Great Power imagery enemy making and visual mappings of Russia's future territorial expansion are traditional means for the manipulation of imperial pleasures and geopolitical fears In the age of new media however this is being done with greater subtlety by mobilizing the grassroots contracting private information channels and de politicizing geopolitics Given the political events of recent years it is logical that the Ukrainian crisis should provide the thematic backdrop for most of the authors The Changing Geopolitics of Eastern Europe Dr A H Dawson, Rick Fawn, 2013-11-05 This work covers the uncertain geopolitical situation of some countries of Central and Eastern Europe including some of those which are hoping to enter the European Union in the near future some for which entry is far off and some which may never seek or be eligible for membership *New Directions in Russian International Studies* Andrei Tsygankov, 2005-03-23 Western social scientists can improve their understanding of post Soviet Russia by studying the new discipline of Russian International Relations IR This collection introduces recent developments in Russian international

studies It identifies key trends in Russian IR knowledge that are reflective of the transitional nature of Russia's post Soviet change The volume also demonstrates that Russia remains open to different theoretical and ideological traditions It invites scholars to move away from excessively West centered IR scholarship by exploring indigenous Russian perceptions and inviting dialogue across the globe Andrei Tsygankov and Pavel Tsygankov on Russia's identity and IR theory Alexander Sergunin on post communist international discussions Tatyana Shakleyina and Alexei Bogaturov on the Russian Realist school of international relations Pavel Tsygankov and Andrei Tsygankov on the discourse of Russian Liberal IR theorists Mikhail Ilyin on the Russian study of globalization and equity Eduard Solovyev on Russian geopolitics Nail Mukharyamov on studies of ethnicity in post Soviet Russia Stanislav Tkachenko on Russian international political economy Marina Lebedeva on Russian studies of international negotiations

The Ukrainians Andrew Wilson, 2022-11-08 As in many postcommunist states politics in Ukraine revolves around the issue of national identity Ukrainian nationalists see themselves as one of the world's oldest and most civilized peoples as older brothers to the younger Russian culture Yet Ukraine became independent only in 1991 and Ukrainians often feel like a minority in their own country where Russian is still the main language heard on the streets of the capital Kiev This book is a comprehensive guide to modern Ukraine and to the versions of its past propagated by both Russians and Ukrainians Andrew Wilson provides the most acute informed and up to date account available of the Ukrainians and their country Concentrating on the complex relation between Ukraine and Russia the book begins with the myth of common origin in the early medieval era then looks closely at the Ukrainian experience under the tsars and Soviets the experience of minorities in the country and the path to independence in 1991 Wilson also considers the history of Ukraine since 1991 and the continuing disputes over identity culture and religion He examines the economic collapse under the first president Leonid Kravchuk and the attempts at recovery under his successor Leonid Kuchma Wilson explores the conflicts in Ukrainian society between the country's Eurasian roots and its Western aspirations as well as the significance of the presidential election of November 1999

Russia's Foreign Policy Andrei P. Tsygankov, 2025-06-26 This clear and comprehensive text explores the past thirty years of Soviet Russian international relations comparing foreign policy formation under Gorbachev Yeltsin Medvedev and Putin Challenging conventional views of Moscow's foreign policy Andrei Tsygankov shows that definitions of national interest depend on visions of national identity

and is rooted both in history and domestic politics Yet the author also highlights the role of the external environment in affecting the balance of power among competing domestic groups Drawing on both Russian and Western sources Tsygankov shows how Moscow's policies have shifted under different leaders' visions of Russia's national interests He gives an overview of the ideas and pressures that motivated Russian foreign policy in six different periods the Gorbachev era of the late 1980s the liberal Westernizers era under Kozyrev in the early 1990s the relatively hardline statist policy under Primakov the more pragmatic course of limited cooperation under Putin and then Medvedev and the assertive policy Putin has implemented since his return to power most importantly in his invasion of Ukraine which began in 2022

The Bear Watches the Dragon Alexander Lukin, 2016-09-16 China and Russia two giants dominating the Eurasian landmass share a history of understanding and misunderstanding whose nuances are not well appreciated by outsiders In his interpretation of this relationship from the Russian point of view Alexander Lukin shows how over the course of three centuries China has seemed alternately to threaten mystify imitate mirror and rival its northern neighbor Lukin traces not only the changing dynamics of Russian Chinese relations but the ways in which Russia's images of China more profoundly reflected Russia's self perception and its perceptions of the West as well As both Russia and China take distinctive approaches to political and economic development and integration in the twenty first century global economy this reinterpretation of their relationship is timely and valuable not only to historians but to all students of international affairs

Mending Fences Elizabeth Wishnick, 2014-07-01 Mending Fences illuminates the forces driving Moscow's China policy from the Ussuri River clashes in 1969 to the strategic partnership of the 1990s Elizabeth Wishnick analyzes the efforts of Soviet leaders simultaneously to maintain their supremacy in the international communist movement defend their borders from a perceived Chinese threat and ensure the compliance of regional authorities in enforcing China policy

Journal of Strategic Studies ,2003 O retorno da geopolítica na Europa Stefano Guzzini,2021-04-27 O fim da Guerra Fria demonstrou a possibilidade histórica de mudança da política e aparentemente mostrou a superioridade das abordagens neorealistas nas Relações Internacionais. No entanto, no período subsequente, muitos países europeus experimentaram o ressurgimento de uma realidade distintamente realista. A geopolítica enfatiza, de um lado, a relação entre política e poder e, de outro, entre território, localização e ambiente. Este estudo comparativo mostra como o renascimento da geopolítica veio não apesar do fim da Guerra Fria, mas por causa dele. Desorientados pelos eventos de 1989 em sua autocompreensão e na concepção de seus papéis no cenário mundial, muitos atores da política externa europeia usaram o determinismo do pensamento geopolítico para encontrar rapidamente seu lugar na política mundial. O autor desenvolve uma metodologia construtivista que permite estudar mecanismos causais e sua abordagem comparativa permite uma ampla avaliação de algumas das dinâmicas fundamentais da segurança europeia.

Baltic Democracy at the Crossroads Sten Berglund,2003
Little more than a decade after the fall of communism the Baltic States and Poland alongside several other Central European states have been invited to join the European Union from 2004. The speed of change has been breathtaking, surprising even the most optimistic voices. This volume gives a comprehensive overview of the state of democracy around the eastern Baltic seaboard, highlighting in particular the importance of elites in newly emerging democracies. This is the first volume to provide in-depth analysis of the rapidly changing political circumstances of the Baltic countries. Poland and Kaliningrad to a wide audience covering the transformation from the Soviet style nomenklatura to competitive elites, changing political behavior and the links between citizens and elites. In addition, the book covers the interconnections between networks of elites including local elites. One chapter also analyzes the delicate issue of the detached Russian region of Kaliningrad.
